Energy Efficiency Fund,

Celebrating the International Landscape Day of the Council of Europe

– *PROGRAMME* –
16 October 2018

*Council of Europe - Directorate of Democratic Participation
Secretariat of the Council of Europe Landscape Convention*

The National Conference on the implementation of the European Landscape Convention in Croatia is organised in Zagreb, Croatia (Address: Faculty of Architecture, University of Zagreb, Fra Andrije Kačića Miošića 26, 10000, Zagreb, Croatia) on 20 October 2018. The Conference is organised, under the auspices of the Chairmanship of Croatia of the Committee of Ministers of the Council of Europe for the Celebration of the International Landscape Day of the Council of Europe, by the Ministry of Construction and Physical Planning and the Croatian Institute for Spatial Development and the Council of Europe – Secretariat of the European Landscape Convention, Directorate of Democratic Participation –, with the support of the Ministry of Culture of Croatia and the Ministry of the Environment and Energy and the Environmental Protection and Energy Efficiency Fund of Croatia, within the context of the Work Programme of the European Landscape Convention of the Council of Europe.

Introduction

As an international intergovernmental organisation created in 1949, and whose headquarters are located in Strasbourg (France), ***the Council of Europe*** has 47 member States: Albania, Andorra, Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Republic Moldova, Monaco, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russian Federation, San Marino, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, “the former Yugoslav Republic of Macedonia”, Turkey, Ukraine and the United Kingdom. Its main objectives are to promote democracy, human rights and the rule of law, and to seek common solutions to the main problems facing European society today.

The European Landscape Convention was adopted by the Committee of Ministers of the Council of Europe on 19 July 2000 in Strasbourg and opened for signature by the member States of the Organisation in Florence (Italy) on 20 October 2000, with the aim of promoting European landscape protection, management and planning and to organise international co-operation. It is the first international treaty to be exclusively devoted to all dimensions of the landscape. The Convention applies to the entire territory of the Parties and covers natural, rural, urban and peri-urban areas. It concerns landscapes that might be considered outstanding, as well as everyday or degraded landscapes. To date, 39 Council of Europe member States have ratified the Convention: Andorra, Armenia, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Republic of Moldova, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, San Marino, Serbia, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, “the former Yugoslav Republic of Macedonia”, Turkey, Ukraine and the United Kingdom. Two states have signed the Convention: Iceland and Malta.

Acknowledgments

The Secretariat of the Council of Europe would like to thank the Ministry of Construction and Physical Planning and the Croatian Institute for Spatial Development, for their co-operation; the Ministry of Culture, the Ministry of the Environment and Energy and the Environmental Protection and Energy Efficiency Fund of Croatia, for their support.

Objectives

The Conference aims to present the European Landscape Convention and to discuss its implementation at national level.

For the purposes of the Convention:

‘Landscape policy’ means “an expression by the competent public authorities of general principles, strategies and guidelines that permit the taking of specific measures aimed at the protection, management and planning of landscapes”.

‘Landscape’ means “an area, as perceived by people, whose character is the result of the action and interaction of natural and/or human factors”; ‘Landscape protection’ means “actions to conserve and maintain the significant or characteristic features of a landscape, justified by its heritage value derived from its natural configuration and/or from human activity”; ‘Landscape management’ means “action, from a perspective of sustainable development, to ensure the regular upkeep of a landscape, in order to guide and harmonise changes which are brought about by social, economic and environmental processes”; and ‘Landscape planning’ means “strong forward-looking action to enhance, restore or create landscapes”.

The Meeting aims to promote the implementation of the Convention in Croatia.

The Convention states notably in its Chapter II:

Article 5 – General measures

Each Party undertakes:

- a. to recognise landscapes in law as an essential component of people’s surroundings, an expression of the diversity of their shared cultural and natural heritage, and a foundation of their identity;
- b. to establish and implement landscape policies aimed at landscape protection, management and planning through the adoption of the specific measures set out in Article 6;
- c. to establish procedures for the participation of the general public, local and regional authorities, and other parties with an interest in the definition and implementation of the landscape policies mentioned in paragraph b above;
- d. to integrate landscape into its regional and town planning policies and in its cultural, environmental, agricultural, social and economic policies, as well as in any other policies with possible direct or indirect impact on landscape.

Article 6 – Specific measures

A. Awareness-raising

Each Party undertakes to increase awareness among the civil society, private organisations, and public authorities of the value of landscapes, their role and changes to them.

B. Training and education

Each Party undertakes to promote:

- a. training for specialists in landscape appraisal and operations;
- b. multidisciplinary training programmes in landscape policy, protection, management and planning, for professionals in the private and public sectors and for associations concerned;
- c. school and university courses which, in the relevant subject areas, address the values attaching to landscapes and the issues raised by their protection, management and planning.

C. Identification and assessment

1. With the active participation of the interested parties, as stipulated in Article 5.c, and with a view to improving knowledge of its landscapes, each Party undertakes:

- a. i) to identify its own landscapes throughout its territory;
- ii) to analyse their characteristics and the forces and pressures transforming them;
- iii) to take note of changes;

b. to assess the landscapes thus identified, taking into account the particular values assigned to them by the interested parties and the population concerned.

2. These identification and assessment procedures shall be guided by the exchanges of experience and methodology, organised between the Parties at European level pursuant to Article 8.

D. Landscape quality objectives

Each Party undertakes to define landscape quality objectives for the landscapes identified and assessed, after public consultation in accordance with Article 5.c.

E. Implementation

To put landscape policies into effect, each Party undertakes to introduce instruments aimed at protecting, managing and/or planning the landscape.

Moreover, the Convention states in *Article 8 – Mutual assistance and exchange of information*:

The Parties undertake to co-operate in order to enhance the effectiveness of measures taken under other articles of this Convention, and in particular:

- a.* to render each other technical and scientific assistance in landscape matters through the pooling and exchange of experience, and the results of research projects;
- b.* to promote the exchange of landscape specialists, in particular for training and information purposes;
- c.* to exchange information on all matters covered by the provisions of the Convention.
