Steering Committee Meeting Emerald Network  
Phase II Council of Europe, Strasbourg, 14  
January 2016

## Main achievements in 2015

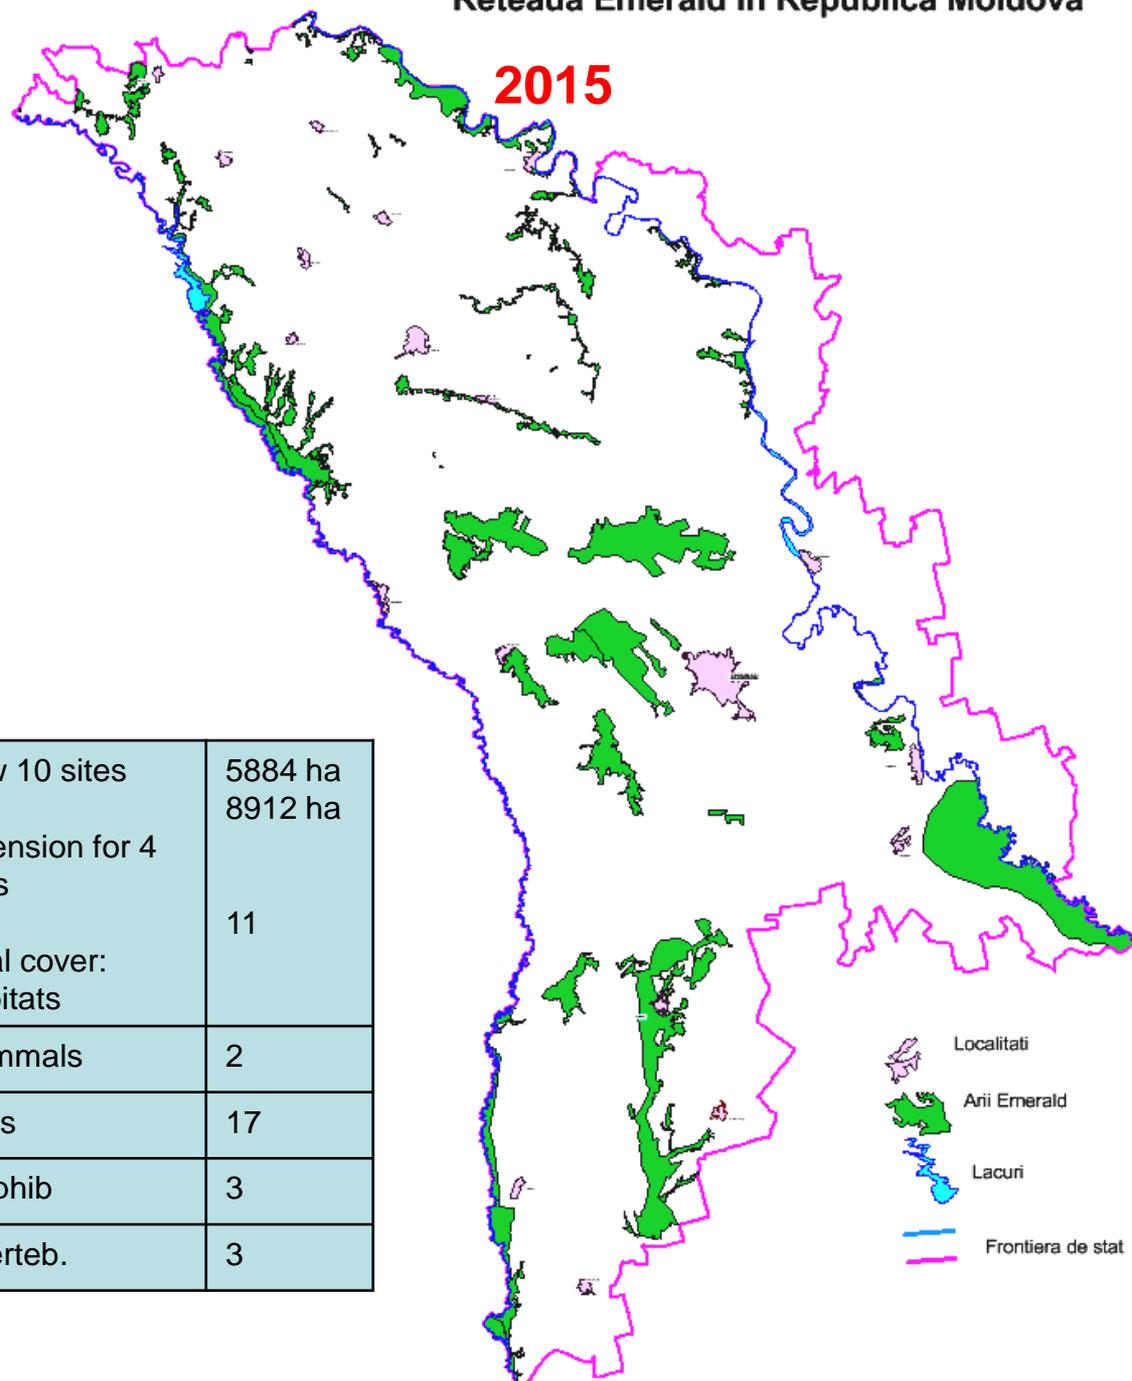

- **Identifying new species distribution information:** Total new 26 species (1 mammals, 20 invertebrates, 14 new birds and excluded 13 birds)
- **Identifying new sites:** new 10 sites (8912 ha) and extension for 4 sites (5884 ha). Total 14796ha.
- **Stakeholders involvement: expertise, consultation, discussion**
  - Local project consultants from academia, university, NGO sector
  - National seminar – July 2016 with gov. sectorial staff, National reserves, academia, ecological inspection, forestry personnel, NGOs etc.
  - Round Table – September, 2015, USM with academia and students.
  - “Caravana BIO” – May 2015 – 4 trips to districts, meetings with local authorities, public, students etc.
  - Experts’ workshop – November 2016, preparation for the Biogeographic seminar.
- **Field trips** (15 trips): to Nisporeni, Stefan Voda, Ialoveni, Criuleni, Soroca, Rezina, Edinet, Anenii Noi, Briceni, Singerei, Cantemir, Cahul.
- **Follow-up of the evaluation results of the Biogeographic Seminar in Minsk:** revision and self evaluation of birds species (Total 95 species)
- **Policy development:** The National Biodiversity Strategy and Action Plan for 2015-2020, approved in May 2015 by the Government and contains actions for the Emerald Network.
- **Vizibility and education:** Brochure on Emerald Network published, Red Book 2016, Caravana BIO, Round table at USM, University curricula on Biodiversity, bulletin USM, websites [www.bsapm.nmoldnet.md](http://www.bsapm.nmoldnet.md) , <http://biodiversitate.md>, [www.usm.md](http://www.usm.md), [www.mediu.gov.md](http://www.mediu.gov.md)
- **Cooperation/dissemination:** BirdLife Int., GEF/UNDP projects, EU Clima-Est project, EU/WB-ENPI/FLEG, Winsdom, Ecospectrum.

### • **National participation:**

- Government official from the Min.Environment;
- Expert/consultant- academia
- NGO – Birdlife Int.

## Difficulties/solutions

- **Lack or insufficiency of updated information on species and habitats (published papers):**
  - Field trips and involvement of postgraduate, doctoral degree and M.sc students, academia experts.
  - Cross/sectorial consultation via small working group meetings, national seminars (environm., forestry, agriculture, national reserves, education, NGOs, local community etc.)
  - Collaboration with available projects/programmes, NGOs
- **Insufficient information and awareness through the decision makers, local authorities, large public:**
  - public information and visibility via the national seminar, round table, “Caravana BIO”, field trips, brochure, dissemination of Calendar Emerald -2015
- **Insufficiency of actual information on Birds species for preparation to the Biogeographic seminar on evaluation:**
  - Consultation available maps of Birdlife Int., involvement of NGOs, students, field trips etc.
- **Technical improvement of GIS mapping**
  - using MapInfo with support of Orthophoto via [www.geoportal.md](http://www.geoportal.md) (used projection UTM (WGS 84) Zone 35, Northern Hemisphere)
