1. Conditions: List here all conditions which were attached to the award or the renewal of the European Diploma. Explain either how the conditions have been totally complied with or detail the progress in complying with the conditions. Please also indicate any unresolved difficulties that you have encountered.

N/A

2. Recommendations: List here all recommendations which were attached to the award or the renewal of the European Diploma. Explain either how the recommendations have been totally complied with or detail the progress in complying with the recommendations. Please also indicate any unresolved difficulties that you have encountered.

1. review and, where necessary, improve the regulations of the protected area in order to strengthen the protection status; and devote a part of the management plan of the Hohe Tauern National Park to the Krimml Waterfalls;

Within the Management plan of the Hohe Tauern National Park the European Diploma holding area is mentioned a few times.

2. continue to take appropriate measures in order to preserve the natural beauty of this impressive natural monument for future generations;

Is implemented and an ongoing process.

3. avoid impacts on the high aesthetic quality of the landscape surrounding the Krimml Waterfalls, especially in the areas around "Wasserfallboden" and "Schönangerl";

Is implemented and an ongoing process. In all of nature conservation law administrative procedures, which take place in the surroundings to the Krimml Waterfalls, always takes a rigorous examination of the potential impact on the natural monument.

4. maintain great vigilance regarding the development close to the falls, e.g. installations or extension of shops, as well as medical care and new touristic activities (e.g. ice-climbing);

Is implemented and an ongoing process. In all of nature conservation law administrative procedures, which take place in the surroundings to the Krimml Waterfalls, always takes a rigorous examination of the potential impact on the natural monument. There are no new touristic activities or attractions installed.

5. avoid as far as possible increasing light pollution;

There are no threats of an increasing light pollution at the moment.

6. continue to pay close attention to the problem of path erosion; and ensure that visitors only use the existing paths;

The general maintenance work on the footpath is an ongoing process. This work will be implemented with great care on the landscape for the safety of visitors and for the visitor management.

7. pursue scientific research and secure funding for studies on regional birdlife, fungi (including lichens) and bryophytes, as a contribution to protect the area's typical biodiversity;

Is implemented and an ongoing process

8. strengthen the co-operation with local stakeholders, especially land owners, the municipality, the Austrian Alpine Association (ÖAV), tourism operators and associations.

The cooperation is very well maintained with all stakeholders

3. Site Management: List here any changes to the European Diploma holding site management, in relation to both terrestrial and aquatic environments (as appropriate), and in relation to staff and finances, since the last annual report was submitted to the Council of Europe. Please also indicate any unresolved difficulties that you have encountered.

No changes in relation to terrestrial and aquatic environments.

Due to the retirement of Mr. Laimer in the future, Mr. Martin Klipp (martin.klipp@salzburg.gv.at) will take the role of the regional site manager

4. Boundaries: Give details of any changes to the boundaries of the European Diploma holding site since the last annual report was submitted to the Council of Europe. If there are any changes, please attach an appropriate map to this report. Please also indicate any unresolved difficulties that you have encountered.

No changes

5. Other information: List here any other information about the European Diploma holding site which you consider should be provided to the Council of Europe.

Due to COVID-19 pandemic situation there was a significant decrease of visitors, especially due to a shorter visiting season.

Next to the European Diploma holding area and the starting point of the four kilometer long waterfall hike there is the Worlds of Water. This innovative exhibition area is a combination of edutainment, sensory experiences and active participation. The grandiose panoramic terrace in the WasserBar reveals spectacular views of the waterfalls. The exhibition area is dedicated to infotainment with exciting experiments and a new WaterCinema. In the outdoor area, visitors can get active themselves. Fun games make for plenty of enjoyment with the wet element. The centrepiece of the Worlds of Water is the modern waterfall centre: The Aquaszenarium is a projection show, the only one of its kind in Austria, and a cracker for young and old alike. The floor and walls are covered with projections, which can be manipulated and changed by touch or by stepping onto them. With this multimedia setup, visitors can playfully immerse themselves into the four water worlds: Beginning with the water meadow landscape at the upper falls of the river, where you can play interactively with projected butterflies, grasses and fish

The following sections of the form should only be filled in if your area is in the year before a renewal of its European Diploma for Protected Areas, i.e. year 4 after the award of the European Diploma or year 9 after its renewal.

6. Natural heritage (general abiotic description: geomorphology, geology and hydrogeology, habitats, flora, fauna, landscape) – State of conservation

- 6.1. Environment: changes or deterioration in the environment, of natural or anthropic origin, accidental or permanent, actual or anticipated
- 6.2. Flora and vegetation: changes in the plant population and in the vegetational cover; presumed causes
- 6.3. Fauna: changes in the sedentary or migratory populations; congregating, egg-laying and breeding grounds

7. Cultural heritage and socio-economic context

- 7.1. Cultural heritage
 - 7.1.1. Changes concerning cultural heritage
- 7.2. Socio-economic context
 - 7.2.1. Changes concerning the socio-economic context

8. Education and scientific interest

- 8.1. Visitors – Information policy
 - 8.1.1. Arrangements for receiving and informing the public (building, booklets, maps, cards, etc.)
 - 8.1.2. Frequentation by visitors and behavior (number, distribution in time and space)
 - 8.1.3. Special visits (distinguished persons, groups, etc.)
- 8.2. Scientific research
 - 8.2.1. Current or completed research (observation, experimentation, etc.; identification or inventory of the species listed in the appendices to the Bern Convention, etc.)
 - 8.2.2. Scientific publications

9. Site description (vulnerability, protection status, ownership, documentation)

- 9.1. Changes in legislation or regulations
- 9.2. Changes in ownership title (conversion to public property, rentals, etc.)
- 9.3. Extension or transfer, new uses (for example, conversion into total reserve)

10. Site management (management plans, budget and personnel)

- 10.1. Improvements made
 - 10.1.1. Ecological action affecting the flora and biotopes; controls of fauna
 - 10.1.2. Protection against the elements (fire, water regime)
 - 10.1.3. Approaches and thoroughfares (paths, roads, car parks, signposting, fencing, etc.)
 - 10.1.4. Field equipment (hides and study facilities)
 - 10.1.5. Waste management
 - 10.1.6. Use of renewable energy systems
- 10.2. Management
 - 10.2.1. Administrative department: changes made
 - 10.2.2. Wardens' department: changes made
 - 10.2.3. Internal policing measures
 - 10.2.4. Infringement of regulations and damage; legal action

11. Influence of the award of the European Diploma for Protected Areas

The award of the European Diploma is not only honourable, but it is also a challenge for the conservationists to meet the demands of protection in a responsible way. The policies of the Hohe Tauern National Park and of the government of Land Salzburg adhere strongly to the idea of the protection of the Krimml Waterfalls. These interventions were warded off only based on the regulations of the European Diploma! Extremely keen

standards are being applied to all matters connected with the Krimml Waterfalls and their protected surroundings. The award of the European Diploma to the Krimml Waterfalls has made the falls and the National Park well known throughout the world. This fact has been appreciated by the National Park Administration in many publications and conferences.
