**We are the first in the world to offer Rimonabant (generic Acomplia) to you**  
The media has reported about it: a diet product that reduces your weight, makes you quit smoking and even decreases your need of alcohol and the best thing is: without side effects! Rimonabant can be used by all persons who want to lose weight because as opposed to other products it does not affect for example a high blood pressure.

**It is also called a miracle...**  
...which makes shopkeepers out of other diet products when it is released in 2007. We can offer this product now! The product is sold as "Rimonabant" according to the active ingredient in the product because Acomplia which it will be called once released is patented and can therefore not be used by us.
