Controlling corruption through Law Enforcement and Prevention (CLEP – Moldova)

2018/AO/68 - Call for tenders – 11 December 2018 – Provision of concurrent user licenses for IBM products and licenses rent for training purposes

Questions and Answers

Question:

We need to fill PA enrolment.

Because CLEP organizes and subsidizes the auction, but the licensees / licensees are two other government entities, the CNA and the General Prosecutor's Office, we need the Passport Benefit form filled in by the beneficiary to register with IBM. Attached copies in RO and EN (optional any of them). The CNA and the General Prosecutor's Office are distinguished by end-users, so each must complete PA. Take great care that the person who signs the form has the right to sign and in the mail they send back with PA completed in the attachment to write that the signer has this right. Check the "government" option. The technical person is designated with the specified address, because it is the one who after the entitlement will receive the correspondence from IBM with details of PA, download licenses, keys ... etc.

Answer:

The bidders may provide both fees, with and without discounts. However, the National Anti-Corruption Centre and the General Prosecutor's Office of the Republic of Moldova are both government institutions. As such, they shall benefit from any available discounts for such category of beneficiaries, for the purchase of the licenses and their future renewal.
