Database on audiovisual services and their jurisdiction in Europe

QUICK SEARCH

MAVISE is a free access database on audiovisual services in 42 European countries and Morocco. MAVISE is updated on a monthly basis and it allows interactive search by regulatory authorities and/or ministries and the exporting of results. Moreover, MAVISE serves as a centralised database providing information on the country of jurisdiction and video-sharing platforms available in the European Economic Area, pursuant to the Audiovisual Media Services Directive 2018/1808.

The MAVISE database, managed by the European Audiovisual Observatory, is supported by the CREATIVE EUROPE programme of the European Union.
