CONSEIL DE L'EUROPE

A new strategy to protect the rights of national minorities was developed by the State Service of Ukraine on Ethnopolitics and Freedom of Conscience, following the Council of Europe's Committee of Ministers Recommendation (2022) 16 on combating hate speech.

60 police investigators, prosecutors and judges **strengthened their skills in identifying, addressing, and preventing hate-motivated incidents** after completing the Council of Europe HELP course on combating hate speech, to **better protect and accompany victims.**

Civil society organisations are now
**better equipped to raise awareness
locally and promote counter-
narratives against hate speech** in
their communities, thanks to **support
from dedicated granting schemes.**
