

On 11 February 2021, the European Parliament recognised

## Decentralisation as one of the most successful reforms in Ukraine

« The European Parliament welcomes the achievements of the reform on decentralisation and the empowerment of municipalities, which has proven to be one of the most successful reforms so far...; assesses positively the steps taken so far with a view to decentralising public authority and public finances through a package of legal acts and their practical implementation; calls on the Commission to study the details of the decentralisation reform closely and to potentially use it as a successful case study for other countries »
