

HORIZONTAL FACILITY FOR WESTERN BALKANS AND TURKEY

Preventing and Combating Trafficking in Human Beings in Serbia

As part of the European Union and Council of Europe programmatic framework “Horizontal Facility for the Western Balkans and Turkey” (Horizontal Facility), the Council of Europe will implement the action “Preventing and Combating Trafficking in Human Beings in Serbia”, in close partnership with the Ministry of Interior, the National Co-ordinator on Trafficking in Human Beings, the Ministry of Labour, Employment and Social Affairs/Labour Inspectorate, the Ministry of Foreign Affairs, the Ministry of Justice as well as civil society organisations.

The action will support the national authorities in preventing and combating trafficking in human beings in Serbia, by addressing the legislation, policy and practice in particular fields. Expert advice will be provided with respect to analysing trends in labour exploitation in the country. Based on the findings of this research, steps to enhance the capacity of labour inspectors, law enforcement officials, trade unions and other stakeholders to detect, identify and assist victims of trafficking in human beings for the purpose of labour exploitation will be taken. In addition, efforts will be made to improve the legal framework and practice related to ensuring access to compensation for victims of human trafficking. Finally, the action will seek to facilitate safe return and reintegration of victims of trafficking by improving transnational co-operation and exchange of information.

The action, which started on 1 October 2016 and will finish on 30 June 2018, has an overall budget of 350,000 Euros.

The objectives of the action

The **aim** of the action is to contribute to reducing trafficking in human beings in Serbia, in line with the European standards.

The action intends to accomplish the following **objectives**:

- ✓ Improve detection and identification of, and assistance to, victims of trafficking in human beings for the purpose of labour exploitation by enhancing the adoption of a multi-disciplinary approach;
- ✓ Improve the framework for effective access to compensation for victims of trafficking;
- ✓ Facilitate safe return and reintegration of victims of trafficking.

Accordingly, the objectives of the action will be achieved through the realisation of the following **expected results**:

- ✓ Increased knowledge about trafficking in human beings for the purpose of labour exploitation among the relevant national authorities;
- ✓ Enhanced capacity of labour inspectors, law enforcement officials, trade unions and other stakeholders to detect, identify and assist victims of trafficking in human beings for the purpose of labour exploitation;

- ✓ Enhanced knowledge of the competent authorities on existing good practices to establish a State compensation fund;
- ✓ Improved capacity of law enforcement officials, prosecutors and judges to facilitate access to compensation for victims of trafficking in human beings;
- ✓ Strengthened capacity for efficient transnational co-operation and exchange of information between responsible authorities and civil society organisations regarding identification and referral of victims of trafficking.

Background information

On 11 April 2016, the Secretary General of the Council of Europe, Thorbjørn Jagland, and the European Union's Commissioner for European Neighbourhood Policy and Enlargement Negotiations, Johannes Hahn, announced a new co-operation initiative of the two organisations aimed at supporting South-East Europe and Turkey in their efforts to comply with European standards. The initiative is called the European Union/Council of Europe Horizontal Facility for Western Balkans and Turkey (Horizontal Facility). It is a three-year programme (May 2016 – May 2019), focusing on three themes: ensuring justice, fighting economic crime as well as combating discrimination and protecting the rights of vulnerable groups. It has a budget of €25 million, of which €20 million has been provided by the European Union and €5 million by the Council of Europe. Through the Horizontal Facility, the European Union and the Council of Europe will assist beneficiaries in South-East Europe and Turkey to comply with Council of Europe standards and the European Union *acquis*, through a complementary two-fold approach of technical co-operation and the provision of expertise. The Horizontal Facility relies on the Council of Europe's unique working methods, whereby tailor-made technical co-operation activities are based on conclusions and recommendations of the Council of Europe's monitoring bodies, which highlight areas where improvements are needed in legislation and policies of the beneficiaries to comply with the Organisation's standards.

The Council of Europe is the continent's leading human rights organization. It comprises 47 member states, 28 of which are members of the European Union. All Council of Europe member states have signed up to the European Convention on Human Rights, a treaty designed to protect human rights, democracy and the rule of law. The European Court of Human Rights oversees the implementation of the Convention in the member states.

The European Union is a unique economic and political partnership between 28 democratic European countries. Its aims are peace, prosperity and freedom for its 500 million citizens – in a fairer, safer world. To make things happen, EU countries set up bodies to run the EU and adopt its legislation. The main ones are the European Parliament (representing the people of Europe), the Council of the European Union (representing national governments) and the European Commission (representing the common EU interest).
