

GLACY+

**Global action on Cybercrime Extended
Action Globale sur la Cybercriminalité Elargie**

Version 14 January 2022

International Network of the National Judicial Trainers

**Series of Practitioners-to-Practitioners Workshops
November 2021 - June 2022**

Second workshop, 18 January 2022, online

**Supported by the CyberEast, CyberSouth, GLACY+ and
iPROCEEDS-2 projects**

Outline

Background and justification

Given the reliance of societies worldwide on information and communication technologies, major efforts are required to provide judges and prosecutors with the necessary skills, through training and networking.

According to a report of the Council of Europe “while in many countries, law enforcement authorities have been able to strengthen their capacities to investigate cybercrime and secure electronic evidence, this seems to have been less the case for judges and prosecutors”. Experience suggests that in most cases, judges and prosecutors encounter difficulties in coping with the new realities of the cyber world. Particular efforts are therefore required to enable judges and prosecutors to prosecute and adjudicate cybercrime and make use of electronic evidence through training, networking and specialisation¹.

While substantial actions and steps were taken at regional and country level to ensure access to proper specialized training of the judiciary and prosecutorial services, including with the

support of the capacity building projects, there is still a significant room for improvement in this area.

The Council of Europe has been supporting judicial authorities to tackle this need through global capacity building initiatives, by delivering judicial training courses on cybercrime and electronic evidence in a vast number of countries, by training pools of judges, magistrates and prosecutors to become trainers themselves on these matters, and by working with training institutions to integrate relevant modules into regular curricula.

During the plenary meeting of the International Network of the National Judicial Trainers on Cybercrime and Electronic Evidence ("the **Network**") on 29 January 2021, participating members agreed on using the terms of reference of the Network ("ToRs"), as the rules for operating the Network. The Short-term action plan for 2021 as well the Workplan were also discussed and agreed upon. The short-term action plan for 2021 includes a series of online practitioners to practitioners ("P2P workshops") to be rolled out from February to July 2021

In the First Coordination call of the Steering Committee of the Network it was concluded that given the success of the initial series, it will continue with other 8 workshops spread between November 2021 and June 2022.

The P2P workshops will be delivered by members of the Network who expressed their interest in designing and delivering such workshops, on topics proposed by members of the Network. In total, 12 workshops in the format of 1,5h online sessions (1h presentations, 30 min questions & answers session) have been confirmed and are to be organized.

The series is carried out under Objective 3, Result 3.2.6 "*Develop tools and strengthen the networking capabilities to support the engagement of the international community of judicial trainers on cybercrime and electronic evidence*" of the GLACY + project.

Expected outcome

The assignment is expected to advance the activity of the Network and implement the action plan by organizing a second series of practitioners-to-practitioners workshops, aiming at sharing ideas and knowledge on specific topics on cybercrime and electronic evidence.

The **January** workshop will focus on the theme of electronic evidence in judicial cybercrime cases and its particularities.

The expected results of the **January** workshop:

- The participants will have expanded their knowledge on the connections between cybercrime and electronic evidence.
- The members of the Network will have interacted with their peers and shared their expertise.

More information about the workshops can be found on the dedicated [Webpage](#) of the event.

Participants

The event is open for members of the Networks, for delegates that participated in previous meetings of the Network and that already expressed their interest in being part of it and for judges, prosecutors, representatives of training institutions and other judicial training players from countries supported by the Council of Europe cybercrime capacity building initiatives.

Administrative arrangements and location

Due to the pandemic outbreak and the global restrictions to travels and physical meetings, the event will be held remotely via a video-conferencing platform.

Interpretation

Simultaneous interpretation EN/FR/ES/AR/PT/RU will be provided.

Agenda

18 January 2022

TIME (UTC)	Handling of electronic evidence in cybercrime judicial cases
13h00	Introductory remarks <ul style="list-style-type: none">• <i>Council of Europe</i>
13h10	Handling and standards of electronic evidence <ul style="list-style-type: none">• <i>Gabriela del Campo, Fiscal/Prosecutor and Head of Digital Evidence Unit, Public Ministry, Chile</i>
13h30	Electronic evidence and its handling in Costa Rica <ul style="list-style-type: none">• <i>Sharon Rodríguez Segura, Prosecutor of the Public Ministry of Costa Rica, specialist in cybercrime and digital evidence, detached to the Training and Supervision Unit.</i>
13h50	A case on cybercrime and electronic evidence <ul style="list-style-type: none">• <i>Denisa Asko, District Prosecution Office of Tirana, Albania</i>
14h10	Questions & Answers
14h30	End of the event
