CONFÉRENCE EUROPÉENNE DES POUVOIRS LOCAUX EUROPEAN CONFERENCE OF LOCAL AUTHORITIES

COMITE PERMANENT

Liste des jumelages entre villes et communes
des pays membres du Conseil de l'Europe
préparée par le Secrétariat de la Conférence

STANDING COMMITTEE

CONGRESS001880

List of town pairings in Council of Europe
member countries drawn up by the Secretariat
of the Conference

8057
01.35/7.2

Explications introductives

Cette liste de jumelages a été rédigée en suivant pour chaque pays (Autriche, Belgique, Danemark, etc.) l'ordre alphabétique des villes qui ont établi des jumelages (1ère colonne), et en indiquant dans les autres colonnes les villes étrangères avec lesquelles ont été établis ces contacts (tableaux I - XIII).

Les jumelages entre villes scandinaves sont groupés à part (tableau XIV) puisqu'ils concernent presque uniquement la Scandinavie.

Le tableau XV se réfère également aux jumelages entre trois pays européens non membres du Conseil de l'Europe (Espagne, Finlande, Monaco) et les pays membres du Conseil de l'Europe.

Le tableau XVI groupe les jumelages réalisés entre pays non européens et pays européens membres du Conseil de l'Europe.

Le dernier tableau (XVII) relate les jumelages entre régions historiques ou administratives.

Introduction

In Tables I-XIII of this list of pairings, the first column gives, in alphabetical order, the names of the towns in each Council of Europe member country (Austria, Belgium, Denmark etc.) which have pairing arrangements with towns in other member countries; the names of the towns with which they are paired are shown in the other columns.

The pairing arrangements of Scandinavian towns are listed separately, in Table XIV, as they are almost all confined to Scandinavia.

Table XV includes pairings between Council of Europe member countries and three non-member European countries (Finland, Monaco and Spain).

Table XVI shows pairings between Council of Europe member countries and non-European countries.

Table XVII is concerned with pairings between historical or administrative regions.
