## INTRODUCTION

This document is an update of the document ODGPROG/Inf(2014)10 rev, of which the Ministers' Deputies took note at their 1221<sup>st</sup> meeting (4 March 2015).

It gives a snapshot of the proposed projects that are under consideration and of the projects currently implemented by the Council of Europe (CoE) in Kosovo\*.

The CoE co-operation with Kosovo\* is based on the principle that the CoE and its Secretariat operate in conformity with the United Nations Security Council Resolution (UNSCR) 1244 (1999) and on the status-neutral approach of our Organisation. In this context, the CoE maintains contacts with United Nations Mission in Kosovo (UNMIK). On 12 December 2012, the Committee of Ministers took note of the Secretary General's decision regarding the direct interaction of CoE officials involved in CoE activities in Kosovo\* with officials from relevant and competent authorities in Kosovo\* based on the principle of "functional capacity". This principle is taken into account to ensure the Organisation's ability to work effectively in Kosovo\* in order to promote the adoption and implementation of CoE standards.

All proposed and current projects seek to be in alignment with the needs and strategic priorities of the local authorities, are relevant to the adherence with CoE standards, and represent areas of exclusivity or where the contribution of the CoE adds value. Co-ordination with other activities and actors *in situ* is a guiding principle for all CoE interventions, in particular with the European Union (EU) Office, EULEX, as well as the OSCE Mission in Kosovo and the competent UN agencies.

On 2 December 2016, the Working Group on Co-operation between the CoE and Kosovo\* held its fourth meeting in Strasbourg. The Working Group exchanged on the state of co-operation as well as proposals for future activities, with a view to preparing the present document.

All projects proposed have been developed on the basis of needs identified in the course of those CoE monitoring and monitoring-like activities carried out in Kosovo\* under specific arrangements, and as identified in the course of the implementation of programmatic activities. These areas are determined as areas for strategic and value-added engagement by the CoE. The intervention-logic employed in Kosovo\* is based on a programmatic approach whereby all co-operation activities are harmonised and mutually reinforcing, which is ensured during implementation. This approach also caters for progressive programming whereby new interventions build on progress made or shortcomings identified in the course of on-going or past initiatives.

The evolution of the situation on the ground may require an update of this document. Therefore, this document should not be considered as limiting the CoE engagement in other relevant and associated fields, in accordance with developing needs of the beneficiaries.

Projects in the document are to be funded from multiple sources including the CoE's Ordinary Budget, the EU, and voluntary contributions from other international organisations and from donor countries. This document also reflects the relevant projects included in the EU/CoE Horizontal Facility for the Western Balkans and Turkey, signed on 23 May 2016, implementing the Statement of Intent<sup>1</sup> for the co-operation between the CoE and the European Commission in the EU Enlargement Region and the Eastern Partnership and Southern Mediterranean countries (EU Neighbourhood Region).

### PROPOSED PROJECTS

In addition to human rights institutions, in particular the Ombudsman Institution in Kosovo (OIK), specific attention will be paid to the Human Rights Units (HRUs) established in 2005 in each ministry, entrusted with ensuring the compliance of the authorities’ acts and policies with human rights standards, as well as with co-operating with human rights institutions, including the OIK.</p> <p>This specific objectives of the project will aim to streamline the work of non-judicial human rights mechanisms in the area of protection against discrimination, by:</p> <ul style="list-style-type: none"> <li>• Re-assessment of the existing system of HRUs and their mandate in the field of anti-discrimination;</li> <li>• Assessment of the relevant administrative and legislative framework in force;</li> <li>• Providing expert recommendations to the authorities at central and municipal level on streamlining of human rights structures and their complementarity to the OIK’s mandate;</li> <li>• Tailored human rights training, including distance learning with the use of the CoE HELP Programme, for staff members of human rights structures.</li> </ul> <p><i>This project is complementary to Human Rights in Action (1.4), Support to the Implementation of European Human Rights Standards and Reform of the Ombudsman Institution (1.6), Human Rights Academy for Supreme and High Court Judges – HELP Academy (2.1), and Improving the Protection of European Human Rights Standards by the Constitutional Court (2.3).</i></p>

## ON-GOING PROJECTS

<b>Activity</b>	<b>1.6. SUPPORT TO THE IMPLEMENTATION OF EUROPEAN HUMAN RIGHTS STANDARDS AND REFORM OF THE OMBUDSMAN INSTITUTION</b>
<b>Purpose</b>	<p>The project is the first one to be implemented in Kosovo* which offers a comprehensive multi-aspect support to legal professionals and non-judicial actors in the area of application of the European Convention on Human Rights and application of European human rights standards. It also continues to provide support to the OIK, which after the adoption in 2015 of the “Human Rights Law package” obtained new functions but still lacked capacity to deal with its core tasks, such as working with human rights violations victims, processing complaints, litigating in courts and executing the OIK’s national preventive mechanism (NPM) mandate.</p> <p>As a follow-up to the EU/CoE JP <i>Enhancing human rights protection in Kosovo*</i> (2012-2014), the overall objective of this project is to enhance the capacity of legal professionals to apply the ECHR and to strengthen judicial and non-judicial mechanisms of human rights protection. <b>Activity</b>	<b>1.7. REINFORCING THE FIGHT AGAINST VIOLENCE AGAINST WOMEN AND DOMESTIC VIOLENCE</b>

The project's specific objectives are: <ul style="list-style-type: none"> <li>to promote CoE standards to improve the prevention of violence, the protection of victims, and the prosecution of perpetrators;</li> <li>to map existing services for women victims of all forms of violence covered by the Istanbul Convention.</li> </ul>

<b>Activity</b>	<b>1.8. PROMOTING HUMAN RIGHTS AND MINORITY PROTECTION IN SOUTH EAST EUROPE – PHASE II (MINRIGHTS)</b>
<b>Purpose</b>	<p>The regional EU/CoE JP "MINRIGHTS" aims to improve access to rights for minorities at various levels of government, based upon CoE standards in this field, in particular the Framework Convention for the Protection of National Minorities (FCNM).</p> <p>The project is designed to break down barriers for minorities, and builds on similarities of experiences and challenges felt at the local level in the region. The project assesses in detail what practices are being developed at the local level to promote access to rights under the FCNM. The identification and dissemination of good practices of FCNM implementation at a municipal level has facilitated the design and adoption of relevant policy (or legislative) frameworks for minority protection that are applicable across the region.</p> <p>Regionally, the project has worked specifically to:</p> <ul style="list-style-type: none"> <li>provide support to the different beneficiaries on legislative and policy changes at the central government level;</li> <li>support local governments to enhance policies and capacity for the implementation of minority rights in selected municipalities;</li> <li>identify and share good practices among the participating municipalities and to develop adaptable models for use in other municipalities in the region.</li> </ul> <p>The project has focused on four municipalities in Kosovo* (Kamenicë/Kamenica, Vushtrri/Vučitrn, Rahovec/Orahovac and Leposavić/Leposaviq). Work in these municipalities targeted specific issues of minority protection considered most relevant in the local context covering themes of culture, effective participation and non-discrimination. Building on the experiences from implementation of a small grant scheme, representatives of the local authorities also provided recommendations to the central authorities on how to improve the situation of minority rights.</p>

<b>Activity</b>	<b>2.2. ENHANCING HUMAN RIGHTS POLICING</b>
<b>Purpose</b>	<p>Several monitoring bodies and reports identified shortcomings on the side of the police authorities when it comes to the deprivation of liberty and treatment of persons in police custody, and suggest that stronger action in this field is required in Kosovo*. As mentioned in the report of the European Committee for the Prevention of Torture and Inhuman or Degrading Treatment or Punishment (CPT) published on 8 September 2016<sup>2</sup>, the CPT delegation received a significant number of allegations of physical ill-treatment by police officers from detained persons (including juveniles). The visits of the OIK have revealed that in police departments there are still some cases involving torture and inhuman treatment of persons under police custody. When it comes to the police inspection body, the Police Inspectorate of Kosovo (PIK) has investigated cases of different types and nature and has recognised the need to further address issues related to police ill-treatment and to combat impunity.</p> <p>This overall objective of this project will be to support criminal justice reform and combat ill-treatment and impunity in police through improving the legal and institutional framework ensuring the protection of human rights by police, strengthening the capacity of police to apply European human rights standards in their daily work and further enhancing the system of independent and effective investigation of cases of alleged ill-treatment.</p>

## ONGOING PROJECTS

<b>Activity</b>	<b>2.3. IMPROVING THE IMPLEMENTATION OF EUROPEAN HUMAN RIGHTS STANDARDS BY THE CONSTITUTIONAL COURT</b>
<b>Purpose</b>	<p>The project aims to improve the capacity of the Constitutional Court in ensuring the protection of individual human rights and fundamental freedoms through the effective application of European human rights standards to individual complaints.</p> <p>Article 113.7 of the Kosovo* Constitution authorises individuals to refer violations by public authorities of their individual rights and freedoms guaranteed by the Constitution to the Constitutional Court. Article 22.2 specifies that human rights and fundamental freedoms guaranteed by ECHR are directly applicable in Kosovo*. Furthermore, the Constitution provides, in Article 53, that “human rights and fundamental freedoms guaranteed by this Constitution shall be interpreted consistently with the court decisions of the European Court of Human Rights.” The Constitutional Court judges are supported, <i>inter alia</i>, by a team of thirteen legal advisors, who are permanent employees of this Court. These legal advisors conduct legal research and prepare the decisions, resolutions and draft judgments of the Court on behalf of the judges.</p> <p>The project provides a work placement in the Registry of the ECtHR for a period of five months each, to support the professional development of the legal advisors within the Constitutional Court. In addition, it supports the professional exchange between the Constitutional Court of Kosovo* and the Venice Commission.</p> <p><i>This project is complementary to Strengthening Human Rights Structures in Protection against Discrimination (1.1)., Human Rights in Action (1.4), Support to the Implementation of European Human Rights Standards and Reform of the Ombudsman Institution (1.6) and Human Rights Academy for Supreme and High Court Judges – HELP Academy (2.1).</i></p>

<b>Activity</b>	<b>2.4. STRENGTHENING THE QUALITY AND EFFICIENCY OF JUSTICE</b>
<b>Purpose</b>	<p>This Action aims to improve the day-to-day functioning and quality of the justice system, by making available to the authorities the methodology and tools of the European Commission for the Efficiency of Justice (CEPEJ). The application of this methodology and tools leads to an increased capacity of the responsible authorities to assess the efficiency of the Kosovo* judicial system, ensuring that justice is delivered within a reasonable time and that it meets good quality standards.</p> <p>This Action will address the courts, and also strengthen the knowledge of the authorities on the tools and methodology of the CEPEJ, as requested by the KJCC.</p> <p>The first specific objective is to enhance the efficiency of the justice system in accordance with CEPEJ standards and tools on judicial statistics and time management with:</p> <ul style="list-style-type: none"> <li>• An in-depth and global assessment of the judicial system with recommendations for improvements;</li> <li>• Support to the capacity of the KJC and of courts to improve judicial time management, the collection and management of statistical data and enhance their efficiency in accordance with CEPEJ methodology and tools, in particular the SATURN Guidelines.</li> </ul> <p>The second specific objective is to enhance the quality of the justice system, in accordance with CEPEJ quality standards and tools with Court Coaching Programmes in close cooperation with the KJC in individual courts in view of building the capacity of courts to deliver a better justice service in accordance with CEPEJ quality tools such as the Checklist on the quality of justice and the Handbook on conducting users' satisfaction surveys.</p>

The CPT found that there is a serious lack of in-service training for the correctional and health care staff, as well as absence of social rehabilitation for the prisoners. Other reports also noted that the inspections of KCS facilities by the Internal Inspectorate of the Ministry of Justice are not systematically addressed. The project focuses on:</p> <ul style="list-style-type: none"> <li>• enhancing professionalism of prison staff through strengthening the provision of in-service training and improving prison staff recruitment policies;</li> <li>• improving the treatment of prisoners through improving prisoners' risks and needs assessment tools and developing and piloting targeted rehabilitation programmes;</li> <li>• strengthening safeguards against ill-treatment for a better protection of the rights of the prisoners;</li> <li>• establishing efficient internal prison inspection;</li> <li>• improving provision of mental health care, health care and application of medical ethics in prisons.</li> </ul> <p><i>This project is complementary to the proposed project ENHANCING HUMAN RIGHTS POLICING (2.2).</i></p>

#### ONGOING PROJECTS

<b>Activity</b>	<b>3.2. PROJECT AGAINST ECONOMIC CRIME IN KOSOVO* - PECK II</b>
<b>Purpose</b>	<p>Anti-corruption (AC) and Anti-Money Laundering/Combating the Financing of Terrorism (AML/CFT) systems remain weak. Furthermore, in the field of money laundering and terrorism financing, there is a need for continuous legislative and organisational reforms to bring Kosovo* in line with European and international standards.</p> <p>The joint <i>EU/CoE Project against Economic Crime in Kosovo* (PECK I)</i>, implemented during 2012-2015, introduced the first-of-its-kind structured assessments of the AC and AML/CFT frameworks and measures vis-à-vis relevant international and European standards through assessment tools modelled on GRECO and FATF/MONEYVAL methodologies and specifically tailored to Kosovo*. PECK II provides assistance in implementing specific recommendations including from the previous assessment cycles conducted within PECK I through targeted technical assistance while continuing to support relevant institutions in participating during the forthcoming comprehensive assessment process.</p> <p>The project contributes to the democracy and the RoL through the prevention and control of corruption; money laundering; and the financing of terrorism. In view of this PECK II:</p> <ul style="list-style-type: none"> <li>• builds on the results and lessons learned from PECK I and aims to support reforms tailored to prevent and combat economic crime;</li> <li>• assists authorities with the implementation of specific recommendations issued within PECK I;</li> </ul>

<b>Activity</b>	<b>3.3. PROJECT ON TARGETING CRIME PROCEEDS ON THE INTERNET IN SOUTH-EASTERN EUROPE AND TURKEY – IPROCEEDS</b>
<b>Purpose</b>	<p>Worldwide, most cybercrime reported and investigated by criminal justice authorities is related to different types of fraud and other offences aimed at obtaining illegal economic benefits. Vast amounts of crime proceeds are thus generated – and often laundered – on the Internet and through the use of information and communication technologies (ICT). ICT are exploited for a wide range of serious and organised crime activity with a “dynamic relationship between online and off-line organised crime”. This is also the case for the Western Balkans and Turkey.</p> <p>Major standards regarding cybercrime and crime proceeds include the Budapest Convention on Cybercrime (CETS No. 185) and the Convention on Laundering, Search, Seizure and Confiscation of the Proceeds from Crime and on the Financing of Terrorism (CETS No. 198) of the CoE. The objective of this regional Joint Programme between the CoE and the EU is to strengthen the capacity of the relevant and competent authorities to search, seize and confiscate cybercrime proceeds and prevent money laundering on the internet.</p> <p>This is to be achieved through seven expected results related to public reporting systems; legislation; inter-agency co-operation for cybercrime and financial investigations; risk-management and due diligence guidelines for financial sector entities; public/private information sharing; judicial training and international co-operation.</p> <p><i>This project is complementary to the project PECK II (3.2).</i></p>

<b>Activity</b>	<b>3.4. STRENGTHEN INTEGRITY AND COMBAT CORRUPTION IN HIGHER EDUCATION</b>
<b>Purpose</b>	<p>The CoE has undertaken the project <i>Strengthen Integrity and Combat Corruption in Higher Education</i> in order to support the education reform process set out in the Kosovo* Education Strategic Plan 2011-2016 and bring it in line with "Helsinki agenda for quality education in Europe" and other key instruments of the CoE. Measures are proposed at the university level to raise awareness of corruption and to identify possible measures if and when corruption occurs.</p> <p>The CoE builds upon its experience in the region, through the 2009-2012 <i>Project against Corruption in Albania (PACA)</i> with a strong component on prevention of corruption in the education sector by improving transparency, accountability and social participation in the education system. The CoE has also a valuable experience in the field of Qualification Standards, with the implementation e.g. of EU/CoE JP Strategic Development of Higher Education and Qualification Standards (2013-2015).</p> <p>The focus of this proposed project is to develop ethical standards, combat corruption and promote best practices of quality and integrity in education. This is reached by:</p> <ul style="list-style-type: none"> <li>• enhancing awareness of staff, professors and students on ethics standards and corruption;</li> <li>• developing a guidebook on ethical standards, combatting corruption and promoting best practices in ethics and integrity in education for higher education institutions, and assisting Kosovo* in participating in a related CoE pan-European platform with a view to building relevant technical capacities.</li> </ul> <p>This project is complementary to the projects <i>FOSTERING RAPPROCHEMENT THROUGH EDUCATION FOR DEMOCRACY – FRED (5.1)</i> and <i>Fostering a Democratic School Culture and Diversity in Schools (5.2)</i>.</p>

<b>Activity</b>	<b>4.3 REINFORCING JUDICIAL EXPERTISE ON FREEDOM OF EXPRESSION AND THE MEDIA IN SEE - JUFREX</b>
<b>Purpose</b>	<p>Reforms aimed at further democratising societies in SEE include the area of freedom of expression and the media. There is a need to continuously support progress in the field of freedom of expression and freedom of the media, to train and educate not only media actors, but also societies as a whole. Promotion and full exercise of freedom of expression, freedom of the media, professional and ethical standards, public media services, independence of media and regulatory authorities remain to be ensured.</p> <p>This regional project focuses on the promotion of freedom of expression and freedom of the media in line with CoE standards through the support to judiciary in South East Europe. This main component is complemented by actions related to the support to media regulatory authorities and the training of media actors. These interconnected segments are of significant importance for freedom of expression and exercise of human rights, in line with European standards. ## V. DEMOCRATIC GOVERNANCE AND PARTICIPATION

### PROPOSED PROJECTS

<b>Activity</b>	<b>5.1. FOSTERING RAPPROCHEMENT THROUGH EDUCATION FOR DEMOCRACY – FRED</b>
<b>Purpose</b>	<p>While some progress has been made in the educational reform process, as evidenced by the Evaluation report of the Education strategy plan 2011-2016, several factors continue to contribute to tensions between communities, including lack of contact with peers from other communities, reinforcement of prejudice through curricula and textbooks, and a lack of understanding and inclusiveness with other groups. Linguistic discrimination and hate speech are on the rise as is radicalisation, though a European Commission report of 2015 commended Kosovo* for having "stepped up its efforts in the fight against terrorism".</p> <p>The CoE is promoting a Reference Framework of Competences for Democratic Culture and awareness of human rights through education, in particular through the CoE Charter on Education for Democratic Citizenship and Human Rights Education (2010) and the CoE Committee of Ministers Action Plan "The fight against violent extremism and radicalisation leading to terrorism" in which education is included as a preventative measure. A democratic climate must be provided in the schools for which teaching and non-teaching staff, parents and community leaders are responsible. Complementing this measure is the "No Hate Speech Movement". This project will aim to foster rapprochement from several different angles, combining grassroots, policy and political actions based on CoE standards.</p>

	<p>The project will:</p> <ul style="list-style-type: none"> <li>• build capacity through school-based projects;</li> <li>• advance awareness through face-to-face and on-line events including introducing the No Hate Speech Movement;</li> <li>• develop policy recommendations and publications.</li> </ul> <p><i>This project is complementary to the projects Strengthen Integrity and Combat Corruption in Higher Education (3.4.) and Fostering a Democratic School Culture and Diversity in Schools (5.2.)</i></p>

## ONGOING PROJECTS

<b>Activity</b>	<b>5.2. FOSTERING A DEMOCRATIC SCHOOL CULTURE AND DIVERSITY IN SCHOOLS</b>
<b>Purpose</b>	<p>The CoE standards, including those addressing areas of minority rights and education, are part of the applicable legal framework and are strategic priorities.</p> <p>The CoE can draw upon its extensive experience of co-operation in the region and throughout Europe supporting education systems to harmonise practice with European standards.</p> <p>This project builds upon CoE's longstanding experience with Education, including a joint project with the World Bank to develop education and higher education legislation and a university statute (2000) and a joint programme with the EU on "Interculturalism and the Bologna Process" (2008-2011). Other related projects include EU/CoE JP Access to Education and Intercultural Understanding for Roma, Ashkali and Egyptians and Returnees (2012-2015), and Regional EU/CoE JP Inclusive Education (2011-2015), which provided a strong base from which to develop the current project.</p> <p>The focus of this project is to foster democratic school culture and diversity in schools. This is reached by:</p> <ul style="list-style-type: none"> <li>• enhancing knowledge and awareness on inclusive education and a democratic culture in schools;</li> <li>• supporting vulnerable or marginalised children in schools and enhancing school capacities to remove prejudice and discriminatory approaches.</li> </ul> <p><i>This project is complementary to the projects, <b>FOSTERING RAPPROCHEMENT THROUGH EDUCATION FOR DEMOCRACY – FRED (5.1)</b> and <b>Strengthen Integrity and Combat Corruption in the Higher Education (3.4)</b>.</i></p>
