The Courts Act prescribes:

"The scope of the finances for the wages of the judges and the court personnel, as well as for the costs of the activities of the courts in the framework of the state budget of the Republic of Slovenia, based on the financial plans of the individual courts are provided in the budget user Supreme Court of the Republic of Slovenia for all courts" and "In the framework of the state budget of the Republic of Slovenia, the scope of the finances for the equipment of the courts and provision of spatial conditions for the courts, excluding the finances for wages, is formed and provided in the ministry responsible for justice, while for the computerisation of the courts in the Supreme Court of the Republic of Slovenia."

Besides the above-cited amount there's also a part of the Ministry of Justice budget dedicated to the investments and the rentals in justice sector (courts, prosecution, state attorneys), but there's no data available as to the share dedicated to the courts. The courts, in their financial plans, include only so called "small" investments, which are the investments that are not included in the Ministry of Justice plan and cannot exceed a certain value.

As already mentioned, there is one exception: the computerisation of the judiciary is in the authority of the Supreme Court which means, that investments in hardware are included in the financial plan of the latter.

This means that the cited amount includes only the finances for the functioning and the informatization of the courts. On the other hand, it does not include the budget dedicated to the investments and the rentals in justice sector and the resources that are provided for education of judges and court staff by the Ministry of Justice to its Judicial Training Centre. The Judicial Training Centre, part of the Ministry of Justice, spent 442590 EUR in 2008 for the education of judges, court staff, prosecutors and state attorneys.

The resources in the cited amount (budget allocated to all courts) do not cover other organs of the judiciary (the Judicial Council, the Ministry of Justice, State Prosecutor's Offices, State Attorney's Office, prisons, etc.).

The annual public budget allocated to investments in new (court) buildings (60000 EUR) is not part of the budget allocated to the Supreme Court (which is 162222837 EUR), but of the budget of the Ministry of Justice. However, it is included in the total amount under question 6.

## 8) Le budget approuvé pour les tribunaux inclut-il les postes suivants? Veuillez préciser pour chaque poste (ou pour certains d'entre eux) les montants concernés ou indiquer NA (non disponible) dans le cas où ce montant est impossible à évaluer:

**Veuillez ajouter tout commentaire utile pour l'interprétation des données ci-dessus:**

Commentaire :

The budget covering training and education (1835808 EUR) does not include the resources that are provided for education of judges and court staff by the Ministry of Justice to its Judicial Training Centre.

The Judicial Training Centre, part of the Ministry of Justice, spent 442590 EUR in 2008 for the education of judges, court staff, prosecutors and state attorneys.

The annual public budget allocated to investments in new (court) buildings (60000 EUR) is not part of the budget allocated to the Supreme Court (which is 162222837 EUR), but of the budget of the Ministry of Justice. However, it is included in the total amount under question 6.

Commentaire :

Comparing to the year 2006 there was a big increase in the budget allocated to legal aid, probably because of a better knowledge of the general public and a more widespread use of this procedure. The uniform Free Legal Aid procedure was introduced in the last quarter of the year so it had no greater impact on the figures.

Commentaire :

Until the 1.9.2008 there were two “systems” of providing legal aid in Slovenia: a) the system governed by the Free Legal Aid Act (FLAA), which covers all legal fields and b) the system governed by the Criminal Procedure Act (CPA), which covers criminal procedures only.

While the numbers on legal aid under FLAA were available, numbers on legal aid under CPA were not.

With the amendments to the Free Legal Aid Act (FLAA), the two systems (criminal and non criminal cases) were merged into one uniform system. Before, the Criminal Procedure Act contained provisions on free legal aid in criminal cases (both for the obligatory defence and for the defence in the interest of justice in case of defendants without necessary means). The relevant provisions of the Criminal Procedure Act that regarded legal aid in case of social inadequacy were valid until the 1.9.2008, from when on they were no longer valid. Now, only the provisions of the Free Legal Aid are applicable, as the new FLAA derogated the relevant provisions on free legal aid of the CPA.

Organisme d'inspection	Non	Non	Non	Non
Autre	Non	Non	Non	Oui

**19) Si autre ministère et/ou organisme d'inspection et/ou autre, veuillez préciser (au regard de la question 18) :**

The legal basis for the procedure for adoption of the budget are the Public Finance Act and the Regulation for the Bases and Procedures for the Preparation of the Proposal State Budget.

The establishing of the budget may be shown through an eight step scheme:

- Establishing of a macroeconomic framework
- Specifying of the development priorities and tasks of the Government
- Setting up of a framework cross section of the budget in accordance with the program and the plans
- Budgetary Manual of the Ministry of Finance
- Preparing of detailed financial plans of direct budget users
- Negotiations with the Ministry of Finance
- Governmental proposal of the state budget
- Discussion and adoption of the budget and the Law on Execution of the Budget, within Parliament.

The Supreme Court as the entity proposing the financial plans of all the courts has a specific role in this process. Although the Courts Act provides that "the volume of financial resources for the salaries of judges and judicial personnel, and for the operation costs of courts, shall be provided within the framework of the state budget of the Republic of Slovenia for all courts on the basis of financial plans of individual courts at the budget user, the Supreme Court of the Republic of Slovenia", the Supreme Court has limited access to the first four phases, which are crucial. Once the priorities are set, it is impossible to reach important changes in the volume of financial resources during budget negotiations. During these four phases it is only the Ministry of Justice that can influence the decisions of the Government, but it has not sufficient knowledge of the needs of the courts, the Supreme Court has some influence only by informal ways.

The Supreme Court enters the process between the fourth and fifth phase. It proposes a cross section of the budget quota specified by the Government of RS, regarding the judiciary for the following two years.

The budget quotas are determined on the level of individual courts, whereby in addition to the initial rules determined by the budget manual, the following criteria are also taken into consideration:

- level of the financial plan of the user for the current year;
- semester realization of the financial plan of the user in the current year.

The Supreme Court also prepares internal manuals for the users as well as internal forms for budgetary items, which may reflect any additional needs for funds along with a short explanation, which is used as a basis for subsequent negotiations with the Ministry of Finance. Then, each court prepares its own financial plan within the framework of the assigned quota in line with the budget items up to the level of a sub-account and submits it to the Supreme Court. During this process job allocation schedules are also prepared, because they have to be adjusted to the proposed budget. The Supreme Court examines every court's financial plan proposal and based on the gathered data and internal forms with appropriate explanations which reflect the additional needs of the users, prepares a new assessment of the needed funds to facilitate a smooth operation of the courts within the following two years.

In addition, a complex analysis is prepared of the budgetary expenses and a dialogue is established between the users in regard to a concept for future negotiations.

The negotiations with the Ministry of Finance may occur in several phases depending on the divergence between the posed requests on one hand and the possibilities or the constraints posed by Ministry of Finance.

If the Ministry of Finance agrees, the additionally provided funds shall be distributed among the courts in line with the proposed priorities. However, if no agreement is reached, the proposed budget of the courts shall be submitted to Parliament, which takes the final decision.

- durée excessive de la procédure ?
- non exécution des décisions de justice?
- arrestation injustifiée ?
- condamnation injustifiée ?

Si oui, veuillez préciser (dispositif, tarif journalier) :

The Act on the protection of the right to trial without undue delay gives a party to court proceedings the right to have his rights, duties and any charges brought against him in his case before the court to be decided upon by the court without undue delay.

The legal remedies that are available to protect the right are three:

- supervisory appeal;
- motion for a deadline and
- claim for just satisfaction.

The purpose of the first two remedies is to expedite the proceedings. On the other hand, the claim for just satisfaction can only be filed, if the supervisory appeal was granted or if the motion for a deadline was filed.

Just satisfaction can be provided by:

1. payment of monetary compensation for damage caused by a violation of the right to a trial without undue delay;
2. a written statement of the State Attorneys' Office that the party's right to a trial without undue delay was violated;
3. the publication of a judgement that the party's right to a trial without undue delay was violated.

Monetary compensation is payable for non-pecuniary damage caused by a violation of the right to a trial without undue delay. The strict liability for damage caused lies with the Republic of Slovenia. The amount of monetary compensation for an individual case is limited by law to the figures between 300 and 5000 EUR.

When deciding on the amount of compensation, the criteria that are taken into account are in particular the complexity of the case, actions of the State, actions of the party and the importance of the case for the party.

The procedure of compensation in the case of wrongful arrest and wrongful condemnation is regulated by the Criminal Procedure Act. Chapter 32 is entitled Proceedings for compensation, rehabilitation and the exercise of other rights of unjustifiably convicted or arrested persons.

The Act gives the right to seek the recovery of damages inflicted by an unjustified judgement of conviction. Similarly, the right to compensation is also enjoyed by persons, who were victims of different forms of unfounded arrest.

The Act states that before filing the claim for damages with the court, the injured person has to address his claim to the Office of the State Attorney General to try and reach agreement about the existence of the damage and the type and extent of compensation. If the request for recovery of damages is not granted or the Office of the State Attorney General and the injured person do not reach accord within three months of the filing of the request, the injured person may file a claim for damages with the court of jurisdiction. The tariff, offered by the State Attorney's Office for wrongful arrest is 300 EUR per day, if the detention lasted from 1 to 3 days, while it is 42 EUR per day for more than 3 days.

**41) Votre pays a-t-il mis en place des enquêtes auprès des usagers ou des professions juridiques (juges, avocats, fonctionnaires, etc.) pour mesurer leur confiance dans la justice et leur degré de satisfaction par rapport au service rendu ?**

Commentaire :

Regarding question 42:

The survey at a regular interval is the Slovenian Public Opinion Survey (SPOS) that measures public trust in different institutions (<http://www.cjm.si/>). However, this is a general opinion survey and it does not focus only on citizens, visitors of the court.

The incidental survey at court level has been in use at the District Court of Ljubljana to measure the satisfaction of the parties, involved in the mediation procedures. So far, no other surveys have been carried out.

Regarding question 44:

According to the Act on the Protection of the Right to a Trial without Undue Delay the party in the proceedings who feels that her right has been violated has three legal remedies:

- the supervisory appeal (motion to expedite the hearing of the case);
- the motion for a deadline (motion to set a deadline);
- the claim for just satisfaction.

When deciding on the legal remedies the circumstances of the particular case are taken into account, namely its complexity in terms of facts and law, actions of parties to proceedings, in particular as regards the use of procedural rights and fulfilment of obligations in proceedings, of the compliance with the rules on the set order of resolving cases, statutory deadlines for fixing preliminary hearings or drawing court decisions, the manner in which a case was heard before a supervisory appeal or motion for a deadline were filed, the nature and type of a case and its importance for a party.

If a party considers that the court unduly protracts with the decision-making, he may file a supervisory appeal. If the president of the court rejects the supervisory appeal or fails to answer to the party within two months or fails to send the notification within the said deadline or if appropriate procedural acts were not performed within deadlines set in the notification or ruling of the president of the court, the party may file the motion for a deadline.

If a ruling was issued, the party may file a new supervisory appeal only after six months have elapsed from the receipt of the decision. In the process of supervisory appeal the judge can notify the president of the court in writing that all relevant procedural acts shall be performed or a decision issued within the deadline not exceeding four months following the receipt of the supervisory appeal. In this case the president of the court informs the party thereof and thus concludes the consideration of the supervisory appeal.

If the president of the court establishes that the court is unduly delaying the decision-making of the case, he shall, subject to the state and nature of the case and by way of a ruling, order a deadline for performing certain procedural acts and he may also order that the case be resolved as a priority due to the circumstances of the case, particularly when the matter is urgent. If he orders that the appropriate procedural acts be performed by the judge, he also sets the deadline for their performance, which may not be shorter than fifteen days and not longer than six months, as well as the appropriate deadline for the judge to report on the acts performed.

If the president of the court rejects the supervisory appeal or fails to answer to the party within two months or fails to send the notification within the said deadline or if appropriate procedural acts were not performed within deadlines set in the notification or ruling of the president of the court, the party may file the motion for a deadline.

The president of the higher court in the judicial area covering the local court, district court or other court of first instance, has the competence to decide on the motion for a deadline concerning the cases heard by the local court, district court or other court of first instance. The president of the Supreme Court of the Republic of Slovenia has the competence to decide on the motion for a deadline concerning cases heard by higher court or court having the status of higher court. The president of the Supreme Court of the Republic of Slovenia has the competence to decide on the motion for a deadline concerning cases heard by the Supreme Court of the Republic of Slovenia.

Changes of legislation, regarding the functioning of justice are foreseen till the end of the year 2009. The Amendment of Courts Act of Slovenia, which defines court organisation, is for the present in parliamentary proceedings. The law will come into force on the 1st of January 2010.

The main modifications within the Amendment of Courts Act include:

1. The extension of competences of the Judicial Council - competence in the appointment of presidents of the courts is transferred from the minister of justice to the Judicial Council;
2. The establishing a specialized department for jurisdiction over criminal offences related to organized and economic crime;
3. For the purpose of disburdening the president of the court and setting a more efficient court management a new position of Director of the court is appointed;
4. With the intention of effective and economical administration of courts justice administration for county courts is held by justice administration of district courts;
5. More flexible assigning of county and district judges within the range of the district court by president of the district court.

The previous value of 200.000 Slovenian tolars (which at the exchange rate of 239,64 SIT for 1 euro meant 834,6 EUR after 1.1.2007) was changed to 2000 EUR. This means that the special simplified procedure, which is valid for small claims, is to be applied in cases, where the value of the claim does not exceed 2000 EUR.

**Commentaire :**

On the 31.12.2007 there were 1083 judicial posts. This number represents all the posts, which are formally occupied although some posts are de facto vacant, since the judge is actually absent due to e.g. maternity leave (which can last as long as 2 years). According to some estimations of the Ministry of Justice this kind of posts represent around 15 - 20% of all judicial posts.

Accordingly, calculations were made that included the actual number of working hours. These calculations excluded the judges that were on maternity leave, judges on sick leave, but included the annual leave. The final number of judicial posts according to these calculations (937) would be the number of actual working hours in 2008, divided by judges (946), from which 7 judges are subtracted, since they do not perform judicial functions, but they are assigned to other duties (1 general secretary of the Supreme Court, 5 appointed to the Registry Department of the Supreme Court, 1 appointed to the Judicial Council).

Commentaire :

The above number represents a pool of lay-judges, but data on actual sitting days are not available. The number is taken from the Act on setting the number of lay judges at the district courts in the Republic of Slovenia, the number being 2589, together with the number from the Act on setting the number of lay judges at the labour and social courts, the number being 1476. Together, the pool of lay judges is thus that of 4605.

Although lay-judges are in full capacity of a judge as a member of a panel of judges, they can't hear cases on their own and therefore none of the cases can be solved by them without the presence of the professional judge, who also takes care of all the procedures, writing the judgement etc.

According to the Criminal Procedure Act, the district courts try cases involving criminal offences punishable by fifteen or more years of imprisonment before panels of five judges (two professional and three lay judges), and cases of criminal offences punishable by three to fifteen years of imprisonment before panels of three judges (one professional or presiding judge and two lay judges).

Lay judges are involved also in civil trials. The Civil Procedure Act prescribes panels of three judges (one professional or presiding judge and two lay judges) in family law matters and in intellectual property rights disputes.

- personnels chargés de tâches relatives à l'administration et la gestion des tribunaux (gestion des personnels, gestion des moyens matériels y compris de l'informatique, gestion financière et budgétaire, gestion de la formation)		NA

Commentaire :

Judicial advisers are non-judge staff whose task is to assist the judges, since they »in particular matters outside the main proceedings perform the work connected with the hearings of parties, witnesses and experts, perform more complex preparatory work for the main trial proceedings, report at the panel sessions, draft decisions, conduct the main trial proceedings under the guidance of the judge and perform other work under the order of the judge«. These are lawyers with law degree and the Legal State Examination.

Judicial assistants are non-judge staff, who have graduated in law (not necessarily) and assist the judge in various fields, but do not help in preparing decisions for the cases. They mainly help with the preparations of decisions about the costs of proceedings, about execution of the proceedings (summoning witnesses and other participants), etc.

The situation concerning court clerks is explained under question 57.

The data that concern other court staff is not differentiated between administrative staff and technical staff.

**57) S'il existe dans votre système la fonction de Rechtspfleger (ou fonction équivalente), veuillez décrire brièvement leur statut et leurs fonctions:**

Court clerks are similar to the Rechtspfleger, since they have autonomous competences and their decisions can be subject to appeal. Generally, they are without law degree, and they work at local courts (land register and enforcement cases) and at district courts (commercial register). Their previous title was 'judicial clerk', now they are 'independent judicial assistants' or 'higher judicial assistants'.

The Courts Act states their duties and responsibilities:

Independent judicial assistants and higher judicial assistants lead the proceedings and decide in matters of the commercial court register, they lead enforcement proceedings and issue decisions on enforcement for the recovery of monetary debts, on enforcement on the basis of authentic documents as well as decisions about advance payments, security deposits, costs of the proceedings and court fees. At first instance they decide upon land registration in cases where the registration is not in the competence of the judge of the land register court and decide in inheritance cases of intestate succession, when the object of succession is only movable property.

The decision of the independent judicial assistant or the higher judicial assistant can always be subject to an appeal. It is the judge of the same court who decides upon the appeal.

The figures are the following (for the date 1.1.2008):

- Local courts – Land register court clerks: 210
- Local courts – Enforcement court clerks: 162
- District courts – Commercial register clerks: 31

Regarding question 62:

Under 'Electronic Files' result we assume 'Electronic Case Files', which are in place on over 50% of the courts. In the case of 'Electronic Data Files' the result would be 100%.

Regarding question 65:

Regarding the answer '+ 50% of courts' in the case of 'Electronic web forms', the answer differs significantly from the previous cycle, since the Central department for Execution on the basis of authentic instruments was established at the Local Court of Ljubljana. Since it is the only centralised department, working exclusively in electronic forms and covering the whole country, that is 44 local courts in the system of 66 courts overall, the answer is '+ 50% of the courts'. If we counted the department as one court only, the answer would still be '- 10% of the courts'.

Under 'Other electronic communication facilities' we assume that e-mail communication qualifies, thus the result is 100% (special court & staff mail accounts).

### 3. 2. Suivi et évaluation

#### 3. 2. 1. Suivi et évaluation

**67) Les tribunaux doivent-ils établir un rapport annuel d'activités ?**

- Oui  
 Non

**68) Existe-t-il un système régulier de suivi des activités des tribunaux concernant:**

- le nombre de nouvelles affaires ?  
 le nombre de décisions rendues ?  
 le nombre d'affaires faisant l'objet d'un renvoi ?  
 la durée des procédures (délais)?  
 autre ?

Veuillez préciser :

Each court monitors the above mentioned data on regular basis, depending on their own decision, but four times a year (prescribed by the Court Rules) these data are collected and published on a national level.

**69) Existe-t-il un système régulier d'évaluation de l'activité (en termes de performance, rendement) de chaque tribunal?**

- Oui  
 Non

Veuillez préciser :

In the process of budget preparation each court has to set targets, the achieving of which is subject of yearly report to the Ministry of Finance. Courts also report to the Ministry of Justice. The Judicial Council evaluates the performance of courts, as it is described below.

**70) Concernant l'activité des tribunaux, avez-vous défini des indicateurs de performance (si non, veuillez passer à la question 72):**

- Oui  
 Non

**71) Veuillez préciser les 4 principaux indicateurs de performance et de qualité d'une bonne justice :**

- nouvelles affaires  
 durée des procédures (délais)  
 affaires terminées

- affaires pendantes et stocks d'affaires
- productivité des juges et des personnels des tribunaux
- pourcentage d'affaires traitées par un juge unique
- exécution des décisions pénales
- satisfaction du personnel des tribunaux
- satisfaction des usagers (au regard des services rendus par les tribunaux)
- qualités judiciaire et organisationnelle des tribunaux
- coûts des procédures judiciaires
- autre

Veuillez préciser :

The Judicial Council, the Ministry of Justice and the Supreme Court are responsible for setting the targets. The Judicial Council adopts the measures for quantity and quality of work of judges. On the basis of the Courts Act, the Judicial Council monitors, ascertains and analyses the effectiveness of work of judges and courts, on which it keeps annual reports. The Supreme Court and the Ministry of Justice exercise supervision over the performance of court management in courts. They are responsible for matters of justice administration. The Supreme Court also co-ordinates the preparation of financial plans and aggregate resources in the budget.

**72) Existe-t-il des objectifs de performance pour chaque juge? (si non, veuillez passer à la question 74)?**

- Oui
- Non

**73) Veuillez préciser qui fixe ces objectifs:**

- pouvoir exécutif (par exemple Ministère de la justice)
- pouvoir législatif
- pouvoir judiciaire (par exemple un Conseil supérieur de la Magistrature ou une instance supérieure)
- Autre

Si autre, veuillez préciser :

The Judicial Council adopts the measures for quantity and quality of work of judges. The Council thus adopted the Criteria for the minimum expected quantity of work for judges. Regarding quality, the Council also adopted the Criteria for the assessment of quality of work for judges.

**74) Existe-t-il des objectifs de performance au niveau des tribunaux (si non, veuillez passer à la question 77)?**

- Oui
- Non

**75) Veuillez préciser qui fixe ces objectifs:**

- pouvoir exécutif (par exemple Ministère de la justice)

- pouvoir législatif  
 pouvoir judiciaire (par exemple un Conseil supérieur de la Magistrature ou une instance supérieure)  
 autre

Si autre, veuillez préciser :

The executive power – the Ministry of Justice is involved with the setting of targets in the context of the Lukenda programme. In the joint programme of the Supreme Court and the Ministry of Justice, targets were set in 2005 with the aim of eliminating half of the judicial backlogs by the end of 2010. The programme included a number of targets and planned activities, including additional personnel to help judges.

Otherwise, the Supreme Court is also involved in the setting of targets of individual courts. In the procedure of adoption of the State Budget, individual courts set their own targets, but it is the Supreme Court who, on the basis of the information provided by the individual courts, sets the final targets in the process of adoption of the Budget.

**76) Veuillez préciser les principaux objectifs retenus :**

The clearance rate, which is the ratio between cases disposed and cases filed.

The Cappelletti-Clark indicator is used to determine procedural time (E. Buscaglia, M. Dakolias, (1999) Comparative International Study of Court Performance Indicators, A Descriptive and Analytical Account, World Bank, Internet <http://www4.worldbank.org/legal/publications/CourtIndicators-72.pdf>: "This indicator has proven to approximate both the median and the mean actual duration, and thus represents a good "measure of central tendency." (p. 14).)

**77) Quelle est l'autorité chargée d'évaluer ces indicateurs de performance des tribunaux :**

- Conseil Supérieur de la Magistrature  
 Ministère de la justice  
 organe d'inspection  
 Cour Suprême ?  
 organe d'audit extérieur ?  
 autre

Si autre, veuillez préciser :

**78) Existe-t-il des standards de qualité (politiques de qualité d'organisation et/ou de qualité judiciaire) définis pour les tribunaux (existence d'un système qualité au sein du système judiciaire) ?**

- Oui  
 Non

Si oui, veuillez préciser :

The activities to conduct a pilot project for a quality system within the Slovenian judiciary were started in 2008.

In 2009 the pilot project of self-evaluation with the CAF (Common Assessment Framework) model was launched at three pilot district courts. The CAF model was adapted to the judicial organisation and the self-evaluation will be concluded in early 2010. After the analysis of the outcome it will be decided whether to apply the same model for all courts and how to include the adaptations.

Two employees at the Supreme Court are entrusted with the quality system development and the pilot CAF project, with the aid of the presidents of the involved courts and the Secretary General of the Supreme Court. However, they have other tasks beside the quality policy, so we cannot say they are specialised.

**79) Existe-t-il des personnels spécialisés dans les tribunaux responsables d'une politique de qualité et/ou de systèmes de qualité de la justice ?**

- Oui
- Non

**80) Existe-t-il un système permettant de mesurer le stock d'affaires en cours et de repérer les affaires non traitées dans un délai raisonnable :**

- en matière civile ?
- en matière pénale ?
- en matière administrative ?

**81) Disposez-vous d'un moyen de mesurer les temps morts durant les procédures judiciaires?**

- Oui
- Non

Si oui, veuillez préciser :

Cases that are considered court backlogs are precisely defined by the Court Rules in Article 50 in relation to the time from the matter being filed with the courts, depending on individual types of case. The time frames that define the time limits for backlogs have been changed and different time limits were in force in 2008, 2009 and new time limits are set for 2010.

The time limits for backlogs in 2008 were:

**Local Courts:**

Criminal cases - 18 months after case filing  
Criminal investigation activities - 6 months after case filing  
Misdemeanor cases - 12 months after case filing  
Non-contentious cases - 18 months after case filing  
Civil cases - 18 months after case filing  
Inheritance cases - 6 months after case filing  
Enforcement cases - 12 months after case filing  
Land register cases - 1 month after case filing

**District Courts:**

Criminal cases - 18 months after case filing  
Criminal investigations - 18 months after case filing  
Juvenile criminal proceedings - 6 months after case filing  
Commercial disputes - 18 months after case filing  
Civil cases - 18 months after case filing  
Labour and social security disputes - 12 months after case filing  
Court register cases - 1 month after case filing

**High Courts:**

Criminal cases - 6 months after case filing  
Civil cases - 6 months after case filing  
Commercial disputes - 6 months after case filing

The time limits for backlogs in 2009 were:

**Local Courts:**

Criminal cases - 12 months after case filing  
Criminal investigation activities - 6 months after case filing  
Misdemeanor cases - 9 months after case filing  
Non-contentious cases - 12 months after case filing  
Civil cases - 12 months after case filing  
Inheritance cases - 6 months after case filing  
Enforcement cases - 9 months after case filing  
Land register cases - 1 month after case filing

**District Courts:**

Criminal cases - 12 months after case filing  
Criminal investigations - 12 months after case filing  
Juvenile criminal proceedings - 6 months after case filing  
Commercial disputes - 12 months after case filing  
Civil cases - 12 months after case filing  
Labour and social security disputes - 12 months after case filing  
Court register cases - 1 month after case filing

**High Courts:**

Criminal cases - 6 months after case filing  
Civil cases - 6 months after case filing  
Commercial disputes - 6 months after case filing

In 2010 the time limits for backlogs will shorten again.

**82) Existe-t-il un système d'évaluation du fonctionnement des tribunaux basé sur un plan d'évaluation (calendrier de visites) convenu a priori ?**

- Oui  
 Non

Veuillez préciser (y compris en indiquant la fréquence de l'évaluation):

Regarding this question there are three kinds of evaluation of the functioning of the courts:

- the Internal Audit Service at the Supreme Court performs the audit of the functioning of individual courts regularly. The plan is to cover all the courts (66) in five years;

- following the provision of the Courts Act (Article 12: 'A court of higher instance may request from a court of lower instance in its territory the data related to the application of statute, data on problems, which arise during adjudication, and other data necessary to examine particular issues, which occur during its work.') the four higher courts and the Supreme Court examine the application of the law at lower courts. In the framework of implementing the mentioned tasks the president of the court of higher instance, and in specific cases also the president of the court before which the case is heard, may demand the data in connection with the application of statute and examine the files in cases in which a final decision has already been reached, and in other cases only exceptionally (Article 13). However, there is no timetable for this kind of evaluation.

- the Ministry of Justice performs regular supervisions over the proper administration of the registers and books at individual courts.

**83) Existe-t-il un dispositif régulier de suivi et d'évaluation de l'activité du Ministère public?**

- Oui  
 Non

Si oui, veuillez préciser :

The Heads of individual State Prosecutor's Offices and the Supreme State Prosecutor's Office are responsible for that. The Supreme State Prosecutor's Office monitors public prosecutor's work by examining concrete cases, file registers, other documentation and by other means (Article 67 of State Prosecutor Act). Concrete cases can be examined on demand or regularly. Regular examination of district state prosecutor's work is made every 3 years. Examiners are supreme and higher state prosecutors and the reports are sent to State Prosecutor General and after that to the Minister of Justice. State prosecutors that are being examined also have the right to receive the report and they can give their remarks on the report. The final report is issued after the meeting between the examiners and the examined state prosecutor's office.

**91) Commentaires (y compris concernant les types d'affaires inclus dans le total des affaires civiles, commerciales et administratives et les types d'affaires pénales - définition des petites infractions et des infractions graves):**

Total of civil, commercial and administrative law cases (litigious and non litigious) – Due to fluctuation in data of civil and commercial non-litigious cases (in particular inheritance cases) and

in data of enforcement cases there is no horizontal consistency of figures.

2 Civil (and commercial) non-litigious cases: Due to fluctuation in data of inheritance cases, which are included among these cases, there is no horizontal consistency of figures.

3 Enforcement cases: Due to fluctuation in data of many enforcement cases, which are considered among these cases, there is no horizontal consistency of figures. Civil and commercial litigious cases in the first instance courts include all civil litigious cases dealt with by the local and district courts and all commercial litigious cases dealt with by the district courts.

All the data is taken from the Court Statistics of the Ministry of Justice. The horizontal inconsistency of figures in the mentioned three categories is already present in the Court statistics of the Ministry of Justice. In particular, the horizontal inconsistency derives from the data on Civil (and commercial) non-litigious cases and Enforcement cases. In some types of cases the sum of incoming and pending cases on 1 Jan. 2008 was higher than the sum of resolved and pending cases on 31 Dec. 2008, namely in the cases with codes VL (difference of 908 cases), D (1 case) and R-i (1 case). In other types of cases the sum of incoming and pending cases on 1 Jan. 2008 was lower than the sum of resolved and pending cases on 31 Dec. 2008, namely in cases with codes I-vl (difference of -32 cases), I-ns (-11 cases), Ig-vl (-4 cases), Ig-ns (-2 cases), In (-59 cases) and Nt (-2 cases). All the data are official data as published by the Slovenian Ministry of Justice on its website, in particular on its web page [http://www.mp.gov.si/fileadmin/mp.gov.si/pageuploads/2005/PDF/publikacije/BILTEN\\_SS\\_2008-12\\_junij\\_09.pdf](http://www.mp.gov.si/fileadmin/mp.gov.si/pageuploads/2005/PDF/publikacije/BILTEN_SS_2008-12_junij_09.pdf).

The sum of all differences in horizontal sums of data on these cases thus amounts to 800 cases. This means that there were altogether 800 more cases incoming and pending on 1 Jan. 2008 than there were resolved and pending cases on 31 Dec 2008.

Civil and commercial non-litigious cases in the first instance include all non-litigious civil cases dealt with by the local and district courts, non-litigious commercial cases dealt with by the district courts, cases pursuant to the Inheritance Act dealt with by the local courts, insolvency cases including bankruptcy, liquidation and compulsory composition cases pursuant to the Financial Operations, Insolvency Proceedings and Compulsory Dissolution Act dealt with by the district courts.

Enforcement cases in the first instance include all enforcement and commercial enforcement cases pursuant to the Execution of Judgments in Civil Matters and Insurance of Claims Act, which are dealt with by the local courts.

Administrative law cases in the first instance include administrative disputes pursuant to the Administrative Disputes Act, which are dealt with by the Administrative Court, with the exception of other administrative law cases and free legal aid cases.

Other civil law cases in the first instance include other civil and commercial law cases in the first instance courts.

Criminal law cases concerning severe criminal offences include all such criminal cases as defined by the Criminal Code.

Misdemeanour cases and minor offences cases include all minor offences cases as defined by the Minor Offences Act.

Civil and commercial litigious cases include all civil litigious cases and all commercial litigious cases in the highest instance court, namely in the Supreme Court of the Republic of Slovenia.

Administrative law cases include all administrative cases in the highest instance court with the exception of appeals in administrative disputes. The latter are considered as the cases in the second instance.

Other cases among civil cases in the highest instance court include cases governed by employment and social (security) law.

Limitations to the appeal to the highest instance court – There are limitations to appeal to the Supreme Court in almost all procedures, excluding the criminal procedure. In labour and social disputes law it was introduced in 2005, in administrative law in 2007 and for civil law disputes in 2008. Regarding civil law, the results of the introduction of the limitation have yet to be seen.

Commentaire :

Data on robbery cases and intentional homicide cases derive from crime statistical data collected by the Statistical Office of the Republic of Slovenia. These data are collected by means of statistical questionnaires answered by the public prosecutor's office and local and district courts. According to the Statistical Office of the Republic of Slovenia "the data collection begins at the moment when the procedure is finished or when the judgement is final as in this way the observation unit becomes known. The number of observation units is determined by data processing for each calendar year. Observation units are perpetrators of criminal offences. When more than one perpetrator participates in committing one criminal offence, each participant is a separate observation unit. If one perpetrator commits several criminal offences, the attribute of the perpetrator is only the main criminal offence." The data are obtained based on search profile for »Adults against whom the criminal procedure before senate has been finished by sex, criminal offence, type of decision and duration of detention, Slovenia, annually« in year 2008 for murder and robbery.

Litigious divorce cases include the following two types of divorce proceedings: divorces involving children and divorces without children. The data given exclude divorces as a result of mutual agreement between the parties.

Employment dismissal cases include the following types of employment dismissal: cancellation of employment, other terminations of employment, cancellation of employment contract with an offer of a new one, expiration of employment contract, ordinary cancellation of employment contract due to business reasons, ordinary cancellation of employment contract due to inability, ordinary cancellation of employment contract due to reasons of guilt, cancellation of employment contract due to bankruptcy and similar reasons and extraordinary cancellation by employer.

Regarding the differences in the data between 2006 and 2008, the following explanations can be given:  
- the number of pending employment dismissal cases decreased from 2006 to 2008 due to the special measures and efforts taken by the courts in order to reduce backlog and to reduce the length of the procedures and other related efforts; another reason is also a decrease in the number of incoming cases amounting up to 18,28% (from 1083 cases in 2006 to 885 in 2008, whereas the previously reported data of 990 incoming cases was not correct and it was also horizontally inconsistent (namely sum of incoming (990) and pending in the beginning (966) amounted to 1956; resolved (1323) and pending at the end (726) amounted to 2049);

- the number of the resolved employment dismissal cases has decreased from 1323 to 973 probably due to the 18,28 % decrease of the incoming cases as well as the 4 % decrease of the number of judges dealing with them (namely decrease from 50 in 2006 to 48 in 2008) and the 4,76 % decrease of all personnel resolving cases (t.i. including professional and non-professional judges).

Regarding the decrease of percentage both of litigious divorce cases and of employment dismissal

cases pending more than 3 years and decrease of the average length of the 2nd instance procedures the explanation could be seen in the special measures taken by the courts to reduce the backlog and to reduce the length of the procedure in accordance with the Court Rules.

**96) Le cas échéant, veuillez préciser les procédures propres au divorce (contentieux et non contentieux):**

Litigious divorce cases include the following two types of divorce proceedings: divorces involving children and divorces without children. The data given exclude divorces as a result of mutual agreement between the parties (i.e.the non-litigious divorce).

**97) Comment est calculé le délai de procédure pour les quatre catégories d'affaires ? Veuillez décrire la méthode de calcul.**

The average length of the court proceedings of each category given is calculated as arithmetic mean of the lengths of all the proceedings of certain category resolved in the year observed, wherein the length of each proceeding is calculated in number of days counted from the date of initiation/lodging of the proceeding up to the date of its resolution. Arithmetic mean is calculated by the formulae as follows: " $Y_a = (y_1 + y_2 + \dots + y_N) / N$ ", wherein  $Y_a$  is arithmetic mean of the lengths of the proceedings,  $y_1$  is length of proceeding No 1,  $y_2$  is length of proceeding No 2,  $y_N$  is length of proceeding No N and N is the number of all proceedings.

**98) Veuillez décrire le rôle et les attributions du procureur dans la procédure pénale (plusieurs choix possibles):**

- diriger ou superviser l'enquête policière
- mener des enquêtes
- quand cela est nécessaire, saisir le juge pour qu'il ordonne des mesures d'enquêtes
- porter une accusation
- soumettre l'affaire au tribunal
- proposer une peine au juge
- faire appel
- superviser la procédure d'exécution
- classer l'affaire sans suite, sans avoir une décision du tribunal
- clore l'affaire par une sanction ou une mesure imposée ou négociée sans décision d'un juge
- autre attribution significative

Veuillez préciser :

Prosecutors cannot conduct or supervise police investigation, but they can set guidelines for police work by giving directions, expert opinions and proposals.

Prosecutors cannot impose or negotiate a penalty, but they can use some alternative methods when solving cases. For example they can, upon consent of the injured party, suspend a case if the suspect binds himself over to act as instructed by the public prosecutor and to perform certain actions to allay or remove the harmful consequences of the criminal offence. They may also transfer the case into a settlement procedure or propose to the court to issue, without holding a main hearing, a punitive order by which the proposed penal sanction is imposed on the accused.

Other significant powers - prosecutors can apply extraordinary legal remedies against final judicial decisions.

Prosecutors cannot conduct an investigation. However, in 2009 a legislative change was introduced to the Criminal Procedure Code that allows prosecutors to conduct the investigation when a national or international joint investigation team is established.

### **99) Le procureur a-t-il également un rôle dans les affaires civiles et/ou administratives ?**

Oui

Non

Si oui, veuillez préciser :

Supreme state prosecutors can file a "request for protection of legality" against final judicial decisions in civil, administrative and minor offences cases – if there was violation of law or proceedings.

### **100) Fonctions du procureur concernant les affaires pénales – veuillez compléter le tableau. Dans les cas où les données ne sont pas disponibles (NA) ou ne s'appliquent pas (NAP) veuillez l'indiquer dans le tableau en utilisant les bonnes abréviations.**

**Veuillez ajouter tout commentaire utile pour l'interprétation des données ci-dessus, et préciser notamment si les données indiquées incluent ou non le contentieux en matière de code de la route:**

Nombre total d'affaires pénales de 1ère instance	84.026	NAP (50.172)*	11.808	3.484	NAP	15.150

Commentaire :

These data include traffic offences, in which the injured person has more serious injuries (aggravated bodily harm) or dies. Other cases are not criminal offences, but minor offences.

\* The public prosecutor cannot discontinue the case, because the offender could not be identified, so the number 50.172 represents all criminal cases in which the offender was not yet identified, but are still open.

The total number of 1st instance cases discontinued by the public prosecutor for reason of opportunity (3484) includes beside the criminal acts of minor importance also the so called 'alternative' (dismissal of the case after the successful postponement of prosecution and settlement).

Si autres, veuillez préciser:

Judges are elected by the National Assembly (Parliament) upon the proposal by the Judicial Council (body of 11 members, 6 judges and 5 lawyers). Since the election, the career of a judge is in an exclusive competence of the Judicial Council.

Anyone who fulfils the following general conditions may be elected a judge (Article 8, Judicial Service Act):

2. he/she has the capacity to contract and is in generally good health;

6. he/she is personally suited to holding judicial office.

Persons who fulfil the listed conditions may be elected to a judicial position at a local court (local judge), if they have at least three years of working experience in legal work after passing the lawyer's state examination.

Refers to question 114: The initial training for judges refers to the judges-to-be. There is compulsory initial training for graduates of law that want to become judges - after a period of practice they have to pass the bar exam, be 30 years old and have a certain number of years of experience at a legal job after the bar exam (3 years for local court judges, 6 (or 3 years of judicial office) for district court judges, 9 (or 6 years of judicial office) for high court judges and 20 (or 15 years of judicial office) for supreme court judges. However, there is no compulsory training for judges.

Every year, the Judicial Training Centre within the Ministry of Justice organises special schools for judges (e.g. civil law school, criminal law school, etc.). Although these schools are not obligatory for judges the vast majority of judges attend them. The attendance helps judges to deepen their knowledge, while at the same time it is one of the criteria for assessing judges (participation in educational process inside and outside of judiciary).

The data about the first instance judge is the lowest possible one for the year 2008, since it refers to the judge at the beginning of his/her career. On the other hand, the figures given for the Supreme Court judge represent the highest possible salary.

Si oui, veuillez préciser :

In June 2007 the amendment to the Salary System in the Public Sector Act was passed, allowing bonuses for judges in case of exceeding the minimum expected amount of work. Following a vast opposition from the side of the judges, the law was under scrutiny of the Constitutional Court, which held that in principle, such bonuses are not unconstitutional as long as the criteria are clear and set in advance. Nevertheless, the newly amended version of the Act was in front of the Constitutional Court again in 2008, which deemed that the reform of the wage system was unconstitutional, since it was not giving equal value to the representatives of the three branches of power and thus undermining the independency of judges. In December 2009 new laws were passed that followed the Constitutional Court's decisions. The new laws regulating the wages of judges do not include any bonuses for extra work anymore.

- breach of the case roster or priority handling of cases defined by law or the court rules;
- failure to achieve the expected work results for more than three months consecutively without justifiable grounds.

For judges – In one case the Disciplinary Court of first instance dropped all charges after the investigation procedure was carried out. In the second case, the disciplinary proceedings were stopped, since the judge left the post before the final decision was reached. In the third case, the Disciplinary Court of Second Instance returned the matter to the Disciplinary Court of First Instance, which has to decide with a new panel of judges. The proceedings are not finished yet.

For prosecutors - In one case the disciplinary proceeding is still not finished and in another case the disciplinary proceeding was stopped, because the prosecutor renounced his service.

The Slovenian Bar Association provided the following available data:

Between the beginning of March 2008 and the end of February 2009 (1 year) there were 23 procedures initiated against lawyers. There were 62 propositions for the start of disciplinary proceedings in this period that were dismissed, while in 23 cases the demands for the imposition of the disciplinary procedure were filed by the disciplinary prosecutor. As for the reasons of the procedures – mainly all the reasons for disciplinary proceedings concern the breach of professional ethics. In case the irregularity would concern a severe professional inadequacy, this would lead to a damages liability and not to a disciplinary procedure. Furthermore, no proceedings in the mentioned period were started because of a criminal offence.

\* Regarding question 149:

Mediators are not accredited in Slovenia. However, there are some data that might give a picture of the number of mediators: the Association of Mediators of Slovenia has over 200 members, while the Association of Mediation Organisations of Slovenia MEDIOS has 27 organisations members.

Regarding question 150:

The data on the number of judicial mediation procedures per case category is not available.

Until the adoption of the new Act on ADR in courts (November 2009), it was not obligatory for courts to have mediation programmes, so only some of the courts have introduced such programmes (six courts in the year 2008, ten courts in the year 2009).

However, data on total number of mediation procedures in six courts, that have offered mediation to parties in 2008, is available (see below in the comment after question 151).

### 7. 1. 2. Autres formes de règlement des litiges

**151) Pouvez-vous donner des informations sur les autres mesures alternatives au règlement des litiges (par ex. arbitrage, conciliation) ? Veuillez préciser:**

In September 2006 the Association of Mediators of Slovenia was established.

Besides court-annexed mediation there are other forms of mediation, conciliation and arbitration offered by NGOs (e.g. Legal-information Centre for NGOs -LIC, <http://www.pic.si/en/index.php?podrocje=adr>), attorneys, insurance companies, etc.

In November 2009 the new law regarding Alternative Dispute Resolution was adopted (go to the comment below).

**Vous pouvez indiquer ci-dessous :**

- tout commentaire utile pour l'interprétation des données indiquées dans ce chapitre
- les caractéristiques de votre système de mesures alternatives au règlement des litiges et les réformes majeures mises en œuvre au cours des deux dernières années

None of ADR procedures is a compulsory step in court (or prior to) proceedings – a consent is always required.

In civil and family cases some courts offer court-annexed mediation, which is again non-compulsory. If the parties agree, the court orders the mediation proceedings which are performed by mediators provided by courts. The number of mediation procedures is not collected on a national level.

At the moment, court-annexed mediation is offered by the Local Court of Ljubljana, 5 district courts, the higher court of Ljubljana and three labour and social disputes courts. In the beginning of 2010 the programs will be implemented at all first level courts (local and district) and until the end of the year 2012 at all higher courts.

An example of the District Court of Ljubljana (the largest court in the country):

Since the beginning of 2001 the District Court of Ljubljana has been offering parties alternative ways of dispute resolution within the program of solving backlogs. Since 2001 the Court has been offering court-annexed ADR with mediation in classical civil cases. Since June 2002 the program

of mediation in family-law cases has been implemented, and at the beginning of 2003 parties were also offered the program of mediation in commercial disputes.

At the District Court of Ljubljana mediation is a voluntary, confidential, fast, free of charge (for the parties) ADR procedure in which a neutral third party helps the parties to find a consensual resolution of their dispute. The procedure is fast, non-binding and confidential and does not affect an eventual later litigation in any way. After the eventual successful conclusion of mediation the parties sign an agreement in the form of a court settlement that is a final enforceable document, as the judgment in a regular court proceeding.

At the moment about 60 mediators participate in the mediation procedures at the District Court in Ljubljana. Among them are supreme, higher and district court judges, who carry out mediations free of charge in addition to their regular work. In addition to them, retired judges with wide experience in the field of civil law and advocates participate in mediation procedures on contractual basis. All of them have attended specialized training in the field of ADR and use of special communication and negotiation techniques, and have been included on the list of mediators at the District Court in Ljubljana.

In the year 2008, the District Court of Ljubljana concluded 900 mediations. Out of these, 434 ended with a settlement or with the withdrawal of the lawsuit, which means, that the mediation procedure was successful in 48,2% of mediations. More specifically:

- In civil law disputes the mediation procedure was offered in 949 cases, both parties agreed to it in 341 cases (35,9%); in 2008 mediation was concluded in 304 cases, out of which 102 (33,5%) were concluded successfully (settlement or withdrawal).
- In family law disputes the mediation procedure was offered in 500 cases, both parties agreed to it in 224 cases (44,8%); in 2008 mediation was concluded in 215 cases, out of which 143 (66,5%) were concluded successfully (settlement or withdrawal).
- In commercial law disputes the mediation procedure was offered in 1756 cases, both parties agreed to it in 557 cases (31,7%); in 2008 mediation was concluded in 381 cases, out of which 189 (49,6%) were concluded successfully (settlement or withdrawal).

Taking into account all the courts that offer mediation the figures for the year 2008 were the following: in all three kinds of procedures (civil, family, commercial) the mediation procedure was offered in 5296 cases, both parties agreed to it in 1930 cases (36,4%) and mediation was successfully concluded in 800 cases.

The new Act on alternative disputes resolution (ADR) in courts, adopted in November 2009 determines the obligation of all first instance courts and courts of appeal to offer at least one type of ADR to parties in civil, commercial, family and labour disputes.

The basic characteristics of the new act are the following:

Regarding question 166 - the answer is: No.

Regarding question 167 - the answer is: NA.

In Slovenia enforcement is regulated uniformly by the Execution of Judgments in Civil Matters and Insurance of Claims Act. The Slovenian enforcement system of decisions in civil matters is a court oriented system which however includes private enforcement agents (mixed system). Every enforcement first requires a warrant of execution to be ordered by the court. Courts permit enforcement on the basis of an enforceable title (court decisions, court settlements, notary's acts, and other decisions) or an authentic instrument.

A main reform in the area of enforcement of decisions in civil matters has been implemented recently. From 1.1.2008 proposals for enforcement on the basis of an authentic instrument may be submitted electronically at a new department within the Local Court of Ljubljana, which has exclusive jurisdiction over enforcement on the basis of an authentic instrument. The electronic system automatically issues a decision on enforcement on the basis of an authentic instrument.

(Caution: comments and interpretation done by the Chamber of Notaries only.)

The main task imposed on the Notary under the Notaries Act includes the drawing up of public deeds, such as notarised records, notarised minutes and notarised certificates.

A public deed drawn up by the Notary proves the truth of what has been specified or certified therein. Every contract may be drawn up in the form of a notarised deed. According to the law, certain legal affairs are valid only if concluded in the form of a notarised deed.

A notarised agreement or settlement can be automatically executory, if so agreed by the parties. In such case it is not necessary to proceed to a suit; in the event of non-fulfillment, immediate judicial execution against the obligor is possible.

The Notary is obliged to keep his notarised deeds for good and shall issue to its clients the respective counterparts that are also public deeds.

The Notary may also draw up private deeds and may represent its clients in undisputed matters before the courts and other governmental bodies, provided that such matters are directly related to the notarised deed he has drawn up.

The Notary issues certificates of facts and statements that entail certain rights (in particular: authentication of signatures on documents, notarisation of copies of documents, certification of translations, confirmation of the time when the document was submitted for perusal, confirmation that the person is still alive, notarisation of the resolutions passed by the bodies of commercial companies and other legal entities, issuing protests of bills and cheques).

In the years from 2005 to 2008 the Slovene Notariat has undergone considerable changes that have a strong effect on the work of notaries and performance of their service. In the beginning of

October 2005 and 2008 a new notary tariff came into effect; according to which the notary fees were on the average lowered by 50%. Also a novel to the Notaries Act came into force. With this novel changes of the conditions for the appointment of notaries as well and for the procedure of their appointment were introduced. In addition, the novel introduces further competences of the Ministry of Justice in the surveillance of the work of notaries and of the Chamber bodies, as well as in the conducting of disciplinary procedures and dismissal of notaries.

The lowered notary fees, an increase in the number of notary posts and some loss of competences in certain fields of work (verification of signatures performed by administrative bodies, abolishment of notary form in some areas of economic laws) are the reasons that have a strong impact on stable performance of the duties of all notaries and of the institution of the notariat as such. We are of the opinion that it would be necessary to give new competences to the notaries, above all in the field of non-contentious matters in civil law. These matters are now within the competence of law courts. Such new area would be the transfer of inheritance cases to the competence of notaries. In this way the number of the present court cases in arrears would be reduced and the institution of the notariat in Slovenia would be on equal standing with other comparable European legal systems. We are convinced that by transferring some parts of the procedure in inheritance cases to notaries a large number of positive effects would be achieved. Above all, the law courts would be considerably relieved and the judges would use their working time for dealing with such fields of law cases, in which law court arrears occur. The notary office would deal with inheritance cases faster, more efficiently and more conveniently for the customers. These proposals are in agreement with the endeavours of the Ministry of Justice as well as with the recommendations of the EU-bodies for the elimination of law court arrears in Slovenia.

**180) Existe-t-il des critères relatifs à la qualité de l'interprétation dans les tribunaux?**

- Oui

Si oui, veuillez préciser :

Court interpreters are bound by the laws and the Rules on court interpreters and they have to perform their office conscientiously, accurately and to their best knowledge. It is their duty to regularly update their professional skills and knowledge.

The Minister of Justice can dismiss a court interpreter in a special procedure in case doubts arise about his/her professional skills. Until now there was no such case.

**181) Les tribunaux sont-ils responsables de la sélection des interprètes judiciaires?**

- Oui  
 Non

Veuillez ajouter tout commentaire utile pour l'interprétation des données ci-dessus (notamment: si non, quelle est l'instance chargée de sélectionner les interprètes?):

The Ministry of Justice carries out the procedure of selection of court interpreters in line with the Courts Act and the Rules on court interpreters. A candidate for a court interpreter must, beside some general conditions listed below also pass a knowledge and skills examination and take an oath in front of the Minister of Justice. The general conditions are the following:

- 1) he must be a citizen of the Republic of Slovenia or the European Union,
- 2) he must be fluent in Slovene,
- 3) he must be legally capable and be personally suited,
- 4) he must not have been sentenced for a criminal offence that is punishable ex officio, because of which he would be morally unsuited to perform the interpreter's work, because this could harm the impartial and professional performance of the work or the reputation of the court
- 5) he must have completed a university degree and have suitable professional knowledge and practical skills and experience.

The Ministry of Justice administers an official list of court interpreters, from which judges choose interpreters in line with the needs of the procedure.
