Nationwide Investigations / Operations

Downfall 2	4/24/2015	<p>USAM 9-75.110 Nationwide Investigations</p> <p>"Nationwide Investigations" are investigations that will likely have an impact in at least fifteen districts. (See USAM 9-75.100 "Multiple District Investigations and Prosecutions" if the investigation will likely affect less than fifteen but more than one district.) Because such investigations will have a broad impact, an attorney should always supervise their development and implementation. The supervising attorney can be either a USAO or CEOS attorney. The supervising attorney, whether from CEOS or USAO, shall notify CEOS and the Child Exploitation Working Group of the AGAC (through CEOS) during the development of a nationwide investigation, and shall cause to be notified all United States Attorneys of the nationwide investigation prior to its implementation. The supervising attorney conducting a nationwide investigation shall notify the Child Exploitation and Obscenity Coordinator in each district where a potential defendant is located as soon as that information is developed. This will permit any United States Attorney to provide input regarding potential problems with the initiative that may hinder later prosecutions in his or her district.</p> <p>The supervising attorney shall also complete and submit to CEOS and the Child Exploitation Working Group of the AGAC (through CEOS), a "Notification of Child Exploitation Investigation" form. A review of the proposed nationwide investigation will be performed by an Advisory Committee (appointed by the Child Exploitation Working Group of the AGAC). The Advisory Committee will be comprised of six federal prosecutors with expertise in the area of child exploitation investigations, one attorney from the Child Exploitation and Obscenity Section of the United States Department of Justice, and technical advisor(s) as deemed necessary by the Advisory Committee. The Advisory Committee will review all proposals for nationwide child exploitation investigations and offer advice regarding the investigation. The Advisory Committee, upon receiving a notification, will notify all districts that a notification has been received and is being considered by the Advisory Committee. The Advisory Committee will discuss the proposal with the initiating district and present advice to the initiating district. The Advisory Committee will prepare a brief report regarding its advice and disseminate the report to all districts within fourteen working days of receiving the notification. The Advisory Committee is also available for consultation and advice concerning investigations that do not rise to the level of "nationwide investigations" but frequently involve many of the same issues as those encountered in large scale investigations</p>
