Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Question 1

Describe what your agency currently uses  
cybercrime statistics for?

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Prosecutors

- Budgeting considerations
- Allocation of resources
- Policy Direction
- Identify rate of Convictions
- Reasons for unsuccessful convictions
- Effectiveness of deterrence
- Monitoring current trends in cybercrime
- To guide government policy

**GLACY+**

**Global Action on Cybercrime Extended**  
**Action globale sur la cybercriminalité Élargie**

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

# Judicial

- To ascertain the extent of occurrence of crime
- Effectiveness of dealing with cybercrime
- Case flow management
- Case distribution to Judges with Cyber expertise
- Judicial training curriculum development
- Setting up courts to deal with the problem of cybercrime
- Feedback to stakeholders

**GLACY+**

**Global Action on Cybercrime Extended**  
**Action globale sur la cybercriminalité Élargie**

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Other Departments

- To focus on priority issues
- Produce a guide in tailor-made security awareness for employees
- Inform legal powers to aid prevention
- To assess needs for training and other intervention amongst Criminal Justice authorities
- To formulate National Policy to prevent further cybercrimes

**GLACY+**

**Global Action on Cybercrime Extended**  
**Action globale sur la cybercriminalité Élargie**

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

# Law Enforcement

- To inform the Authorities about cybercrime trends
- To enable the unit to develop strategies
- To inform Policy and decision making
- Produce strategy on how to prevent cybercrime
- Assess current threats and prepare for future events

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Law Enforcement

- Identify weakness in infrastructure
- To effectively secure more resource
- Analysing the percentage of the public who have been affected by cybercrime
- Is there a particular category of victim who is more susceptible?

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Question 2 -

**Describe the key benefits of reliable statistics  
on cybercrime – for you.**

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Prosecutors

- Sufficient allocation of staff based on actual requirements
- To identify areas requiring training and capacity building requirements
- Use stats not only for detection but for prevention
- Improve prosecution services to victims

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Judicial

- Planning
- Resourcing
- Efficient delivery of justice
- Capacity concerns for the courts
- Planning of training for judges
- Recruitment of judges with cybercrime knowledge
- Inform legislative changes

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Other

- Intelligence gathering
- public awareness
- produce more efficient/relevant policies
- to assess the level of capacities of criminal justice authorities
- Profiling of cyber criminals
- Legislative improvements
- Occurrences of insufficient evidence

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Law Enforcement

- Aid management decision making
- Educate the public
- Gauge effectiveness of law enforcement
- Reliable stats on status of investigations and outcomes
- Knowledge of where to concentrate resources

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Question 3

**Describe how your agency could generate a wider range of cybercrime statistics?**

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Prosecutors

- Statistics could be generated more efficiently through a **centralised system** by the Prosecution service.
- More information is needed on the cases that do not end with a successful prosecution
- By ensuring that all regional offices have a **common reporting** template

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Judicial

- **Uniform statistics** must be recorded by all units that deal with cybercrime reporting (Police, Customs, Gendarmerie, Judges and courts)
- Having an **effective case management system** with additional features to cover cybercrime, cyber enabled crime cases involving electronic evidence.
- All agencies record the **same type of data** to enable **uniform** information

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Other

- Appoint a **single point of contact**
- Connect **all agencies** in the system
- Introduce an **effective reporting** strategy to capture the relevant statistics and ensure the right information is supplied to the right agency
- A **SOP** that ensures **all agencies share** their statistics
- A **central system** of data collection
- A clear definition of **what constitutes cybercrime**
- Wider consultation and **collaboration** with other agencies

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Law Enforcement

- Fully functional **case management system**
- A **central recording** body to disseminate stats to **all agencies** involved in prevention, detection, prosecution and education and others.
- **A central collection** and processing system
- **Multi stakeholder** approach public/private
- Harmonizing categories of data to be used for statistics
- **Case management system** for **all stakeholders**
- Pay for dedicated **public surveys/polls**

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Recurring theme...

- centralised system
- common reporting
- Uniform statistics
- case management system
- single point of contact
- collaboration
- multi agency
- Cyber enabled/Cybercrime clarity

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Purpose of Statistical Methodology

to systematize the collection of criminal justice  
statistics

in order to increase the numbers of crimes that  
are reported, investigated, prosecuted and  
adjudicated,

so as to address potential issues that could limit  
an effective and efficient response to all sorts of  
cybercrime and cyber-related crimes.

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Statistical Methodologies

- Important to be aware of general statistical principles in the production and dissemination of crime and criminal justice data
  - Transparency, Accuracy, Consistency
  - A central national collection point can support quality control and inter-agency coordination
  - for evidence-based policy making
- Supplemental crime victimization surveys are useful

# Additional Reasons

- Enhance the comparability of statistics
  - at national level
  - at international level
- Support countries in their efforts to produce national statistics on crime and criminal justice.

# GLACY+

Implemented  
by the Council of Europe

## Recommendations

The implementation (or adaptation) of a  
**National Cyber Strategy** to:

- Support the creation of a single entity with responsibility for sourcing/collation of Cybercrime statistics. (National Cyber Statistics Office?, CERT?)
- If single entity is not feasible - to direct multiple entities to source/share 'harmonised' statistics.

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

- To provide the ability to, and the process by which, harmonised statistics are disseminated to all relevant stakeholders. (Data Protection constraints).
- Develop and support public/private partnerships

# GLACY+

by the Council of Europe

Taxonomy - Classification

## STATISTICAL CATEGORIES

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Recommendations.....

- Developing Categories - Criminal/Technical?
- Specific Challenges of Cyber-statistics
- Need to cover cyber-enabled crime
- Need to cover e-evidence activities
- Training for first responders
- Need to account for low conviction rates
- Based on Budapest convention and National Criminal Code
- Consider International best practice

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Cybercrime Category List

- Identify Categories
- Crime Codes
- Source Agency (FIU, LEA, CERT, PPP, Banks)
- Include cyber-enabled crime
- E-evidence
- Identify Victims
- Identify Perpetrators

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Cybercrime Category List

- Mutually Exclusivity is not possible for cybercrime –
  - committed using more than one vector of attack, more than one channel, more than one method
  - is ascribable to more than one “category” of crime
- Complete/Exhaustive
- Easily Understandable
- Repeatable
- Unambiguous

# GLACY+

Discussion & Feedback

## POSSIBLE TABLES

# Budapest Cybercrime Convention

Budapest Convention	National Criminal Code	Reported	Investigated	Prosecuted	Adjudicated
<b>Offences against the confidentiality, integrity and availability of computer data and systems</b>					
Illegal access					
Illegal interception					
Data interference					
System interference					
Misuse of devices					
<b>Computer-related offences</b>					
Computer-related forgery					
Computer-related fraud					

# Budapest Cybercrime Convention

Budapest Convention	National Criminal Code	Reported	Investigated	Prosecuted	Adjudicated
<b>Offences related to child pornography</b>					
Offences related to child pornography					
<b>Offences related to infringements of copyright and related rights</b>					
Offences related to infringements of copyright and related rights					
<b>Ancillary liability and sanctions</b>					
Attempt and aiding or abetting					
Corporate liability					

# Budapest Cybercrime Convention

Budapest Convention	National Criminal Code	Investigated	Prosecuted
Expedited preservation of stored computer data			
Expedited preservation and partial disclosure of traffic data			
Production order			
Search and seizure of stored computer data			
Real-time collection of traffic data			
Interception of content data			

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Cyber Enabled Crime

Crime	National Criminal Code	Reported	Investigated	Prosecuted	Adjudicated

## ANALYSIS

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Analysis

- Each cybercrime is committed using more than one vector of attack, more than one channel, more than one method  
=> is assigned to more than one “category” of crime.
- An efficient collection of statistics should take this into account and, in the analysis phase, eliminate possible duplications and redundancies.

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Recommendations

- Establish method of distinguishing between Cybercrime and Cyber enabled crime'
- Ensure the analysis of any data is conducted by an entity with the necessary skills to create reliable statistics
- Prevention of duplication of efforts
- Develop methods of cross reference for verification and to filter errors

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented  
by the Council of Europe

## Recommendations

- Stage1 analysis – identify period, types of crime, total number of crime, average number of crimes, crime distribution (region, gender, type of offender, type of victim)
- Stage2 analysis – identify changes since previous analysis including trends, investigate possible bottlenecks

# GLACY+

Global Action on Cybercrime Extended  
Action globale sur la cybercriminalité Élargie

Funded  
by the European Union  
and the Council of Europe

Implemented

by the Council of Europe

## PHAROS Experience

- Scams & extortion 47.58%
- Offenses against minors 11.29%
- Discrimination 10.58%
- Lack of legal qualification 7.28%
- Terrorism 6.93%
- Revelation of facts committed outside the Internet 5.76%
- Threats 2.39%
- Illicit Trafficking 2.14%
- Miscellaneous offenses 1.72%
- Unlawful commercial and professional activities 1.58%
- Infringements of automated data processing systems and electronic devices
- Acts of cruelty to animals
- Violations of privacy
- Offenses against the State and the nation
- Violations against persons
- Extremist movements
- Urban Violence
- Trafficking in human beings
- Provocation of suicide
- Economic and financial offenses
- Immigration networks
- Biomedical Ethics
