

LAW ENFORCEMENT, CYBERSPACE & JURISDICTION

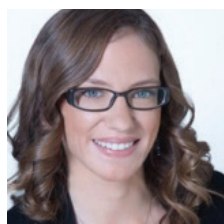

IGF Workshop 87

12-13:30, Wednesday, 7th December, Room 3, IGF

- How does cyberspace challenge concepts of territoriality and jurisdiction?
- What are the challenges for law enforcement authorities and how can they protect the rule of law in cyberspace?
 - What national, regional and global solutions are proposed to determine jurisdiction online?
- How to avoid fragmentation of cyberspace, reduce conflicts of law and ensure the rights of individuals online?

Join this interactive session on challenges and solutions with experts from law enforcement, Council of Europe, tech industry, civil society and academia.
