

AIRPORTS GROUP

The main objective of this group, which comprises police, customs, border forces, and other law enforcement officers worldwide, is to develop and harmonize tools and systems to improve drug detection in European airports. Meeting once a year, the group primarily acts as a forum for the exchange of practical and operational practices on drug trafficking through commercial aviation. It has also increasingly developed specific projects, thereby deepening the level of co-operation among drug control services.

36TH ANNUAL MEETING VIA VIDEOCONFERENCE

Kudo

COUNCIL OF EUROPE - POMPIDOU GROUP

15 JUNE 2021

WHO SHOULD ATTEND?

Police, customs, border forces, prosecutors, judges, and other law enforcement officers who are already involved in this line of work or may be in the near future, are invited to attend. Representatives from international organisations, regulatory authorities, commercial aviation, and experts are also invited to attend.

MAIN AIMS

The overall aim of this annual meeting is to reduce illegal trafficking by sharing information on improving control, risk management, profiling, detection, and investigative measures. This can be accomplished by increasing the knowledge on drug trafficking through major airports by assessing risks, raising awareness, exchanging information, sharing best practices, and networking through multidisciplinary cooperation.

AGENDA

This years' agenda will focus on the following themes:

- Drug control
- Money-laundering
- Asset seizure & property rights
- Financial investigations – Co-operation between drug law enforcement and FIUs

REGISTRATION
