

Chatham House initiatives on Cybercrime

Joyce Hakmeh- Fellow- International Security Department

Octopus Conference 2016- Cooperation against cybercrime
16-18 November 2016, Council of Europe , Strasbourg- France

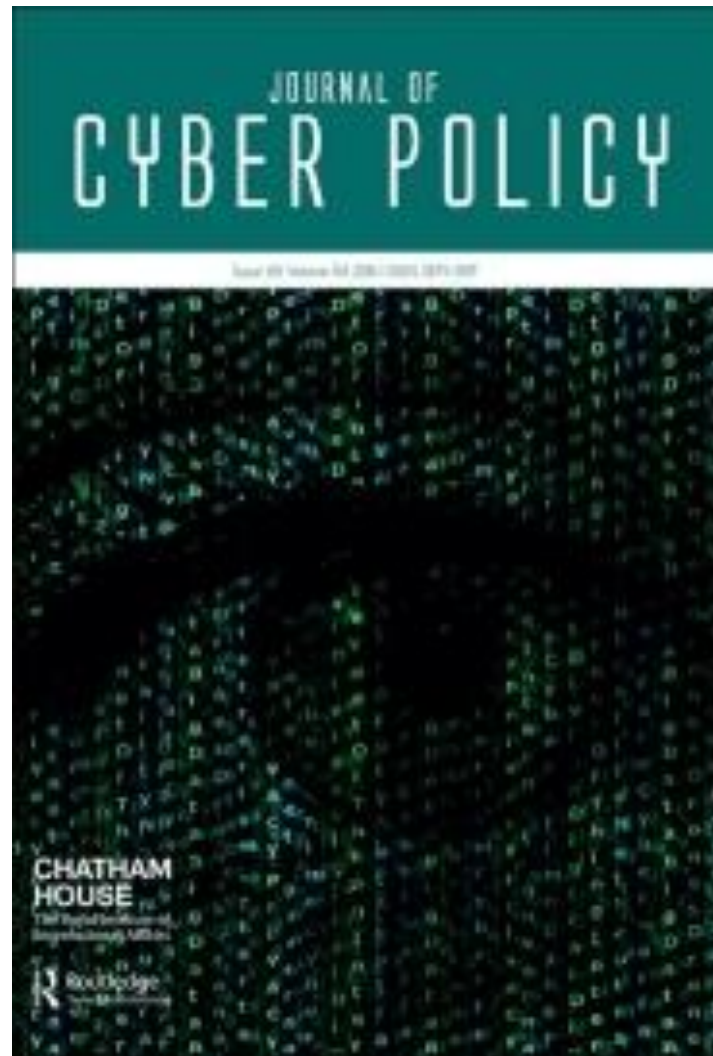

On Chatham House

- The Royal Institute of International Affairs an independent policy institute founded **in 1920** based in London.
- Helps build a sustainably **secure, prosperous and just** world.
- Carries out **independent and rigorous analysis** of critical global, regional and country-specific challenges and opportunities.
- **No. 1 think tank** outside the US for eight consecutive years and No. 2 worldwide for the past five years
- The institute's award-winning reports, papers, books and other research outputs are a **vital resource** for leaders and policy-makers in government, the private sector and civil society.
- ***International Affairs*** and ***The World Today***

Chatham House Rule

When a meeting, or part thereof, is held under the Chatham House Rule, participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed.

1. Journal of Cyber Policy

What?

- Launched by Chatham House International Security Department and Routledge, Taylor and Francis, in May 2016
- The **only Journal** that provides analysis that bridges the gap between those who work in cyber technology and those who work in cyber policy.

How?

- Draws upon a geographically and culturally diverse set of contributors.
- Places a strong emphasis on national and international cyber policy challenges.
- Addresses cross-disciplinary challenges.
- Topics of particular interest:
 - cybercrime
 - cyber role in warfare
 - internet governance
 - implications of emerging technologies

2. Research on cyber policy

Producing research on key thematic and regional aspects of cyber policy on issues including:

- Cyber security and resilience of critical infrastructure;
- Military systems and the maritime sector;
- Internet governance;
- Cybercrime and the dark web;
- Blockchain technology and its impact on different markets;
- Encryption;
- Access to the internet;
- Women in the digital economy;
- The insurance industry and cyber resilience; and
- The internet of things.

Global Commission on Internet Governance

- A partnership between Chatham House and the Centre for International Governance Innovation (CIGI).
- Aimed at informing policy debate and offering guidance on emerging challenges while simultaneously championing the principles of freedom of expression and the free flow of ideas over the Internet
- A global Research Advisory Network (RAN) supported the Commission, producing more than 50 research papers
- **One internet report:** puts forward key steps that everyone needs to take to achieve an **Open**, **Secure**, **Trustworthy**, and **Inclusive** Internet.

Cybercrime Law in the GCC countries

3. Annual Chatham House Cyber conference

- Held in central London, attracting high profile speakers and participants.
- A key event in the calendar for cyber experts and practitioners.
- A landmark feature on for governments, academia and the private sector.

Previously:

- **2016:** Evolving Threats, Security Developments and Improving Cooperation
- **2015:** Security, Privacy and Competing Interests
- **2014:** Building Resilience, Reducing Risks
- **2013:** Balancing Risks, Responsibilities and Returns
