Changes to the Co-production Support Regulations for 2025

Three changes have been made to the [Co-production Support Regulations](#) in force for 2025. These are as follows:

1. Application platform closes at 12 midday (French time) on the deadline day

Article 1.2 Deadlines has been amended to change from 18:00 to 12:00 noon (French time) the moment where the application platform closes on the day of the application deadline. This change will ensure a better management of the process on the application day by the Eurimages Secretariat and is applicable from the 8 January 2025 deadline.

2. Deliverables for all supported projects: downloadable link replaces DVDs

Article 5.2.2 on the documents required for the **second payment** of Eurimages support has been modified **to remove** the requirement to deliver, in addition to a streaming link, 3 DVDs. Instead, the producers will have to provide a second link which is downloadable, and which will exclusively be used by Eurimages to save a copy for archiving purposes. This rule will also be applied retroactively to older supported projects.

3. Clarification of deliverables for advance on receipts

Another modification to Article 5.2.2 concerns the documents required for the **second payment** of Eurimages support for projects that have been supported with an **advance on receipts**. It clarifies that it is not enough to just send revenue statements but that it is also necessary **to pay the amounts due to Eurimages** before the second instalment can be released. This addition reflects long-standing practice by Eurimages.

Other changes for 2025

4. [Guidelines for the Producer's Note](#) have been updated to include a new section

The new section invites producers to provide additional information on the amount and, if appropriate, the type of support that is being requested from Eurimages and the additional value added that that this support could bring to the co-production.
