Reggio Emilia

Where Change Goes To Work

The logo consists of the words "IMPACT" and "HUB" stacked vertically. The text is white with a hand-drawn, sketchy texture. The letters are bold and blocky. The entire logo is contained within a white square border.

**IMPACT
HUB**

Instructions for Use

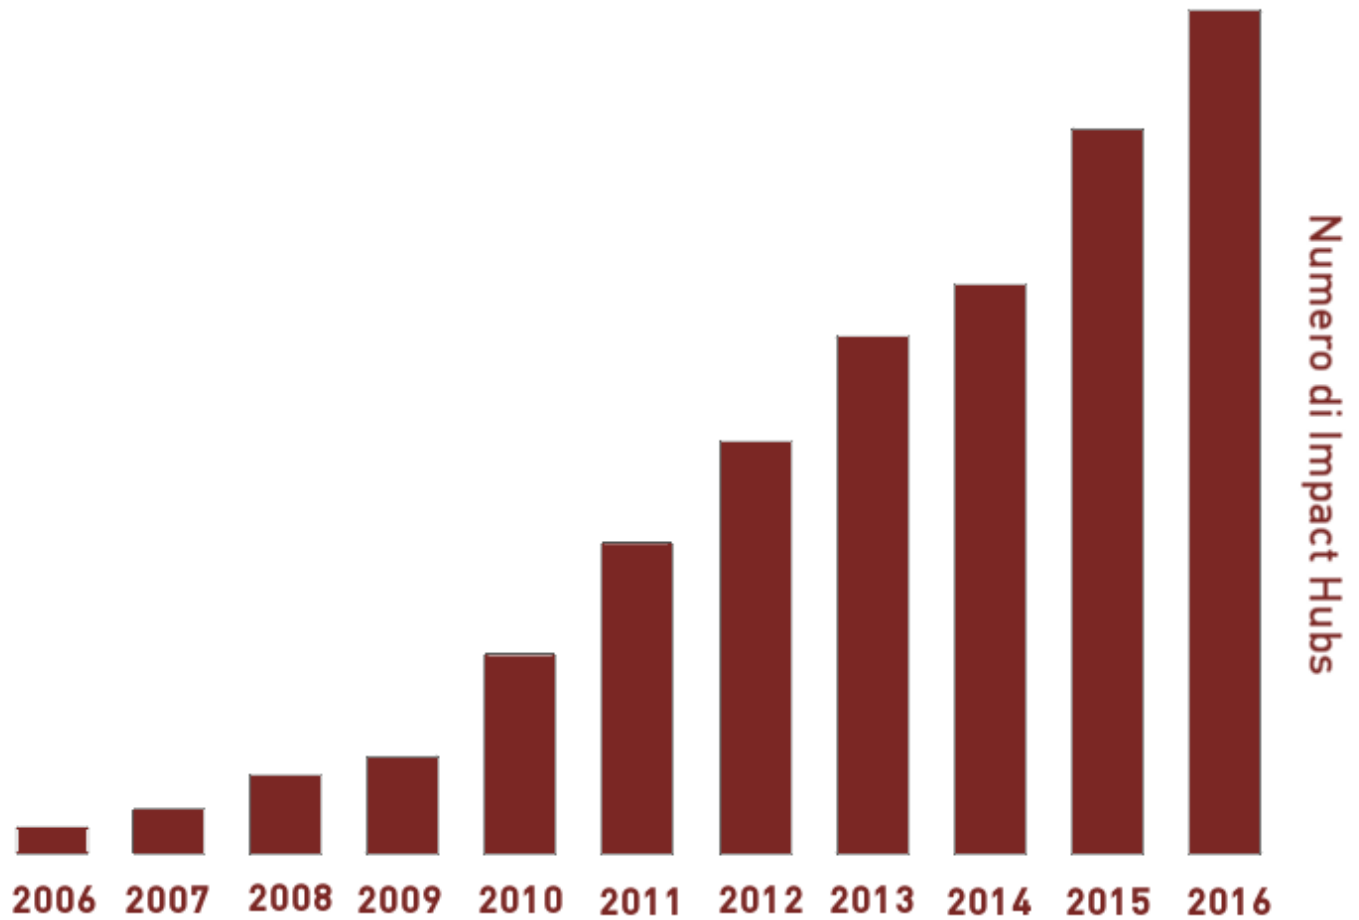

Impact Hub is an international network of people and spaces in which creative entrepreneurs and professionals have access to resources, can be inspired by the work of others, can develop innovative ideas, enhance useful relationships and identify new market opportunities. Our members are entrepreneurs, social investors, freelancers, start-up companies, designers, artists, consultants, innovators and young professionals.

What began as the creation of a unique place in 2005 has evolved into a global community, arriving in Reggio Emilia in 2015.

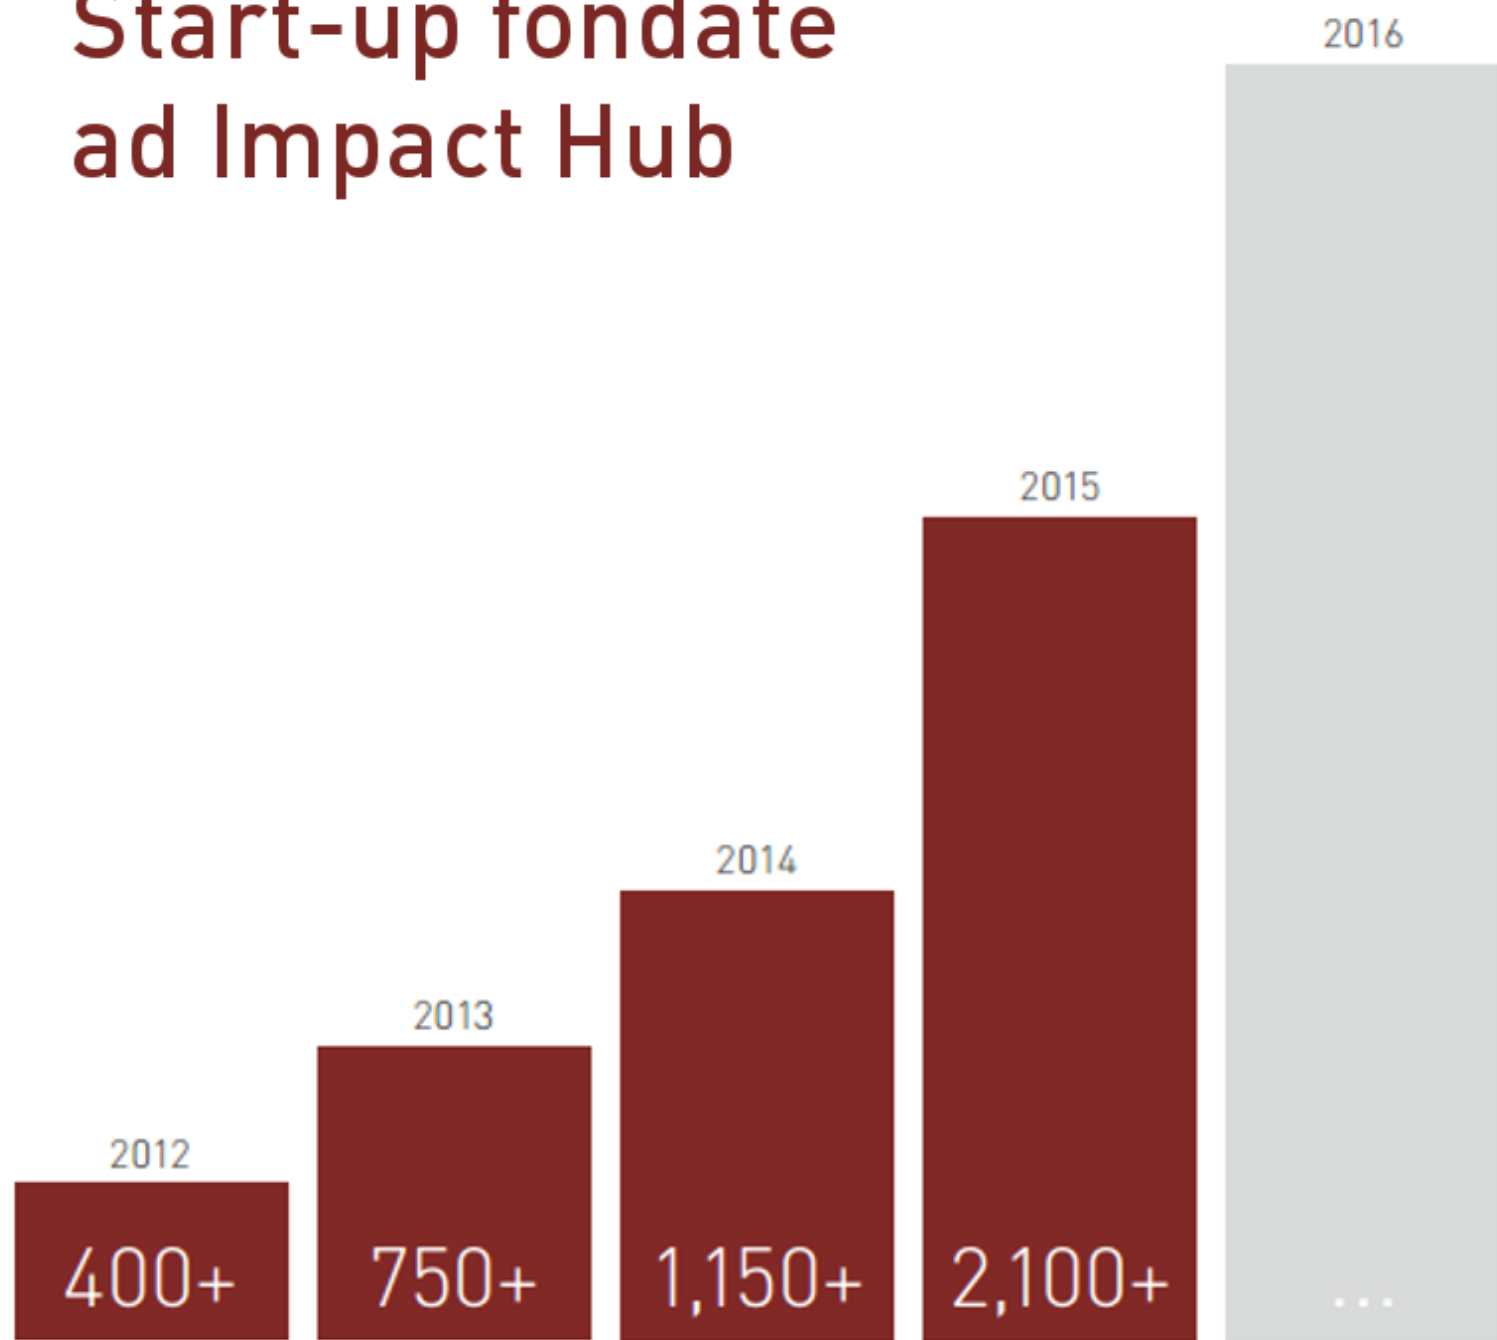

Today, Impact Hub continues to inspire, connect and empower people around the world to create a sustainable impact on society.

Do you have the Hubber DNA?

You want to be part of the largest community of social innovators in Italy and in the world

You want to realize business ideas with high social, environmental or cultural impact.

You want to share your expertise with other members of the network

You want to participate in events that inspire, connect and expand your opportunities

You work professionally without taking yourself too seriously

If you recognize yourself, then Impact Hub Reggio Emilia awaits!

Confidence

Courage

Collaboration

Confidence

We trust each other to do what we say we will do. We may have different approaches but we all share positive intentions and a set of values.

Courage

We have the courage to walk the path less travelled. We still honor the past even as a pioneers of new solutions.

Collaboration

Collaboration is the key to solving the problems of our time. We welcome diversity and work with organizations who want to make a significant difference.

Community partners

Hurricane start is a community of people interested in both economic and social innovation (they are freelancers, entrepreneurs or just otherwise curious). It began in July 2013 and currently consists of a team of 8 people.

REStart is a group of people in charge of innovation at various levels, all of whom have had different experiences: there are those born in Reggio Emilia, those who are adopted, who are in passing, or who have returned but they all want to contribute to the development of this community that they know and love.

Community partners

Impact Hub Reggio Emilia finds new openings fundamentally through research and in this way continues to create new collaborations with local companies and organizations who share a deep interest in social innovation.

“The Contamination” is a collaboration that includes Impact Hub and its partners with the intention of increasing the range of services offered and finding new areas of design and ideas to develop.

Una riunione preparatoria degli studenti del Bus

AL VIA IL PROGETTO

Pascal, gli studenti delle terze a scuola di innovazione

REGGIO EMILIA

Walk to work: gli studenti del Bus a scuola dagli innovatori.

Oggi al polo scolastico di via Makallè avrà inizio "WalktoWork", il percorso di alternanza scuola lavoro realizzato dal team Contamina e il coworking Impact Hub Reggio Emilia dedicato agli studenti delle scuole secondarie di secondo grado dell'istituto Blaise Pascal.

L'obiettivo del percorso sarà quello di sviluppare competenze complementari e alternative all'offerta scolastica tradizionale, avvicinando gli studenti ai "nuovi lavori 2.0" del nostro territorio - spiega la professoressa Sonia Ruzzi - I ragazzi delle classi terze sezione informatico trascorreranno una settimana con professionisti e pro-

fessioni innovative. Il percorso proseguirà per tutto l'anno scolastico, tra laboratori e giornate tematiche (quali Arduino Day e linux day) e si concluderà con un grande evento, un hackathon di due giorni aperto e dedicato a tutta la città.

Oggi aprirà questo progetto, primo nel suo genere, Valerio Versace di Soluzione Futura, agenzia di infrastrutture informatiche e soluzioni cloud. A seguire in cattedra saliranno Nicola Bigi di Tiwi Srl (agenzia di video storytelling), Giampaolo Melli di NextUp (incubatore di progetti open source), Massimiliano Simoncini di Officine 3d Lab (stampanti 3D), Vittorio Guarini di Faziandl (dormanda e offerta di servizi per la casa tramite app), e Alain Marengli, dello Startup Department di Aster.
