Discussion

- ⦿ The question of Entrapment
- ⦿ The question of Vigilanteism
- ⦿ The question of NGOs doing “police work”

The Novel Approach

- Pro-Active: intervene BEFORE crime is committed,
- Discourage potential perpetrators (the so-called “casual” pedophiles.
- Caution would-be perpetrators.
- Visit predators and search their computers for child pornography.
- Mandate to “patrol” public chatrooms.
- Internet should remain free but not lawless
