## “DRUG RELATED CYBERCRIME”

The Pompidou Group’s working group on Drug Related Cybercrime is the only existing European multidisciplinary platform including the private sector in order to tackle the increasing phenomenon of drug-related cybercrime on internet and darknet. Networking is most important in Pompidou Group meetings, close and excellent cooperation with all international bodies, the private sector and law enforcement in the battle against Drug Related Cybercrime needs to be continued. The multidisciplinary structure and professional cooperation with all partners is key to the work of this group of experts.

### 5<sup>th</sup> WORKING GROUP ANNUAL MEETING

18 – 19 April 2018

**Dublin**

Dublin Castle, Ireland

### WHO SHOULD ATTEND

Experts on Drug Related Cybercrime from police, customs, border forces, prosecutors, judges, international organisations, scientists, the private sector, postal services, express mail industry and IT-experts who are already involved in the research, control, detection, investigation or prosecution of Drug Related Cybercrime or might be involved in this line of work in the near future.

### MAIN AIMS

The main goal for the future is to be a platform with a means of contact to all partners in order to increase networking, which is necessary for a rapid exchange of information and best practices to combat new phenomenon through improved control, risk management and profiling. It is necessary to increase the knowledge on detection, investigation and prosecution measures through risk assessment, awareness rising, exchange of information, sharing of best practices, networking and multidisciplinary cooperation with international organizations, third countries, scientists, the private sector and through judicial cooperation. Awareness has to be raised on the developments of virtual currencies and concrete policies and legislation have to be developed and adjusted with regard to seizures and confiscation of virtual currencies.
