Cybercrime Convention Committee (T-CY) - current activities

- transborder access to data
- co-operation with G8 and EU to merge existing lists of contact points (24/7 network)
- towards new standards on transborder access to data, ISP responsibilities, jurisdiction?

Challenges ahead

- establish Budapest Convention as the universal standard
- strengthen T-CY as a global network for information sharing, policy-making, standard-setting and, eventually, also evaluation?
- associate private sector and promote public-private partnerships
