29. Statistics on doping trafficking

Do law enforcement agencies share data on the seizure of doping substances with the NADO?

Yes, please specify how many seizures have been reported in 2021 Seizure data not available, but all seizures of doping substances at the border are reported. We receive regular monthly reporting from the Department of Home Affairs relating to all records regarding seizures of doping substances at the border. These records represent thousands of packages seized per month. We utilise this reporting to undertake checks to identify any athletes/support people potentially subject to the jurisdiction of the WADA Code. We also use the data to do trend analysis (country of origin, substance, consigner, consignee etc) and provide those insights back to Department of Home Affairs for target development. We also receive ad-hoc reporting through State based Policing agencies regarding the seizure of doping substances as part of regular law enforcement processes. We are looking to further expand on these relationships through the National Strategy for Information Sharing to attempt to identify opportunities to increase the consistency of this reporting and to utilise our analysis of the seizure data above to identify potential targets involved in the trafficking of doping substance to be addressed in collaboration with law enforcement.

23. Appeals system

Please describe the process for handling anti-roping rule violations appeals

Describe, upload documents or add the link to the relevant content In 2021 the process for handling anti-doping rule violations appeals was regulated via Law no. 227/2006 on the prevention and fight against doping in sport and the ensuing Regulations for the organization and functioning of the Appeal Panel (the latter being further amended and completed in 2020). The Appeal Panel functioned beside the National Anti-Doping Agency in full operational independence and with a pool of 7 voting members appointed from organizations other than RNADA (academia, the Romanian Government and the Romanian Olympic and Sports Committee). The mandate of the Appeal Panel ceased in outcome of the entry into force of Law no. 310/2021 in conformity with 2021 WADC (on 30.12.2021). As of 2022, the Appeal Commission is provided under the law to function in full institutional independence from RNADA (under the aegis of the General Secretariat of the Government) and the pool of members will be selected as per the WADA International Standard for Results Management of which the provisions were implemented via Law no. 310/2021 and the new Regulations for the organization and functioning of the Appeal Commission.

23. Appeals system

Please describe the process for handling anti-doping rule violations appeals

Describe, upload documents or add the link to the relevant content In cases not involving International-Level Athletes or International Events an appeal to the decision must be submitted to the national arbitration body (National Center for Arbitration of Sport).

A particular Disciplinary Anti-Doping Committee decision may be appealed to the National Appeal Body acting within the National Sports Arbitration Center (the “Center”). The Center is a permanent arbitration institution administering the resolution of disputes arising from professional and elite sport (among others, admission to sporting competitions, doping, imposing sporting sanctions, individual labor disputes, etc.).

The Center is a structural unit of the Autonomous Non-Commercial Organization “Sports Arbitration Chamber” (the “Chamber”). The Chamber in turn fulfills the functions of a permanent arbitration institution pursuant to Decree No. 520- dated April 25, 2019 of the Russian Ministry of Justice on providing the right to exercise the functions of a permanent arbitration institution to the Chamber (the “Decree”, “Ministry”). The Decree was adopted by the Ministry in strict accordance with the provisions of Federal Law No. 382-FZ dated December 29, 2015 “On arbitration (arbitration proceedings)” (the “Law”). The Chamber’s sole founder is the ROC.

In pursuing their activities both the Center and Chamber fully comply with the Law’s provisions paying special attention to impartiality and independence of hearing panels (i.e. arbitrators) dealing with particular sports disputes. Thus, both the Center and Chamber satisfy the requirements found in the definitions of “Operational and Institutional Independence” (Appendix 1 to the 2021 WADC).

The Center’s arbitrators (forming particular hearing panels) include not only sports lawyers, but also (former) athletes, coaches and sports judges/referees. It allows the Center to benefit from a diverse range of knowledge and experience and in general makes the arbitration proceedings professional, efficient and impartial. No one from those arbitrators is connected with RUSADA and therefore does not represent RUSADA’s views. Every arbitrator fulfills his/her role on his/her behalf independently and impartially. No one from RUSADA employees or RUSADA bodies members is connected (directly or indirectly) with the Center and Chamber. No one from the Center’s arbitrators is retained by RUSADA for the purposes of investigating any antidoping rules violations.

21. Testing abroad

Did you test athletes under your authority who reside or train abroad (directly or by using Delegated Third Parties)?

Yes

Not in 2021, but we have authorisation to do so

No, we do not have authorisation to do so / Comment Several modifications were introduced in our National Law that permits us to test athletes who reside or train abroad since 2022. In previous years, as we did not have the direct capacity to test athletes residing or training outside of Spain, in some cases we performed tests through foreign ADOs as a compensation for services provided to that ADOs by us. Now that the legislation allows us to test athletes abroad, we have found a way and in the next year we will start working with service providers that are able to do it.

38. International agreements

Has your country signed any agreements with other Anti-Doping Organisations (ADOs) or agreements on anti-doping with any other organisation or State concerning the following:

	Yes or No; if applicable please explain or upload the document (below)
(a) Sharing of information	<p>Yes – World Anti-Doping Code Code signatorie, RILD's Constitution and Regulation signatorie, Signatorie of the Anti-doping Convention of the Council of Europe Council of Europe (CAHAMA, T-DO), signatorie of the UNESCO International Convention against Doping in Sport, agreement with ITA. The CELAD has mechanisms for collaboration, coordination, and cooperation at the international level. The agents with whom we have collaborated and exchanged information in recent years are the following: World Anti-Doping Agency (WADA) Anti-Doping Organisations of other countries (NADOs): e.g. USADA, UKAD. RILD Network of Medicines Authorities in Ibero-America (EAMI Network) International Federations: e.g. IAAF EUROPOL INTERPOL Law Enforcement Agencies of other countries: e.g. French Gendarmerie Medicines Regulatory Agencies of other countries: e.g. MHRA (UK)</p>
(b) Law enforcement co-operation	<p>Yes - AEPSAD had an agreement with the National Police and the Civil Guard, and an agent from each of them works in our Intelligence Division in our offices. In this way we have the possibility of using the agreements that the police forces have with INTERPOL, EUROPOL, etc.</p>
(c) General co-operation	<p>Yes – World Anti-Doping Code Code signatorie, RILD's Constitution and Regulation signatorie, Signatorie of the Anti-doping Convention of the Council of Europe Council of Europe (CAHAMA, T-DO), signatorie of the UNESCO International Convention against Doping in Sport, agreement with ITA.</p>
(d) Other	<p>Yes - Collaboration with International Sport Federations (IFs) and NADOs is usually carried out by the Doping Control Department and its Investigations and Intelligence Division. This collaboration is reflected in different areas of active interaction: Providing service in the sample collection request as a service provider. CELAD collaborates with IFs and NADOs in the sample collection of Spanish or foreign athletes who reside or train occasionally in our country. In this way, costs are reduced for these organisations, and these organisations also provide the same service to CELAD. The exchange of information through the ADAMS system relating to: test planning, locations, TUEs, and analytical results. This exchange of information and the signing of the relevant collaboration agreements has strengthened the Athlete Biological Passport (ABP) programme by accessing more than 800 passports. The exchange of intelligence information that facilitates targeted testing by coordinating CELAD's actions with IFs and NADOs, as well as providing information to support investigations of international non-analytical anti-doping violations.</p>
