## **1 BACKGROUND INFORMATION**

The Project against Corruption in Albania (PACA) – started on 1 September 2009. The present report summarizes the activities carried out during the inception phase which started since the beginning of the project until 30 November 2009.

## **1.1** Beneficiary country and institution(s)

| Beneficiary Country:          | Albania  |
|-------------------------------|--|
| Main Beneficiary Institution: | Department of Internal Administrative Control and Anti-corruption (DIACA); also main counterpart institution for the implementation of the project.  |
| Project Beneficiaries:        | High Inspectorate of Declaration and Audit of Assets (HIDAA);<br>Ministry of Education and Science of Albania; National Institute for<br>Curricula Development and Teacher Training; Ministry of Justice;<br>General Prosecutor's Office; High Council of Justice; School of<br>Magistrates; State Police; Ministry of Finance – Directorate General<br>for the Prevention of Money Laundering, Agency for the<br>Administration of Seized and Confiscated Assets (ASCA); Ministry<br>of Interior – Department for Public Administration (DPA); Training<br>Institute for Public Administration (TIPA) |

## **1.2** Contracting authority

Commission of the European Communities (Delegation of the European Commission to Albania).

## **1.3** Implementing organisation

The Council of Europe is responsible for the implementation of the project and the use of the project funds under the contract with the European Commission. Within the General Secretariat of the Council of Europe in Strasbourg, Directorate General of Human Rights and Legal Affairs, the Directorate of Co-operation, and more specifically the Economic Crime Division is responsible for the overall management and supervision of the project. Additionally, the Education Policy Division at the Directorate of Education will provide substantive technical guidance on matters related to the Purpose 2 of the project (prevention of corruption in the education sector). A Project Team based in based in Tirana supported by Economic Crime Division and Education Policy Division in the Headquarters of Council of Europe will be responsible for day to day implementation of the project in Albania.

## 2 THE PROJECT

Project objectives and activities:

PACA's overall objective is to contribute to democracy and the rule of law through the prevention and control of corruption. The project's specific objectives are the following:

1) To enhance the implementation of anti-corruption policies and strategies (Anti-corruption Strategy and Action Plan 2007-2013) in line with GRECO and MONEYVAL recommendations and European Partnership commitments;

2) To contribute to the prevention of corruption in the education sector by improving transparency, accountability and social participation in the education system.

PACA will deliver these objectives through the provision of targeted expertise and training by international and national experts, and through outreach to all relevant stakeholders and civil society on the expertise acquired.

### 2.1 The Anti-corruption and Good Governance Situation in Albania

#### 2.1.1 Corruption

According to the European Commission's Regular Report published on 15 October 2009, corruption "is prevalent in many areas and continues to be a particularly serious problem." According to evidence from surveys and studies corruption remains widespread. While surveys of perceptions of corruption should be treated with great caution, Albania's score in the Transparency International Corruption Perceptions Index has risen from its traditional level of around 2.5 on a scale of 1-10 (where 10 is 'least corrupt' and 0 is 'most corrupt') between 2001 and 2006 to 3.4 in 2008 and 3.2 in 2009.<sup>1</sup>

The improvement indicated by the CPI may reflect progress in certain areas. In a 2009 survey conducted by the Institute for Development Research and Alternatives<sup>2</sup>, out of 20 institutions and groups evaluated by citizens 14 out of 20 fell under the middle of a scale of 0 to 100 where 0 means 'very honest' and 100 'very corrupt'; the average score was 61.5. Customs and tax officials, ministers, parliamentarians and doctors were perceived as the most corrupt. These scores remained similar from 2008. However, the same survey also indicated a slight fall in actual experience of corruption since 2005: the proportion of citizens reporting at least one experience with corruption in the past 12 months fell nine percentage points from 2005 to 57.1%. Moreover, a very large proportion of these experiences were in the healthcare sector. Likewise, the World Economic Forum's most recent Global Competitiveness Report 2009–2010<sup>3</sup> (GCR) ranked Albania 96 out of 133 countries, twelve places higher than the previous year. Despite improvements in some key areas including health and education, judicial independence and transparency in government policy-making were among areas ranked poorly.

Despite signs of some improvement, levels of corruption appear to remain high. Respondents for the GCR ranked corruption as the most problematic factor for doing business in Albania, followed by inefficient government bureaucracy, policy instability, tax regulations and inadequate supply of infrastructure.

#### 2.1.2 Policies to improve governance and tackle corruption

The EC Regular Report judged that Albania has 'undertaken more coordinated efforts to fight corruption in some areas' after the adoption in October 2008 of the Strategy for Preventing and Combating Corruption 2008-2013 (ACS) and its Action Plan in January 2009. The Report mentions for example reforms of procedures to reduce bureaucracy and contacts with officials such as e-procurement, e-taxation, and 'one-stop shops' for business registration and licenses, the introduction of a system of anonymous university entrance exams, legislative amendments in line with the Council of Europe's Civil Law Convention on Corruption, the establishment of the new Joint Investigative Unit (see below) and a memorandum of cooperation between the High Inspectorate for Declaration and Audit of Assets (HIDAA) and the Directorate General for Prevention of Money Laundering (the

<sup>3</sup> World Economic Forum, Global Competitiveness Report 2009–2010, http://www.weforum.org/pdf/GCR09/GCR20092010fullreport.pdf, pp. 66-67.

Albanian Financial Intelligence Unit). The fulfilment of 11 out of 13 of the recommendations of the Group of States against Corruption (GRECO) 2004 Second Round Evaluation Report is also mentioned.

However, according to the report implementation of the Strategy remains inconsistent, with efforts in other areas either stalling or being selectively applied. A more systematic and strategic approach is recommended, in particular the establishment of realistic implementation mechanisms and timeframes, monitorable indicators and adequate resources. In general the report notes a need for strengthening the capacity of agencies involved in preventing and fighting corruption, from investigation and prosecution bodies to supervisory and auditing bodies. The report mentions specifically the health sector as an area – where corruption 'remains high at almost all levels' - with no significant progress; political party financing as 'a matter of concern' that needs to be addressed; and a 'culture of impunity' of higher officials that needs to be ended through real judicial independence and a convincing track record of verdicts and sanctions in corruption cases.

In specific areas of anti-corruption and good governance-related policies, the following developments since mid-2009 are of particular relevance:

#### Investigation of Financial Crime

In September 2009 a draft "National Strategic Document for the Investigation of Financial Crimes" was completed by the General Prosecutor's Office, General Directorate of the State Police, General Directorate for the Prevention of Money Laundering (FIU), General Directorate of Customs, General Directorate of Taxation, Bank of Albania and State Intelligence Services (SIS). The draft defines the vision and the strategic objectives of the Government for the investigation of financial crime in Albania, the institutional framework and roles of each actor, institutional cooperation and coordination (including international cooperation), resources and responsibilities for the implementation of the strategy, together with a detailed action plan for implementation. If officially adopted, the document will be the defining cornerstone for the detection, investigation and prosecution of economic and financial crime.

#### Joint Investigation Units

Following the establishment in 2007 of the Tirana Joint Investigation Unit (JIU) based on a Memorandum of Cooperation between the Prosecutor-General (PG), Ministry of Interior (MoI), Ministry of Finance (MoF), State Intelligence Service (SIS), High Inspectorate for the Declaration and Audit of Assets (HIDAA) and Supreme State Audit Institution (SSAI) and the composition of a team of prosecutors, judicial police officers, customs officials and tax investigators; in May 2009 the same stakeholders signed another memorandum to establish regional JIUs, and more specifically in Durrës, Shkodra, Korça, Fier, Vlora and Gjirokastra. The JIUs have been operative for 2-3 months with jurisdiction over 35 criminal offences under the umbrella of corruption and economic crime. The main goals of the Units are to be pursued through joint efforts to implement special investigative techniques, deepen institutional cooperation and provide training and equipment.

#### Increased activity by the FIU

According to press reports on information provided to a parliamentary committee by the Director of the FIU in November 2009, between January and October 2009 about 3.15 million Euro in assets were seized following proceedings initiated on the basis of notifications by the FIU of suspicious transactions. An increase was also reported in the number of referrals by the FIU of suspicions of tax evasion to relevant government agencies from 7 to 180 between 2007 and 2009. The FIU appears to be progressing in terms of processing suspected cases of money laundering or financing of terrorism: the Director of the FIU reported to the parliamentary committee that in the first 10 months of the ongoing year, 70 cases of suspected money laundering and terrorism financing have been referred to the State Intelligence Service

# Amendment/replacement of the 2004 Law on Preventing and Combating Organised Crime (Anti-mafia Law)

A 2007 decision by the Supreme Court of Albania ordering courts not to grant requests by prosecution offices on the basis of the Anti-mafia Law for the forfeiture (seizure or confiscation) of assets acquired by convicted persons before criminal proceedings had been initiated against them brought the practical application of the law to an end. Such a decision could have been seen as 'undermining' Albania's efforts to implement its international commitments to curb organised crime. The Government consequently proposed a new law to replace the 2004 Law, which was approved by Parliament on 3 December 2009. The new law has the following main objectives:

- to make it easier for relevant state agencies to confiscate proceeds from crime;
- to expand the scope of the 2004 law aimed at including property owned by those suspected of money laundering and exploitation of prostitution by aggravated means; and
- to make a clear distinction between a forfeiture proceeding under civil law and a criminal law proceeding, an area that was previously very unclear and which made possible the 2007 Supreme Court ruling.

### DIACA, the Anticorruption Strategy and Action Plan

#### Capacity of DIACA and the implementation and reporting framework

Regarding DIACA's capacity in general, in early December 2009 it altered the breakdown of its 10 staff by transferring one member from auditing/inspection duties to a coordination role meaning a breakdown of 8 inspectors and 2 coordinators. This member (Mr Saimir Struga) will have specific responsibility for communication with the PACA Project Team in addition to Mrs Helena Papa.

According to DIACA it has been unable so far to fully implement the following tasks listed under Article 4.d and 4.e of the Decree for the Adoption of the Statute on the Functions and Internal Administrative Control and Anti-corruption Procedures of the Council of Ministers:

- providing in cooperation with the Department of Public Administration counselling and training through seminars and working meetings for civil servants of the public administration in order that they learn about the applicable legislation in the area of preventing and combating corruption, and promote best practices;
- raising the awareness of public administration on issues of the fight against corruption and eliminating abusive practices

In addition DIACA states that while according to Article according to 4ë of its Statute it has been providing reports on anti-corruption measures adopted by ministries and their subordinate institutions in its capacity as Secretariat to the Inter-ministerial Working Group for Implementation the Anti-corruption Strategy, it has not been able to carry this out optimally due to deficiencies in reporting by state institutions.

On the basis of the problems noted, the project has been asked to assist DIACA in enhancing coordination through the following types of assistance/actions:

- preparing/improving templates for reporting to DIACA by the line ministries
- devising a system to measure progress in implementation of the Strategy
- providing tools for the updating as needed of the Anticorruption Strategy and Action Plan

- providing a standardized methodology for better planning of future anti-corruption measures
- training the contact points in line ministries on the Anti-corruption Strategy and the reporting methodology.

### The 2010 Action Plan

A new Action Plan for 2010 has not yet been adopted. As part of Activity 1.1.6 the Project is to provide assistance to DIACA for the further development of the Action Plan. Currently, line ministries are under an obligation to submit by 30 December 2009 reports on their implementation of the measures attributed to them under the 2009 Action Plan, and proposed components for the 2010 Action Plan. It has been agreed that the Project will provide direct assistance/advice to the line ministries during January 2010 on the format, structure and content of these proposals, prior to a meeting of the Inter-Ministerial Working Group for Implementation of the Anti-corruption Strategy. More generally, DIACA has expressed a desire for assistance in designing a multi-year Action Plan up to 2013 in addition to the current one-year plans, as a tool for strategic planning and prioritisation.

### 2.1.3 The political situation as a risk factor

Albania held parliamentary elections on 28 June 2009. The outgoing ruling majority - Democratic Party (DP), Republican Party (RP), Party for Justice and Integration – secured a narrow majority in the new Parliament after it was joined by the Socialist Movement for Integration (SMI). The new parliament was convened on 7 September 2009 and a new coalition government sworn in on 16 September 2009. However, opposition parties refused to accept the results: the main opposition Socialist Party (SP) has boycotted parliament, demanding that a parliamentary committee be convened to investigate alleged violations, and initiated a series of public protests that were still continuing in November and December. If this situation and the boycott of Parliament in particular were to continue it is likely to make the adoption of reforms more difficult, especially if they require a qualified majority in the parliament.

## 2.2 Summary of Project Outputs/Purposes

| The following table contains the objectiv | e. purposes and results of the Project: |
|---|---|
| The following dable contains the objectiv | e, purposes and results of the risjeet. |

| Overall objective | To contribute to democracy and the rule of law through the prevention and<br>control of corruption   |  |  |
|-------------------|--|--|--|
| Purpose 1         | To enhance the implementation of anti-corruption policies and strategies (Anti-<br>corruption Strategy and Action Plan 2007-2013) in line with GRECO and<br>MONEYVAL recommendations and European Partnership commitments                        |  |  |
| Result 1.1        | Tools and mechanisms available to ensure the implementation of the anti-corruption strategy and action plan line with GRECO recommendations and good practices   |  |  |
| Result 1.2        | Proposals available for more efficient anti-corruption legislation in line with international standards  |  |  |
| Result 1.3        | Proposals available to improve legislation and practice and increase the efficiency of<br>the key institutions with regard to the search, seizure and confiscation of proceeds<br>from crime and money laundering and the financing of terrorism |  |  |
| Result 1.4        | Participation of civil society organizations in the promotion and monitoring of the implementation of anticorruption initiatives, and conducting independent periodic and thematic surveys is increased  |  |  |

| Result 1.5 | Human capacities of anti-corruption and law enforcement agencies and the judiciary<br>enhanced to ensure that they efficiently meet their obligations under applicable laws<br>and apply international best practices |  |
|------------|---|--|
| Purpose 2  | To contribute to the prevention of corruption in the education sector by<br>improving transparency, accountability and social participation in the education<br>system  |  |
| Output 2.1 | Risk analyses carried out and awareness raised with regard to opportunities of corruption in the education system   |  |
| Output 2.2 | Mechanisms available to increase integrity and regulate conflicts of interest with regard to the administration of staff in the education system  |  |
| Output 2.3 | Development of anti-corruption education modules for primary and secondary schools  |  |

<u>Result 1.1</u> (Tools and mechanisms available to ensure the implementation of the anticorruption strategy and action plan line with GRECO recommendations and good practices) will be implemented through two main directions. First, risk analyses and other research including surveys will be conducted on institutions that are preliminarily identified by NGOs and experts as being vulnerable to corruption, and the risk assessment methodology will be provided to DIACA. Second, the project will directly assist the development of the National Anti-corruption Strategy (ACS) and Action Plan (AP) by assisting DIACA in developing anti-corruption work plans based on the results of the risk assessments and surveys, and provide crucial methodological assistance to the existing interagency mechanism for coordination of anti-corruption policy in the form of methodologies, tools and templates on the formulation by public institutions of anti-corruption action plans and their implementation, reporting and evaluation. In addition, outreach will be conducted through an annual conference on implementation of the ACS and through the publication and dissemination in Albanian of Council of Europe instruments, documents and GRECO reports.

<u>Result 1.2</u> (Proposals available for more efficient anti-corruption legislation in line with international standards) will be conducted in three main ways. First, assessments will be commissioned of selected laws or areas of legislation in order to support the drafting of appropriate laws and/or amendments. These areas will be the financing of political parties and election campaigns, legislation in the area of incriminations (as recently monitored by GRECO), legislation of conflicts of interest and declaration/audit of assets, and the current Law on the Civil Service of the Republic of Albania. Second, a matrix of compliance of Albanian legislation with the relevant European conventions relating to corruption will be produced in order to identify necessary amendments to ensure compliance. Third, and as a form of general assistance to the integrity of the legislative process the project will provide a methodology for screening legal acts for provisions that facilitate corruption (corruption proofing), and provide training on the methodology to officials with legal drafting responsibilities.

<u>Result 1.3</u> (Proposals available to improve legislation and practice and increase the efficiency of the key institutions with regard to the search, seizure and confiscation of proceeds from crime and money laundering and the financing of terrorism) will be implemented through two main directions. First, legislation related to combating money laundering and terrorism financing and on confiscation/seizure of proceeds of crime will be reviewed to assess its internal consistency and functionality in the light of relevant treaty obligations and current Albanian judicial practice, and support will be provided to the drafting of legislation/regulations to implement MONEYVAL recommendations. Second, methodological guidance and training will be provided to the relevant institutions, in particular the Directorate General for Prevention of Money Laundering (FIU), Agency for the Administration of Seized and Confiscated Assets (ASCA), and High Inspectorate of Declaration and Audit of Assets (HIDAA) on prosecution of economic crime and tracking the proceeds of crime, on detecting corruption among entities obliged to report suspicious transactions, on

the processing of suspicious transaction reports including those involving Politically Exposed Persons (PEPs), and on practical implementation of international cooperation mechanisms.

**Result 1.4** (Increasing participation of civil society organizations in the promotion and monitoring of the implementation of anticorruption initiatives, and conducting independent periodic and thematic surveys is increased) will be implemented in close connected with Result 1.1, in which NGOs are to be intensively engaged in the key risk analyses of vulnerable institutions and surveys that are to be conducted. Two activities will be implemented: the holding of public debates on anti-corruption reforms; and assistance to/support for the establishment of a functioning mechanism for coordinating information exchange and the activities of NGOs in the area of anti-corruption.

**Result 1.5** (Human capacities of anti-corruption and law enforcement agencies and the judiciary enhanced to ensure that they efficiently meet their obligations under applicable laws and apply international best practices) will be implemented through four main activity areas: the provision of training plans (and materials as appropriate) and training for trainers of HIDAA; support and train the School of Magistrates in developing and implementing training plans on (and for all agencies involved in conducting) corruption and economic crime investigations, money laundering and counter-terrorism financing investigations, and tracking proceeds of crime; promotion of enhanced cooperation between HIDAA, the FIU and other agencies maintaining relevant public databases; guidelines and training for private auditors and accountants on detecting corruption; and training for local government officials on ethics and implementation of the Conflict of Interest Law.

**Result 2.1** (**Risk analyses carried out and awareness raised with regard to opportunities of corruption in the education system**). Risk analysis or analyses will be conducted to identify the main corruption risks within the education system. The results of such analyses will be widely disseminated and serve as the basis for a peer discussion to identify recommended actions for policy makers, and a follow-up risk assessment will be produced towards the end of the project to determine progress made since the initial assessment.

**Result 2.2** (Mechanisms available to increase integrity and regulate conflicts of interest with regard to the administration of staff in the education system) will be implemented through assessments of three main areas: the functioning of disciplinary measures and ethics regulation in the education sector; policy options for introducing standardised criteria and procedures for recruitment and other human resource policies for educational staff; and a review of the draft teachers' Code of Conduct and draft Order of Teachers. In addition, the Project will support the elaboration of legislation, regulations and guidelines for the licensing, regulation and control of private educational institutions including private tutoring.

**Result 2.3** (Development of anti-corruption education modules for primary and secondary schools) will be implemented in two main stages: the development of concepts, terms and modules of anti-corruption education to be included in already-existing civic values education programmes; and testing the anti-corruption modules on a pilot basis.

## 2.3 Inputs

The project will provide funding for:

- National conferences
- Expert technical advice
- Written legal opinions
- Written assessments and Policy Papers
- Guidelines and Tools
- Assistance to legislative drafting
- Workshops, round tables and in-country training activities
- Study visits
- Risk analyses

- Surveys
- Awareness-raising and public events/fora
- Translations and publications

### 2.4 General project activities during the inception period

The following general activities were carried out during the inception phase of the project:

| Description of activity   | Status                      |
|---|-----------------------------|
| Recruitment of Project Team   | Completed                   |
| Deployment and Contractual arrangement for the Project Team               | Completed                   |
| Allocation and Set up of the Project Office                               | Partly completed            |
| Organization of the Preliminary Start-up workshop                         | Planned<br>15 December 2009 |
| Introduction of the project to counterpart/beneficiary institutions       | Completed                   |
| Start up technical workshops in designing Workplan/Calendar of Activities | Completed                   |
| Adoption by stakeholders of the final Workplan and Calendar of Activities | Planned<br>15 December 2009 |
| Confirmation of Steering Committee members by national authorities        | Planned<br>15 December 2009 |
| Preparation and submission of inception report                            | Completed                   |

#### 2.4.1 Set-up of the Project Team

During the month of September and October, the Council of Europe organised two types of recruitments procedures: one for the selection of the Team Leader and the Long Term Adviser, contracted under consultancy procedures of the organisation, and one for the Local Project Officer contracted under short-term Secretariat member of the Council of Europe. Vacancy positions were announced in August and September for the two types of the recruitment in accordance with the organisations' rules and procedures for these types of recruitments.

On 24-25 September 2009 interviews were held in Strasbourg with candidates for the positions of Team Leader and Long-term Adviser, resulting in the selection of Mr Quentin Reed as Team Leader and Mr Gent Ibrahimi as Long-term Adviser. On 15 October 2009 the Delegation of the European Commission in Albania confirmed its approval of these candidates, and on 23 October 2009 the Department of Internal Administrative Control and Anti-corruption (DIACA) did the same. From 18-23 October interviews were conducted in Tirana with candidates for the position of Local Project Officer. On 23 October 2009 Mr Arben Lila was selected to be hired as the Local Project Officer. The Team Leader, Long-term Adviser and Local Project Officer took up their positions as of 1 December 2009.

The Project Team in Tirana will be directly reporting to the Corruption and Fraud Unit at the Economic Crime Division which will centralise and coordinate all information with the Education Policy Division at the Directorate of Education and other relevant structures in the Headquarters. Moreover, a Project Manager and a Project Assistant will support on a daily basis the Project Team in Tirana on issues related to proper project reporting, financial reporting and other administrative and management issues.

In accordance with the needs of the Workplan (Annex I) and Calendar of Activities (Annex II) a provisional list of international and national experts to be engaged in particular activities has been compiled by the Project Team. These include experts for the conduct of risk analyses, provision of assistance to DIACA in improvement of its strategic implementation framework for the ACS, legislative drafting, and legal expertise evaluation and the education component of the project. The list of experts can be found in Annex III.

### 2.4.2 Set-up of the project office

As provided in the Description of Action under this Project Agreement, on 10 November 2009 the Government of Albania confirmed the allocation of the office space for the project. Due to the date of this confirmation, as of 30 November 2009 the office is undergoing the process of being equipped in order to be ready for occupation by the project team in Tirana. It is expected that the office will be ready for occupancy not later than 20 December 2009. This was envisaged to be possible within a very short space of time after 1 December. The slight delay in the set-up of the office should be understood in the context of the fact that the new Government was only sworn in on 16 September 2009, and officials in senior positions (such as deputy ministers) were still being appointed in early November 2009. In meantime, during the period of the office furnishing/equipping, the PACA project team will be temporarily settled within the premises of the Council of Europe's Information Office. (PACA Project Management Team contacts – Annex VIII). The new address of the project office as of 20<sup>th</sup> December 2009 will be: *PACA Project, EC/CoE Joint Programme, Council of Ministers Building, Bulevardi Deshmoret e Kombit, No. 1, 1000 Tirana Albania.* 

### 2.4.3 Meetings and missions to discuss the project

During the first week of October 2009 initial meetings were conducted in Strasbourg between PACA team representatives and DIACA representatives (the main project counterpart) to discuss initial planning of start up activities with the main beneficiary institutions. Additionally, administrative and information coordination aspects of relevance to Project's implementation and management were discussed.

Furthermore, a mission took place in Tirana from 18-23 October 2009 to discuss the project and its Workplan in particular with the main counterpart (DIACA) and carry out the start-up technical workshops with the project beneficiaries aimed at initiating the designing of the Workplan of activities in line with the project's logframe. The Mission's programme for the reported period is attached to this report in Annex IV. A large number of meetings were held in Tirana between PACA team representatives, project counterparts and beneficiaries and NGO representatives to discuss the specific content of the Workplan. A meeting was also held with the US Embassy's OPDAT Programme to discuss possible synergies and avoid overlap with the latter's own donor activities. The meetings were of very high quality in terms of both input from counterparts and beneficiaries on the one hand, and their cooperative nature on the other.

# 2.4.4 Finalization of the Workplan, confirmation of the project's Steering Committee and Start-Up Event

As provided in the Description of Action under this Project Agreement, a list of beneficiary institutions will be represented in the Steering Committee of this project, namely: DIACA, representatives of HIDAA, Ministry of Education, Ministry of Interior, the ministry responsible for coordination of international assistance (currently the Offices of Minister of Coordination of Reforms),, Ministry of Justice, General Prosecutor Office, High Council of Justice, Directorate General for Prevention of Money Laundering, and representative of the EC Delegation and the Council of Europe. Since representatives from these institutions will have to be permanent members of the Steering Committee of this project, an official nomination/confirmation of each permanent member will be available not later than the date of the Start-up event. The project's Start-up Event was foreseen to be organised at the end of the inception phase, that is by 30 November 2009. However, due to the occurrence of several national holidays in the last week of November it was agreed to hold the Start-up Event on 15 December 2009. After discussions with DIACA and the European Commission Delegation it was resolved that in order to approve the Workplan it would be more suitable to hold the Start-up Event as an initial Steering Group meeting, and then hold a public Start-up Event early in 2010 when the exact details of the Workplan are already known and initial implementation steps have begun. The Programme of the Start-up Event is attached in Annex V.

## 3 VISIBILITY/MEDIA COVERAGE

## **PACA Website**

Project news, upcoming events, and outputs/deliveries will be reported on a section of the Council of Europe Economic Crime website (www.coe.int/economiccrime), a section of which will be exclusively dedicated to the PACA project: www.coe.int/paca (Annex VI). The website report on all Project activities and ongoing public events will be frequently updated. This project site will have links to other relevant sites as below and when possible:.

### Council of Europe Information Office in Albania Website

Important news and upcoming events in the PACA Project will also be featured on the website of the Council of Europe's Information Office in Tirana (http://www.coe.al).

### **DIACA Website**

As the Council of Europe's main partner/counterpart in the PACA Project, the Department of Internal Administrative Audit and Anti-Corruption has committed also to place information on the Project on its website.

#### The EU's visibility

The project will ensure the visibility of the EU's contribution at all stages of its activities. The Council of Europe will take all appropriate measures to publicise the fact that project funding is being received from a European Union agreement. All reporting and information used and disseminated will acknowledge that actions as such have been carried out "with funding from the European Union" by also displaying in an appropriate way the European Union logo.

#### **Quarterly Newsletters**

In addition, the PACA Project team will produce a quarterly newsletter in order to disseminate further the activities and outputs of the project and other relevant news.

#### Disclaimer

All publications will include the following disclaimer: "This document (*report/publication etc*) has been produced with the main funding from the European Union and the Council of Europe. The content of this document can in no way be taken to reflect the views of the European Union or of the Council of Europe".

#### Publications

The Project will produce reports to update and inform the European Commission Delegation in Tirana on their findings and progress of the project's implementation. During the project, booklets, leaflets,

brochures, and training kits will be used and copies of such will be available for reporting. If any publication takes place they will acknowledge the financial contribution of the EU, and will contain the above-mentioned disclaimer. They will also be made available for the public.

### 4 CONCLUSIONS AND NEXT STEPS

#### Context

The project proposal has been translated into a detailed and timetabled Workplan. The engagement and commitment of the main counterpart institution and beneficiaries has been confirmed, and the interest and involvement of a number of stakeholder institutions has been achieved. The project has the express support of the Government and has appropriate management arrangements, with a full Project Team in place.

#### Content

The Workplan intends to draw on national and international expertise to provide targeted expertise and assistance on the overall strategic anti-corruption framework, provision of analyses on which to design anti-corruption policies, amendments to legal norms in line with international standards, provision of methodologies/guidelines and training for all institutions involved in combating economic crime, and risk analysis-based reforms to prevent corruption in the education system. In all of these areas the engagement of civil society will be pursued where possible, as well as local capacity boosted through the engagement of national experts. All project materials will be produced in Albanian.

### **Longer-Term Project Impact**

The project derives from the need of the Albanian Government to ensure efficient implementation of its Anti-Corruption Strategy as a requirement stemming from its European Partnership and Council of Europe obligations. The Workplan activities have been designed explicitly to facilitate and directly support the fulfilment of such obligations, both in a broad sense (the overall strategic anti-corruption framework) and specific sense – in particular the GRECO and MONEYVAL recommendations not yet fully implemented by Albania. Implementation of these activities will therefore empower the Government of Albania to effectively pursue its anti-corruption objectives as a key condition for progress in the EU Accession Process.
