Activity 16 : To build a torch you need…

A battery

Two wires

A bulb

Check that :   - the bulb is not burned out
                      - the battery is not flat
                      - the two wires are conductors (in metal)

To light up the bulb, the circuit must be closed.
