# Why GPEN

- Specialist training
- Court presentation
- Cooperation

## TRAINING MATERIALS

One of the aims of the G PEN project is to facilitate the education and training of e-crime prosecutors around the world. There is a global need for training and standardisation of legal and procedural standards in dealing with e-crime matters. Training of prosecutors to prosecute e-crime cases is a priority area for international efforts against cyber crime.

Training materials can be downloaded and adapted or improved for use by prosecutors around the world. The revised training programme can then be uploaded to the system to enable prosecutors in other countries to take advantage of the improvements or changes that you have made.

## LIBRARY

The GPEN library is designed to enable prosecutors from around the world to share best practice and expertise with one another. E-crime is a global issue and in order to fight it effectively we need to work together and pool our resources.

Library information can be downloaded for use by law enforcement organisations and you can also upload information that you think will be of use to prosecutors in other countries.

**All library material listed here are free for use of law enforcement organisations only.**
