ALL IN – Towards gender balance in sport

■ Despite positive developments in recent decades, gender inequalities still persist in many aspects of the sports world, from coaching to administration, from participation to media representation, from grassroots to elite sports. Progress in Europe remains slow and fragmented.

■ To level the playing field, the Council of Europe and the European Union decided to join forces together with partner organisations, through the “ALL IN – Towards gender balance in sport” joint project. Based on the important standards adopted by these institutions, ALL IN provides support to public authorities and sports organisations when designing and implementing policies and programmes aimed at tackling gender inequalities in sport and adopting a gender mainstreaming strategy.

- ▶ **“All In”** → **Collecting data on gender equality in sport on leadership, coaching, participation, media and gender-based violence**, to monitor the progress, to allow comparisons between countries and sports, and to help design evidence-based policies.
- ▶ **“All In”** → **Producing concrete materials and developing activities**, to support policy-making and driving changes:
 - Relevant awareness-raising tools
 - Toolkit on gender mainstreaming in sport
 - Face-to-face training seminars
 - Online library of practices and resources on gender equality and gender mainstreaming in sport
 - Self-assessment tool
