

## HORIZONTAL FACILITY FOR WESTERN BALKANS AND TURKEY

### “Strengthening the protection of the rights of sentenced persons”

The Council of Europe will assist the national authorities in overcoming the identified shortcomings and practical deficiencies related to the treatment of sentenced persons in the beneficiary country. The project will be implemented in close cooperation and partnership with the Ministry of Justice (Directorate for Execution of Sanctions), and will include a wider group of national partners and stakeholders, including the Ombudsman and the National Preventive Mechanism, the Standing Inquiry Committee for Protection of Civil Rights and Freedoms, the Public Prosecutor’s Office and civil society organisations active in the penitentiary field and combatting ill-treatment and impunity.

The Project is co-funded by the European Union and the Council of Europe as part of the “Horizontal Facility for Western Balkans and Turkey” (Horizontal Facility) and will be implemented by the Council of Europe. The Horizontal Facility will provide technical assistance and expertise in the areas of ensuring justice; fighting corruption, economic crime and money laundering; promoting freedom of expression and information; and promoting anti-discrimination and protection of the rights of vulnerable groups, with the aim to assist the authorities in implementing key recommendations of relevant Council of Europe bodies, prioritised according to the needs within the enlargement negotiations of the European Union. The duration of the project is set at 30 months and it is expected to be completed by 30 November 2018, with an overall budget of EUR 950,000.

### Background information

The country is party to the European Convention on Human Rights (ECHR), as well as the European Convention for the Prevention of Torture and Inhuman or Degrading Treatment or Punishment, thus prohibiting torture and other forms of inhuman or degrading treatment or punishment.

However, the reports of the European Committee for the Prevention of Torture (CPT), the EC Progress reports, the reports by the National Preventive Mechanism (NPM) and other relevant reports produced by human rights monitoring bodies detect serious and consistent shortcomings that could lead to ill-treatment of imprisoned persons. The CPT Report on the 2014 visit to the country noted that in many aspects the situation has further deteriorated since 2011, especially in the area of ill-treatment of inmates and inter-prisoner violence. The CPT’s delegation also found that the lack of training and support provided to staff is linked to problems highlighted in the report such as ill-treatment, inter-prisoner violence and a lack of activities for inmates. In several reports, the NPM has been pointing to the poor management, lack of rehabilitation and educational activities, as well as corruption, ill-treatment of inmates by prison officers and inter-prisoner violence.

The Council of Europe is the continent's leading human rights organisation. It comprises 47 member states, 28 of which are members of the European Union. All Council of Europe member states have signed up to the European Convention on Human Rights, a treaty designed to protect human rights, democracy and the rule of law. The European Court of Human Rights oversees the implementation of the Convention in the member states.

The European Union is a unique economic and political partnership between 28 democratic European countries. Its aims are peace, prosperity and freedom for its 500 million citizens – in a fairer, safer world. To make things happen, EU countries set up bodies to run the EU and adopt its legislation. The main ones are the European Parliament (representing the people of Europe), the Council of the European Union (representing national governments) and the European Commission (representing the common EU interest).
