

Linking Citizenship and Employability Perspectives in Adult Learning (LICEAL)

Across Europe

https://www.politik-lernen.at/liceal_en

DESCRIPTION

The **LICEAL - Linking Citizenship and Employability Perspectives in Adult Learning** is a 3-year project (2022-2025) that aims to **support adult learners, particularly those facing difficulties in the labour market and social marginalisation, to develop social, civic and relational skills** which may contribute to their **social inclusion and active participation** in democratic life as well as their **employability**.

The project explores the links between the RFCDC and other competence models such as EntreComp (Entrepreneurship Competence Framework Implementation) and how they complement each other. The project aligns its activities with the European Commission's Joint Research Centre (JRC) on Life Skills, based on the belief that transversal competences – **such as cooperation, teamwork, negotiation, initiative and creativity, self-regulation and respect for social norms** – are fundamental. The goals of the project are :

- Developing the capacity of learners, supported by educators, **to self-assess and undertake learning and personal development projects;**
- **Encouraging civic engagement and participation;**
- Exploring **synergies between Education for Democratic Citizenship/Human Rights Education and vocational learning.**

Within Erasmus+ Project, this project takes place in different countries, under the coordination of Association EDIAS (France), while the partners organisations are:

- Istituto Internazionale Di Diritto Umanitario – Italy
- Fondation des Regions Europeennes pour la Recherche en Education et Enformation – Belgium
- Comitato Promotore S-NODI Gabriele Nigro – Italy
- Democracy and Human Rights Education in Europe – Belgium
- Learning Designers – Spain
- Wiener Forum für Demokratie und Menschenrechte – Austria
- Bogazici Universitesi – Türkiye
- Pôle emploi – France

And they work on the following outputs:

- DARE Blue Lines publication: **review of practices in adult education to link learning outcomes in civic education and employability;**
- **Toolkit to support integrated learning** (civic education and employability);
- **Guide for educators & guidance box** for the integrated design of learning pathways for civic education and employability in adult education ;
- **Policy recommendations.**
