#### 12 November 2021

# Cooperation against Cybercrime Octopus Conference 2021

16 -18 November 2021 – Online

### **Overview**

.3h00 – 19h00 CET	Plenary session:			
	Special event organised in cooperation with the Hungarian Chairmanship of the Committee of Ministers on the occasion of the:			
	20 <sup>th</sup> anniversary of the Budapest Convention on Cybercrime			
	<ul> <li>2<sup>nd</sup> Additional Protocol on enhanced cooperation and disclosure of electronic evidence</li> <li>Opening</li> <li>20 years of Budapest Convention – benefits and impact</li> <li>The 2nd Additional Protocol to the Convention on Cybercrime</li> <li>High-level interventions</li> </ul>			
Wed, 17 November				
7h00 – 8h50	WS 1: Regional Workshop for Asia			
9h00 - 10h50	WS 2: COVID-19 and cybercrime	WS 3: Regional Workshop for Africa		
11h00 - 12h50	WS 4: Crime and crypto currencies	WS 5: The global state of cybercrime legislation		
13h00 - 14h00	Break			
14h00 – 15h50	WS 6: Automated detection of child sexual abuse materials	WS 7: Ransomware		
16h00 – 17h50	WS 8: Cybercrime and artificial Lightning talks I intelligence			
18h00 - 19h50	WS 9: Regional Workshop for Latin America and the Caribbean			
Thu, 18 November				
7h00 – 8h50	Workshop 10: Regional Workshop for Pacific			
9h00 – 10h50	Workshop 11: Capacity building:         Workshop 12: Cybercrime victims           judicial training         Vorkshop 12: Cybercrime victims			
11h00 – 12h50	Workshop 13: Capacity building:       Workshop 14: Cybercrime: Offender         guides and tools       Workshop 14: Cybercrime: Offender			
13h00 – 13h45		Lightning talks II		
13h45 - 14h30	Break			
14h30 – 15h15	Outlook 1: Cybercrime – threats and t	rends		
15h30 - 16h15	Outlook 2: Human rights and rule of law in cyberspace			
16h15 - 16h30	Break			
16h30 – 17h15	Outlook 3: Cooperation against cyberc	rime in 2022		
17h15 – 18h00	Conclusions – Octopus take-aways			

## **Detailed Programme**

TUE, 16 NOVEM	BER – SPECIAL EVENT
Plenary	Languages: English / French / Spanish / Hungarian
13h00 – 19h00	20 <sup>th</sup> anniversary of the Budapest Convention on Cybercrime
	م 2 <sup>nd</sup> Additional Protocol on enhanced cooperation and disclosure of electronic evidence
	Moderator: Jan Kleijssen (Director of Information Society and Action against Crime, Council of Europe)
	► Opening
	<ul> <li>Sándor Pintér (Minister of Interior, Hungary)</li> <li>Marija Pejčinović Burić (Secretary General, Council of Europe)</li> </ul>
	► Interventions I
	<ul> <li>Interventions by ministers/senior officials</li> </ul>
	Panel: 20 years of Budapest Convention – global impact
	<ul> <li>Moderators: Cristina Schulman (Chair of the Cybercrime Convention Committee (T- CY), Ministry of Justice, Romania) / Alexander Seger (Executive Secretary, T-CY, Council of Europe)</li> </ul>
	<ul> <li>Panellists: Betty Shave (formerly US Department of Justice, USA), Pedro Verdelho (Vice-Chair of the T-CY, Public Prosecutor, Portugal), Papa Assane Touré (Magistrate, Deputy General Secretary of the Government, Senegal), Claudio Peguero (General Inspector General of the National Police, Dominican Republic), Jayantha Fernando (General Counsel, ICT Agency of Sri Lanka and Director, Sri Lanka CERT), Gareth Sansom (Department of Justice, Canada)</li> </ul>
14h45-15h15	Break
	► Interventions II
	<ul> <li>Interventions by ministers/senior officials</li> </ul>
	Panel: The 2nd Additional Protocol to the Convention on Cybercrime - expectations
	<ul> <li>Moderators: Cristina Schulman (Chair of the Cybercrime Convention Committee, Romania) / Alexander Seger (Executive Secretary, T-CY, Council of Europe)</li> <li>Panellists: Kenneth Harris (Senior Counsel for International Criminal Matters, Department of Justice, US Mission to the European Union, USA), Jacqueline Palumbo (Senior General Counsel and Head of Treaty Negotiations, International Assistance Group, Justice Canada), Nathan Whiteman (Director, Department of Home Affairs, Australia), Tjabbe Bos (Team Leader, Unit 'Security in the digital age', Directorate- General for Migration and Home Affairs, European Union Commission)</li> </ul>
	Interventions III
	<ul> <li>Interventions by Ministers/senior officials</li> </ul>
	► Conclusions

WED, 17 NOVE	EMBER – WORKSHOP SESSIONS		
Wed, 17 Nov 7h00 – 8h50	Workshop 1 – Regional workshop for Asia: Strengthening international cooperation on cybercrime and electronic evidence in the region: Challenges and solutions		
	Language: EN		
	Purpose: In Asia, substantive legislation for combatting cybercrimes is either largely or partially in place, while approximately 60% of the countries have procedural powers in this respect. The workshop aims to provide a platform for dialogue between decision-makers and practitioners in the region, to identify the particular challenges and good practices for international cooperation on cybercrime and electronic evidence in Asia. The workshop is structured as a roundtable discussion between decision-makers and practitioners from the region, with emphasis on participant engagement. The workshop is coorganised with the United Nations Office on Drugs and Crime (UNODC)		
	Moderator/s: Vu Trung Hoang (Cybercrime Operations Officer, INTERPOL)		
	Rapporteur: Betty Shave (Consultant, USA)		
	Secretariat: Martha Stickings / Cosmina Menghes (GLACY +, C-PROC, Council of Europe)		
	<ul> <li>Introduction and objective of the workshop</li> </ul>		
	<ul> <li>Vu Trung Hoang (Cybercrime Operations Officer, INTERPOL)</li> </ul>		
	Key challenges to international cooperation on cybercrime and electronic evidence. What are the specific problems of international cooperation on cybercrime and e-evidence in Asia? How do criminal justice authorities in Asia obtain evidence from other states?		
	<ul> <li>Alexandru Caciuloiu (Cybercrime and Cryptocurrency Advisor and Programme Coordinator for Southeast Asia and Pacific, UNODC)</li> <li>Yeongsu Jeong (Senior Prosecutor, Director of Cybercrime Investigation Division, Forensic Science Investigation Department, Supreme Prosecutors' Office, Republic of Korea)</li> </ul>		
	<ul> <li>Best practices in international cooperation in Asia</li> </ul>		
	<ul> <li>Jayantha Fernando (General Counsel, ICT Agency of Sri Lanka and Director, Sri Lanka CERT)</li> </ul>		
	<ul> <li>Norikazu Otaki (Deputy Chief for International Affairs, Japan Prosecutors unit on Emerging Crimes (JPEC), Supreme Public Prosecutors Office, Japan)</li> <li>Vu Trung Hoang (Cybercrime Operations Officer, INTERPOL)</li> </ul>		
	Recommendations on improving international cooperation in the region and beyond		
	<ul> <li>All panellists (Session moderated by Vu Trung Hoang (Cybercrime Operations Officer, INTERPOL)</li> </ul>		
	► Conclusions		
Wed, 17 Nov 9h00 – 10h50	Workshop 2 – COVID-19 and Cybercrime		

erator/s: orteur:	The COVID-19 pandemic is accompanied by an unprecedented increase cybercrime, further weakening the ability of public authorities to respon- cyberattacks. This weakening of defences is likely to be further exploited criminal purposes and possibly for terrorist use of information communication technologies, such as denial of service attacks aga hospitals or interference with systems and data of health research facilit ransomware etc. In this context, the importance of an effective respons cybercrime and other crime involving electronic evidence is undenia Criminal justice authorities need to undertake domestic investigations engage in international and other forms of cooperation to detect, investig attribute and prosecute the above offences. The objective of the worksho to identify challenges encountered by the criminal justice authorities and seek solutions for possible future crises drawing lessons from the curr pandemic. Wod 17 New	Workshop	3 – Regional workshop for Africa: Strengthening
Wed, 17 Nov 9h00 – 10h50	cooperation on cybercrime and electronic evidence in the region – Challenges and solutions	
	Languages:	EN/FR/PT/AR
	Purpose:	Internet penetration and related services such as mobile-based financial services, are rapidly growing in Africa. This is accompanied by increasing cybercrime. Many countries in Africa have made it a priority to develop legal frameworks to efficiently criminalize offences against and by means of computers, permit domestic investigations and allow for effective international cooperation between criminal justice authorities, in line with international standards, in particular those of the Budapest and Malabo Convention. The benefits of cooperative approaches were confirmed on the occasion of the First Africa Forum on cybercrime in 2018 and again in the Second Africa Forum in June 2021. This workshop is to follow up on the agreement reached in these forums to further strengthen domestic and international cooperation on cybercrime in Africa as well as on the commitment by regional and international organisations to support such efforts. The specific aim is to identify concrete initiatives to be undertaken in the near future. This workshop is co-organized with the African Union Commission (AUC) and with the support of Global Forum for Cyber Expertise (GFCE) and the ECOWAS Commission.
	Moderator/s:	Jean-Robert Hountomey (African Union Cyber Security Expert Group)
	Rapporteur:	Hein Dries (OCWAR-C Project)
	Secretariat:	Martha Stickings (GLACY+ Project, C-PROC, Council of Europe)
	► Introducti	ion and objective of the workshop
	– Jean-	Robert Hountomey (African Union Cyber Security Expert Group)
	<ul> <li>Setting the scene</li> </ul>	
	– Abdul	Hakeem Ajijola (Chair of the African Union Cyber Security Expert Group)
	<ul> <li>Domestic coordination and international cooperation on cybercrime in Africa: needs and challenges</li> </ul>	
	<ul> <li>Albert Antwi-Boasiako (Acting Director-General, Cyber Security Authority, Ghana)</li> <li>Speaker TBC</li> </ul>	
	► What initi	atives to enhance domestic and international cooperation?
	– Papa Seneg	Watkinson (Cybercrime Specialized Officer, INTERPOL) Assane Touré (Magistrate, Deputy General Secretary of the Government, gal) Jomni (Research professor, Business Law Centre, University of Montpellier)
	<ul> <li>Recomme beyond</li> </ul>	ndations on improving international cooperation in the region and
	-	discussions panel moderated by Moctar Yedaly, Global Forum on Cyber tise (GFCE)

Wed, 17 Nov	Workshop 4 – Crime and cryptocurrencies	
11h00 – 12h50		
	Languages:	EN/FR/ES
	Purpose:	Considering the difficulty to follow a money trail in the blockchain and the somewhat anonymity that surrounds transactions using cryptocurrencies, this virtual asset is preferred by cybercriminals when conducting their illicit activities and laundering the proceeds resulted from them. Ransomware, hacking and other types of cybercrime are without doubt highly inter- connected with cryptocurrency and the response of judicial authorities is sometimes hampered by the complexity of this mix of crimes. The lack of legislation on virtual assets and even more importantly, on seizing them also contributes to this void that cybercriminals exploit. The COVID-19 Pandemic only increased the use in virtual assets both for legitimate and illegitimate purposes. The aim of this workshop is to provide participants with information on how criminals abuse cryptocurrencies in hiding the illicit gains resulted from criminal endeavours and emphasise on the importance of defining legislation on domestic level in relation to handling and seizing this type of currency.
	Moderators:	Jan Kerkhofs (Federal magistrate, Cyber Unit of the Belgian Federal Prosecutor's Office) / Paul Darcy (Senior Investigator, Ireland's Department of Justice)
	Rapporteur:	Hania Elhelweh (Judge, President of the first instance court in the north of Lebanon)
	Secretariat:	Alexandru Cristea / Liliana Trofim (iPROCEEDS-2 Project, C-PROC, Council of Europe)
	► Introduct	ion and objective of the workshop
	– Jan K	erkhofs and Paul Darcy
	Crime and	cryptocurrencies: case studies and typologies
		-knock: who's there in the Blockchain? (Bart De Vlaminck, Detective ICT Crime, al Computer Crime Unit of Belgium)
		o co-ordinate mitigating virtual assets facilitated crimes (Jung Kee You, Criminal gence Officer, INTERPOL's Financial Crimes Unit)
	– The	59,370 BTC Seizure from Silk Road (Claudia Quiroz, Assistant Attorney, rtment of Justice, United States of America)
	Investigating the criminal use of cryptocurrencies: tools, regulations practices	
	Actior – Regul	lags related to the use of cryptocurrencies (Janet Ho, Policy Analyst, Financial n Task Force (FATF)) ating Virtual Asset Service Providers (VASP's), discussion (Irina Talianu, Head
	and t	it, Committee of Experts on the Evaluation of Anti-Money Laundering Measures he Financing of Terrorism (MONEYVAL), Council of Europe) ating cryptocurrencies, El Salvador's example (Ana Virginia Samayoa Baron,
	Direct	cor, Financial Intelligence Unit, El Salvador)
		ving the money, cryptocurrency tracing introduction (Brian Carter, Senior crimes Specialist, Chainalysis
	► Conclusio	ns

Wed, 17 Nov 11h00 - 12h50	Workshop 5 – The global state of cybercrime legislation: progress, challenges and lessons learnt	
	Languages:	EN/FR/ES
	Purpose:	Specific legislation is the basis for criminal justice action on cybercrime and electronic evidence. Many governments around the world have undertaken legal reforms, often using the Budapest Convention on Cybercrime as a guideline. However, cybercrime legislation also needs to meet human rights and rule of law requirements to prevent misuse. The aim of this workshop is to review progress made worldwide in terms of cybercrime legislation and to identify possible risks and challenges.
	Moderators:	Zahid Jamil (Barrister-at-law, Jamil & Jamil, Pakistan)
	Rapporteur:	Pedro Verdelho (Public Prosecutor, General Prosecutor's Office of Lisbon, Procuradoria General da Republica, Portugal)
	Secretariat:	Giorgi Jokhadze / Tatiana Bastrighin (CyberEast project, C-PROC, Council of Europe)
	► Introduct	ion and objective of the workshop
		3 to 2021: overview of progress made in the adoption of legislation on the and electronic evidence
		lts of a survey by the Cybercrime Programme Office of the Council of Europe gi Jokhadze, C-PROC) ission
	Examples	of recent reforms
	- Ja - Ja	aples of good practices and recent reforms: ames Lutui (Director of Public Prosecution, Tonga) acqueline Fick (Attorney, VizStrat Solutions, South Africa) avid Simmons (Chairman, Law Reform Commission, Barbados)
	► Challenge	es and risks
	guara Unit, – Discu	enges of implementing procedural law from the perspective of safeguards and antees (Alexandros Ioannis Kargopoulos, Programme Officer, Research & Data EU Fundamental Rights Agency) Ission: meeting human rights and rule of law requirements - do's and don'ts in discussion and examples)
	► Conclusio	ns
Wed, 17 Nov 14h00 – 15h50	Workshop	6 – Automated detection of child sexual abuse materials
	Languages:	EN/FR
	Purpose:	Online child sexual exploitation and abuse has been a major violation of children's rights for many years; it has been further increasing since the onset of the COVID-19 pandemic. Over the past decade multi-national service providers deployed technology for the automated detection of child sexual abuse materials (CSAM) that there uploaded or disseminated via their services. Tens of millions of CSAM have been identified and reported in this

way, and in many cases have helped rescue victims and identify and prosecute offenders worldwide. At the same time, the use of such techniques have raised rule of law and human rights concerns, for example, that they interfere with the privacy of communications or involve the transborder transfer of personal data or violate due process requirements. These concerns came to the forefront with the entry into force of the European Union's European Electronic Communication Code which brought these providers under the strict rules of the E-privacy Directive of the EU. In June 2021, the Council of Europe published an <u>independent experts' report</u> on this matter. The aim of the workshop is to continue the search for solutions that permit governments to meet their positive obligation to protect children against online sexual violence and enable service providers to use automated technologies to identify and report CSAM with the necessary privacy, data protection and rule of law safeguards.

- Moderator/s: Jean-Christophe Le Toquin (President Point de Contact (French hotline), and managing partner SOCOGI)
- Rapporteur: Katarzyna Staciwa (Independent Expert, National Research Institute/Dyzurnet.pl, Poland)
- Secretariat: Gioia Scappucci (Executive Secretary, Lanzarote Committee, Council of Europe) / Cristiana Mitea & Irina Drexler (Octopus Project, Council of Europe)

#### Introduction and objective of the workshop

Jean-Christophe Le Toquin

#### > Automated detection of child sexual abuse materials: How does it work?

- John Shehan (Vice President, Exploited Children Division, National Centre for Missing and Exploited Children (NCMEC), USA)
- Arda Gerkens (CEO, Expertisebureau Online Kindermisbruik (EOKM), Netherlands)
- Discussion with intervention from Uri Sadeh (Coordinator, Crimes against Children Unit, VCO/Organized and Emerging Crime Directorate, INTERPOL)

#### ▶ The problem: the right to privacy v. positive obligations to protect against crime

- Liora Lazarus (Professor of law, Peter A. Allard School of Law, University of British Columbia, Canada and Supernumerary Fellow, St. Anne's College, Oxford, United Kingdom)
- Ella Jakubowska (Policy Advisor, European Digital Rights EDRi)
- Discussion

#### Solutions

- Interim regulation and long-term solutions by the European Union (Cathrin Baur-Bulst, Head of Unit Security in the Digital Age, DG Home, EU Commission)
- Proposals having regard to the Lanzarote Convention (Maria José Castello-Branco, Vice-Chairperson Member of the Lanzarote Committee, Portugal)
- The Dutch Public-Private Partnership program & view of Internet industry (Michiel Steltman, Managing Director, Dutch Digital Infrastructure Association, Netherlands)
- Discussion with interventions from General Eric Freyssinet (Deputy Commander of the Gendarmerie nationale's Cyberspace Command, France) and Fred Langford (Director of Online Technology, OFCOM, UK)

	► Conclusio	ns	
Wed, 17 Nov 14h00 - 15h50	Workshop 7 – Ransomware		
141100 - 151150	Languages:	EN/FR/ES	
	Purpose:	During the COVID-19 pandemic and due to restrictions imposed, more and more businesses switched their activities to the online environment, with their employees working from their homes. While in most business environments, methods of protection are in place to counter cyber threats, personal computers might not have the same level of compliance with Internet security rules, thus leaving their users defenceless against ransomware attacks. Ransomware attacks have been in the last two years hitting hard, targeting both personal workstations but also on critical infrastructure, exposing hospitals and medical facilities to the concentrated attacks of cybercriminals. The response of both judicial authorities and the private sector needs to be adequate to meet the challenges posed by this growing form of criminal activity. The workshop aims to provide recommendations on how to protect oneself against this form of cybercrime and provide the required tools to mitigate this threat. Another purpose is to determine how co-operation on ransomware can be further supported on Council of Europe level.	
	Moderators:	Hein Dries (CEO Vigilo Consult and Key Expert on Cybercrime in the OCWAR-C project) / James Shank (Chief Architect of Community Services, Team CYMRU and member of the Ransomware Task Force (RTF))	
	Rapporteur:	Matteo Lucchetti (Director of CYBER 4.0, Italian Cybersecurity Competence Center)	
	Secretariat:	Alexandru Cristea / Liliana Trofim (iPROCEEDS-2 Project, C-PROC, Council of Europe)	
	Introduction and objective of the workshop		
	<ul> <li>Hein Dries and James Shank</li> </ul>		
	Ransomware: threats and modi operandi		
	<ul> <li>A private sector perspective on ransomware, its threats and evolution over time (Alexandru Catalin Cosoi, Chief Security Strategist, Bitdefender)</li> <li>Combating ransomware as a service, public-private partnership (Dominik Helble, former BKA cybercrime investigator and Head of Cyber Security of Festo, Germany)</li> </ul>		
	Ransomware: tools, regulations, good practices		
	Feder – <u>No M</u>	ating large ransomware attacks, the Colonial Pipeline case (Nikhil Bhagat, ral Prosecutor within the USA Department of Justice) ore Ransom, an EU perspective into preventing and countering ransomware nanuel Kessler, Head of Team Prevention and Outreach, EUROPOL)	
	► Conclusio	ns	

Wed, 17 Nov	Workshop 8 – Cybercrime, e-evidence and artificial intelligence	
16h00 – 17h50	Languages:	EN/FR/ES
	Purpose:	<ul> <li>Rapid progress in AI raises:</li> <li>additional risks of cybercrime (offenders weaponizing AI, AI detecting vulnerabilities to commit cybercrime or automate attacks. AI as target manipulated by offenders)</li> <li>questions of criminal liability (who is liable for decisions made and crime committed through AI technology?)</li> <li>complex challenges related to electronic evidence (how can e-evidence related to crime involving AI be secured and used in criminal proceedings?)</li> <li>On the other hand, AI may bring benefits to the criminal justice response to cybercrime (improving cybersecurity; detecting attacks; helping identify, investigate and prosecute offenders; or automating domestic and international cooperation). However, this in turn raises additional questions (how can rule of law and due process safeguards be ensured; what implications on territoriality and jurisdiction when AI-led investigations cross borders?).</li> <li>Organisations worldwide are currently working on questions related to artificial intelligence, including the <u>Council of Europe</u>.</li> <li>Within this context, the aim of the workshop is to identify key issues that should be taken into account when designing the future criminal justice response to cybercrime and e-evidence in relation to AI.</li> </ul>
	Moderator/s:	Jan Kleijssen (Director of Information Society and Action against Crime, Council of Europe)
	Rapporteur:	Tania Schröter (Deputy Head of Unit, Procedural Criminal Law, Directorate- General for Justice and Consumers, European Union Commission)
	Secretariat:	Martha Stickings / Gratiela Dumitrescu (GLACY+, C-PROC, Council of Europe)
	▶ Introduct	ion and objective of the workshop
	– Jan K	leijssen (Council of Europe)
	-	ne and artificial intelligence: what are the threats and challenges, what oportunities?
	<ul> <li>Malicious uses and abuses of artificial intelligence (Aglika Klayn, Cyberd Specialist/J-CAT Coordinator, EC3, EUROPOL / Maria Eira, Information Technology Officer, Centre for Artificial Intelligence and Robotics, United Na Interregional Crime and Justice Research Institute / David Sancho, TrendMicro)</li> <li>Provenance tech (Origin and C2PA) techniques and lessons learned disinformation countermeasures (Ashish Jaiman, Director of Product Managen Bing Multimedia, Microsoft)</li> <li>Discussion</li> </ul>	
	► AI, cyberd	crime and the law: fundamentals
	Profe – AI, e Crimi	/bercrime and criminal law: what is new and what is not new? (Dennis Baker, ssor, De Montfort University Law School, Leicester, UK) -evidence and criminal liability (Sabine Gless, CDPC rapporteur on AI and nal Law, Professor of criminal law and criminal procedure law, University of , Switzerland) ssion

	► Conclusions	
Wed, 17 Nov	Lightning talks I – Short interventions to present ideas or projects	
16h00 – 17h50	Languages: EN/FR/ES/PT/AR	
	Moderator/s: Elvio Salomon (GLACY+ Project, C-PROC, Council of Europe) / [TBC] Global Forum on Cyber Expertise (GFCE)	
Wed, 17 Nov	Workshop 9 – Regional workshop for Latin America and Caribbean:	
18h00 – 19h50	Cooperation with providers	
	Languages: EN/ES/PT	
	Purpose: Obtaining subscriber information to identify the user of an Internet Protocol (IP) address used in a criminal offence or the owner of an email or social media account used for criminal purposes is crucial for any criminal justice authority investigating crime online. The same is true for domain name registration information regarding the owner of an Internet domain used for fraudulent purposes. In emergency situation where lives are at risk, expedited access to the content of an account may also be required. Often such information is held by service providers in other jurisdictions. The aim of this workshop is to identify current good practices to obtain data needed in a criminal investigation from multi-national service providers by authorities in Latin America and the Caribbean and to explain new solutions that may soon become available under the new Protocol to the Budapest Convention.	
	Moderator/s: Anthony Teelucksingh (Chair of the OAS/REMJA Working Group on Cybercrime, US Department of Justice)	
	Rapporteur: CARICOM IMPACS [speaker TBD]	
	Secretariat: Catalina Stroe / Oana Tarus (GLACY+, C-PROC, Council of Europe)	
	Introduction and objective of the workshop	
	<ul> <li>Anthony Teelucksingh</li> </ul>	
	Cooperation with multinational service providers	
	<ul> <li>The Chilean perspective (Mauricio Fernandez Montalban, Director, Specialized Unit on Money Laundering and Organized Crime of the National prosecution Service, Chile)</li> <li>The Brazilian experience (Fernanda Teixeira Souza Domingos, Federal Prosecutor, Coordinator for the Advisory Group on Cybercrime at MPF's Criminal Chamber, Brazil)</li> </ul>	
	The 2nd Additional Protocol: towards enhanced cooperation with service providers across borders	
	<ul> <li>Erica O'Neil (Computer Crime and Intellectual Property Section, United States Department of Justice)</li> <li>Claudio Peguero (General Inspector of the National Police, Dominican Republic)</li> </ul>	
	How to improve cooperation between LEAs and service providers in criminal investigations in the region?	
	<ul> <li>Open discussions panel moderated by CARICOM IMPACS [moderator TBD]</li> </ul>	

	► Conclusions		
THU, 18 NOVER	MBER, AM: WORKSHOP SESSIONS		
Thu, 18 Nov 7h00 – 8h50	Workshop	10 – Regional workshop for Pacific	
	Language:	EN	
	Purpose:	Online sexual exploitation and abuse of children (OCSEA) has been a major violation of the rights of children for many years. The COVID-19 pandemic, and increasing screen time by each and every one, has exacerbated the prevalence and risks of OCSEA, including in the Pacific region. While comprehensive approaches are needed to prevent OCSEA, and identify, protect and assist victims, effective criminal justice is an important part of the response to protect children against OCSEA and bring offenders to justice. The aim of this workshop is to share information on the threat of OCSEA as well as good practices in terms of policies, legislation, institutional capacities and domestic and international cooperation on OCSEA.	
	Moderator/s:	ТВС	
	Rapporteur:	Ana Guerreiro (Programme Advisor, Children's Rights Division/Lanzarote Committee, Council of Europe)	
	Secretariat:	Catalina Stroe (GLACY+, C-PROC, Council of Europe)	
	► Introduct	on and objective of the workshop

	► Conclusio	ns	

Thu, 18 Nov 9h00 – 10h50	Workshop 11 – Capacity building: sustainable judicial training on cybercrime and e-evidence	
	Languages:	EN/FR/ES/PT/AR
	Purpose:	Given that not only cybercrime but any type of crime may involve evidence on a computer system (electronic evidence) any judge or prosecutor need to have the necessary skills to prosecute or adjudicate cases involving such evidence. In 2009, the Council of Europe developed a <u>concept for cybercrime training</u> for judges and prosecutors. Implementation of this concept has since been supported in numerous countries, typically in cooperation with domestic judicial training institutions. More recently, networking of judges and prosecutors trained under different programmes was promoted. In order to ensure that over time, any judge or prosecutor has access to and can participate in relevant training, sustainability of such programmes and strategic approaches to training are essential. A further challenge is that due to the COVID pandemic, much training is now only available online. For this reason, C-PROC is currently developing a platform for online training that will be put at the disposal to project countries. The aim of this workshop is to review how the sustainability of judicial training on cybercrime and e-evidence can be ensured through strategic approaches to training, networking of trainers and tools such as the online platform for judicial training.
	Moderator/s:	Marcos Salt (Criminal Law Professor, Director of the Postgraduate Studies on Cybercrime and Electronic Evidence, University of Buenos Aires, Argentina)
	Rapporteur:	Angela Marques Rodrigues (Judge, Superior Council of Magistracy, Cabo Verde)

Thu, 18 Nov 9h00-10h50	Workshop 12 – Cybercrime: Victims		
	Languages:	EN/FR/ES	
	Purpose:	Cybercrime is an increasingly technologically advanced and fast-growing type of crime. It is extremely costly, allegedly impacts very large number of victims, and is psychologically impactful, which makes the effects of victimization in cyberspace hard to quantify. There is limited understanding of who the victims (individuals and organisations) are and how cybercrime affects different categories of victims. Compared to traditional crime, cyber victimization entails elements of <i>accessibility</i> (perpetrators can reach significant number of victims), <i>anonymity</i> , and thus <i>limited detectability</i> (sometimes victims are not even aware they have been victimized), and is also <i>hard to constrain</i> , due to the astonishing speed with which data is shared and how volatile possible evidence is. This workshop will explore who are the cybercrime victims (individuals and organisations) and look into the criminal justice response but also alternative remedies (such as restorative justice) available to them.	
	Moderator:	Jeffrey DeMarco (Assistant Director Knowledge and Insight, Victim Support, UK)	
	Rapporteur:	Miriam Bahamonde Blanco (Senior Prosecutor, Ministry of Justice of Spain)	
	Secretariat:	Cecilia Popa (CyberEast, C-PROC, Council of Europe)

Thu, 18 Nov	Workshop 13 – Capacity building: Guides and tools	
11h00 – 12h50	Languages:	EN/FR/ES
	Purpose:	Capacity building on cybercrime and electronic evidence is a complex and time and resource-intensive process, involving large numbers of organisations and practitioners. Given the growth of cybercrime and the fact that any crime may involve electronic evidence, any investigator, prosecutor or judge will be confronted to with such cases and needs to be equipped with the necessary skills to handle them. A number of guides and other tools have been developed by the Council of Europe and other organisations in recent years, to help criminal justice practitioners acquire such skills. These guides and tools may complement training programmes or serve self-learning. The aim of this workshop is to increase knowledge of participants of such guides and tools and promote their adaptation to meet domestic needs.
	Moderator/s:	Michele Socco (Policy Officer, European Commission, Directorate General for Migration and Home Affairs, Unit 'Security in the Digital Age')
	Rapporteur:	Nayia Barmpaliou (Director, Cyber Lab International, European Union Institute for Security Studies (EUISS))
	Secretariat:	Virgil Spiridon (Head of Operations, C-PROC, Council of Europe)

Thu, 18 Nov	Workshop 14 – Cybercrime: Offenders	
11h00 – 12h50	Languages: EN/FR/ES	
	Purpose: Cybercrime perpetrators are as diverse and complex as the cybercrime that they commit. For example, they come from different backgrounds and have different (egotistical, technical, monetary, ideological, political, professional, vengeful, sexual or other) motivations. They may or may not be professional criminals, and individuals or part of organised groups or networks (example of <u>Advanced Persistent Threats</u> ). Some may commit crime on their own account or make their services available to others, and some may be supported by or be state actors. A better understanding of the types of perpetrators and their motivations and techniques can be instrumental for the prevention of cybercrime and for a more effective criminal justice response. The aim of this workshop is to contribute to such a better understanding and to initiate steps towards a typology of offenders.	
	Moderator/s: Dong Uk Kim (Specialized Officer, INTERPOL Cybercrime, GLACY+ Project)	
	Rapporteur: Silvia Portesi (Cybersecurity Expert, European Union Agency for Cybersecurity, ENISA)	
	Secretariat: Ana Vlad / Giorgi Jokhadze (CyberEast Project, C-PROC, Council of Europe)	
	Introduction and objective of the workshop

	► Conclusions	
Thu, 18 Nov	Outlook 2:	Human rights and rule of law in cyberspace
15h30-16h15	Languages:	EN/FR/ES
	Purpose:	As cybercrime is a threat to human rights, governments not only have the "negative" obligation to refrain from interfering with these rights (unless certain conditions are met) but it is increasingly considered that governments have a "positive" obligation to protect individuals against interference with their rights by others. This includes, for example, the obligation to put effective means in place to protect individuals against cybercrime through criminal law. However, such means are also subject to conditions. This session

		will discuss what is takes to provide for criminal justice response that is effective and that meets human rights and rule of law requirements at the	
		same time.	
	Moderator:	Isabelle Servoz-Gallucci (Secretary of the Committee of Convention 108 (T-PD), Head of the Data Protection Unit, Council of Europe)	
	Secretariat:	Martha Stickings (GLACY+, C-PROC, Council of Europe)
