**Permanent Representation of the Republic of North Macedonia
to the Council of Europe**

No. 35-01-155/2

NOTE VERBALE

The Permanent Representation of the Republic of North Macedonia to the Council of Europe presents its compliments to the Secretary General of the Council of Europe and pursuant to Article 15 of the Convention for the Protection of Human Rights and Fundamental Freedoms has the honour to inform that the Republic of North Macedonia shall exercise the right to derogation from its obligations under the Convention for the Protection of Human Rights and Fundamental Freedoms on the entire territory of North Macedonia.

The Permanent Representation of the Republic of North Macedonia to the Council of Europe has the further honour to inform that following the announcement of the World Health Organization of 11 March 2020 confirming the COVID-19 coronavirus pandemic, and taking into account the significant danger its spreading has posed to the public health, on 18 March 2020, the President of the Republic of North Macedonia has adopted a *Decision to establish the existence of state of emergency* on the entire territory of the Republic of North Macedonia. The state of emergency has been established for a period of 30 days with a view to preventing the spread and coping with the consequence of the COVID-19 coronavirus. The Decision No. 08-526/2 of 18 March 2020 was signed by the President of the Republic, in accordance with Article 125 of the Constitution of the Republic of North Macedonia, and was published in the Official Gazette of the Republic of North Macedonia No. 68, dated 18 March 2020 (annexed hereto). The Decision shall be submitted to the Assembly of the Republic of North Macedonia to be verified as soon as the Assembly is in position to meet. It must be born in mind that the Assembly of the Republic of North Macedonia had been dissolved prior to the coronavirus crisis, on 16 February 2020, for the purpose of convening early parliamentary elections on 12 April 2020. During the state of emergency, the Government of the Republic of North Macedonia, in accordance with the Constitution and relevant laws, adopts Decrees with the force of law. Before the expiration of the 30 days the Government is obliged to submit to the President a detailed report for the effects of the measures that had been taken and a reasoned proposal for the need of potentially extending the state of emergency for additional 30 days.

The Government has publicly announced that certain human rights and fundamental freedoms guaranteed under the Constitution may be temporarily suspended or restricted for the duration of state of emergency, but only to the extent required by such circumstances and as much as the measures adopted do not create any discrimination on the basis of race, sex, ethnic origin, language, religion, political or other conviction, social status, education and other personal circumstances.

Since the first case of COVID-19 was detected on the territory of the Republic of North Macedonia on 24 February 2020, the Government of the Republic of North Macedonia gradually has adopted a set of decisions, conclusions and has been taking concrete preventive measures to protect the public health.

The measures adopted by the Government of the Republic of North Macedonia, among others include: suspension of regular classroom instruction in primary, secondary and vocational schools and universities, to be replaced with distance home learning, restriction of public assemblies, cancelling all public events, meetings and gatherings, closing of museums, theatres and cinemas for visitors, cancellation of performances and conferences, suspension of international passenger air traffic, establishing special rules of isolation and state-organized quarantine for citizens entering the territory, ban on and special regime of movement in parts and on the entire territory of the country, as well as additional movement restrictions.

The application of these measures may influence the exercise of certain rights and freedoms under the Convention and in some instances give reason for the necessity to derogate from certain obligations of the Republic of North Macedonia under Article 8 and Article 11 of the European Convention for the Protection of Human Rights and Fundamental Freedoms, Article 2 of the Protocol to the Convention for the Protection of Human Rights and Fundamental Freedoms and Article 2 of Protocol No. 4 to the Convention for the Protection of Human Rights and Fundamental Freedoms. The measures adopted by the Government are proportionate and targeted, required by the exigencies of the situation and are not inconsistent with other obligations under international law.

The Permanent Representation of the Republic of North Macedonia to the Council of Europe attaches to this Note Verbale unofficial translation of the Decision No. 08-526/2, signed by the President of the Republic of North Macedonia by which the state of emergency was declared, as well as subsequent Decrees adopted by the Government of the Republic of North Macedonia in the period from 12 to 27 March 2020.

The Permanent Representation of the Republic of North Macedonia to the Council of Europe shall additionally inform the Secretary General of the Council of Europe about new relevant decrees adopted by the Government in relation to the emergency situation, and will notify the Secretary General of the Council of Europe when these measures will have ceased to apply and thus the provisions of the Convention for the Protection of Human Rights and Fundamental Freedoms will be fully implemented again.

The Permanent Representation of the Republic of North Macedonia to the Council of Europe avails itself of this opportunity to renew to the Secretary General of the Council of Europe the assurances of its highest consideration.
