

EDUCATION AND CULTURE COMMITTEE (LEAD)
DEMOCRACY, SOCIAL COHESION AND GLOBAL CHALLENGES COMMITTEE
HUMAN RIGHTS COMMITTEE

Transversal Working group: The Digital Citizen

Theme(s) discussed:

Futures concerning Digital tools and citizenship/democracy; Dissemination of Human Rights; education; Gender and digital tools; Connected youth; Digital tools and the treatment of migrants

Aims:

The development of digital tools is a great driver in terms of sharing knowledge and empowering people to become involved in society, thus serving to promote awareness of European citizenship and democratic engagement. This development can also lead to and/or heighten certain social and geographical divides, which are counter-productive. To this effect, this working group will reflect on the futures we want and how and why digital tools contribute, or do not contribute, to it by disseminating human rights and building European citizenship, with the aim of living together harmoniously through its integration in education and culture.

Working languages: French – English

Leader: Karl Donert (Education and culture)
