GFCE
Global Forum on Cyber Expertise

First African Forum on Cybercrime

16 October 2018 > African Union Commission, Addis Abeba

Wouter Veenstra, Manager Outreach and Partnerships, GFCE Secretariat

About the GFCE

About the Global Forum on Cyber Expertise

- Launched in 2015 at the Global Conference on Cyber Space in The Hague;

- Informal, low threshold, global platform for governments, International organizations, Private entities → currently 71 Members, 2 co-chairs (India and NL)

- Objective: identify, develop and exchange successful policies, practices and ideas on Cyber Capacity Building and to multiply these on a global level;

- Working methods:

    - GFCE initiatives bottom-up approach by and for the members;

    - Global Agenda on Cyber Capacity Building

- Support structure: GFCE Secretariat in The Hague funded by NL Government;

The importance of Cyber Capacity Building

- Cyber offers tremendous potential for Social and Economic Development

- New developments come with new challenges;

- Cyber communities need to be resilient, stable and reliable

    → Cybersecurity measures and fighting Cybercrime

IMPORTANT:

Cybersecurity enables Development and Development is what rationalizes Security

How did the GFCE evolve in the past years?

- 2015-2016 Building the network

- 2017 Shift of focus to positioning the GFCE as a coordinating platform for cyber capacity building, by developing the Global Agenda for Cyber Capacity Building;

- In 2018 and 2019, the focus of the GFCE will be to facilitate and to coordinate knowledge and expertise sharing for the implementation of cyber capacity building based on the five themes of the Delhi Communiqué.

Results

🌐 Establishment of a strong (personal) GFCE network

🌐 Various **deliverables through initiatives** (toolkits, reports, etc.)

🌐 **Exchanging expertise** through international expert meetings and workshops

🌐 **Global online database** of capacity building initiatives
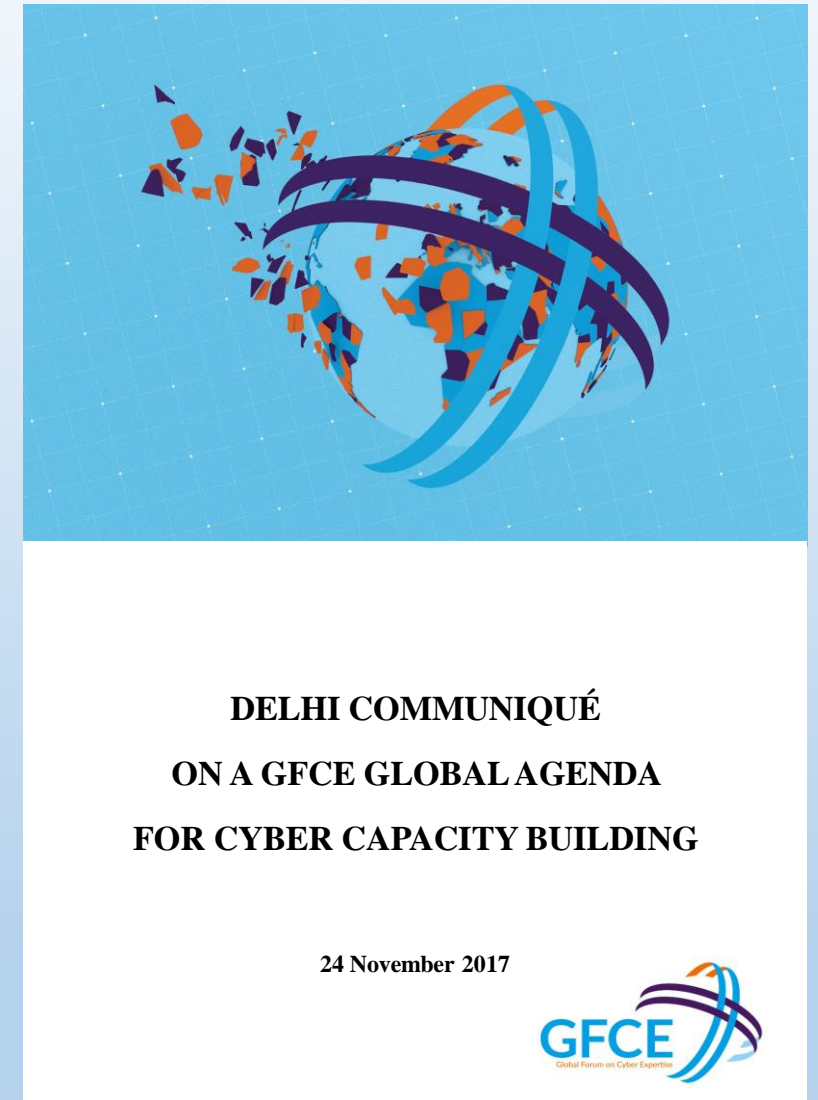

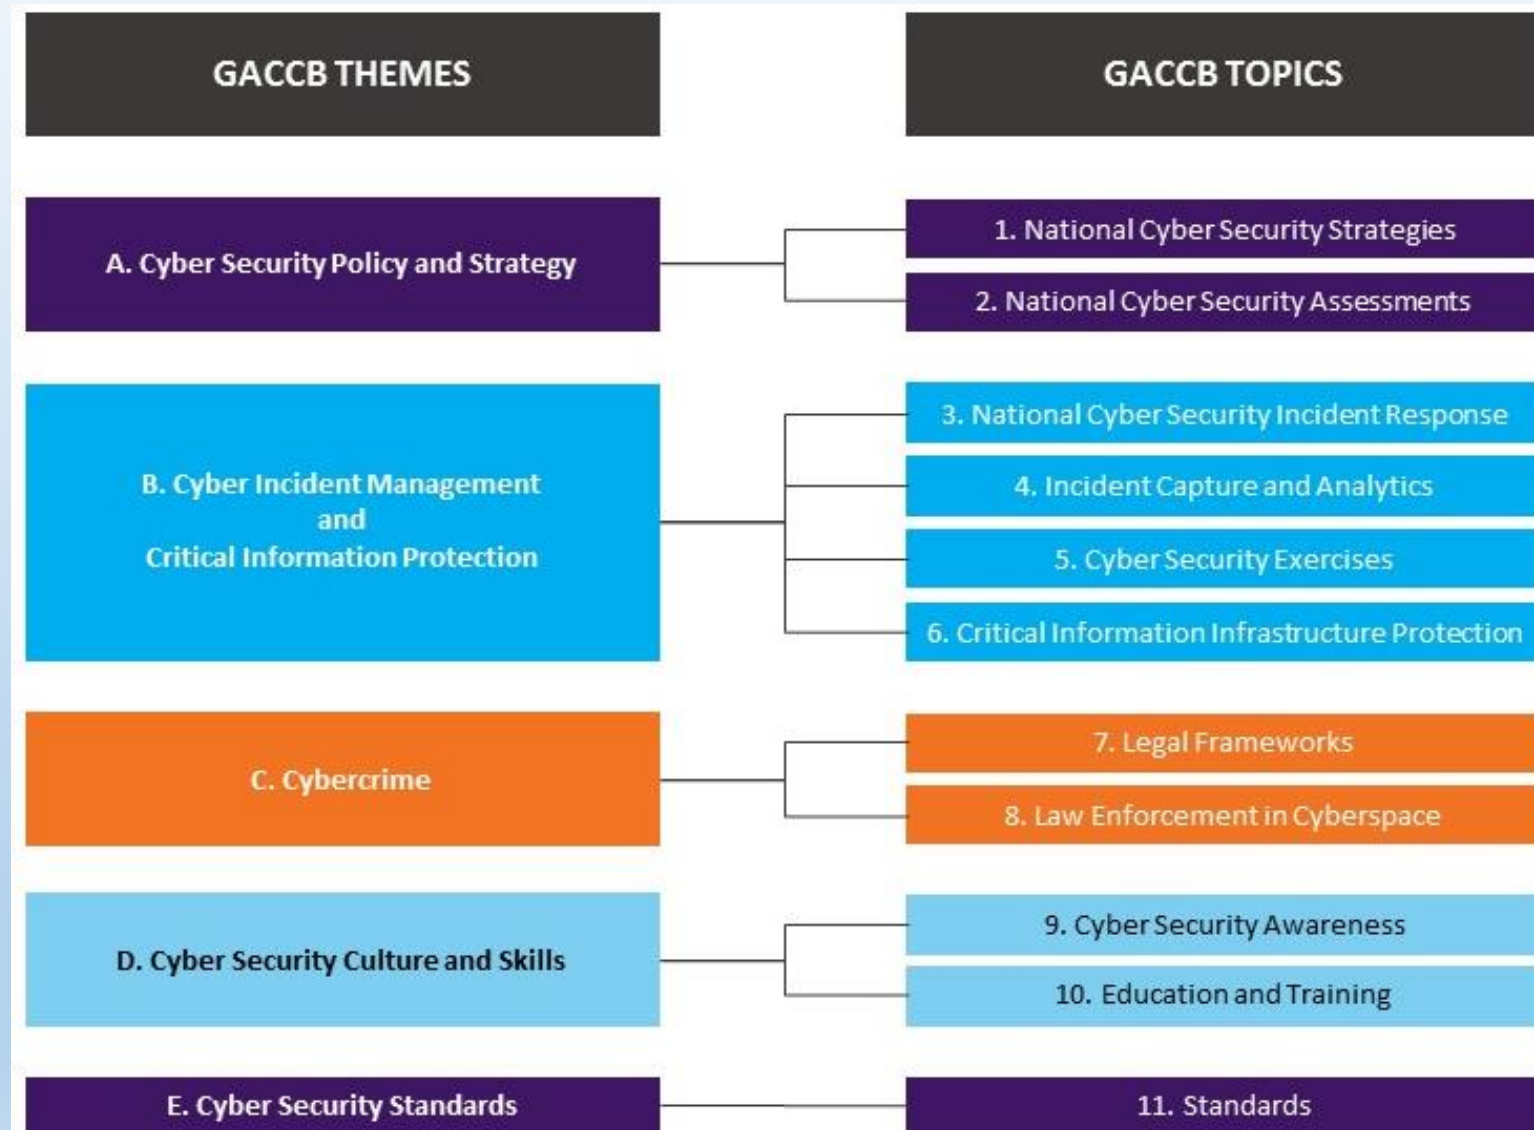

The GFCE Cyber Capacity Building Process
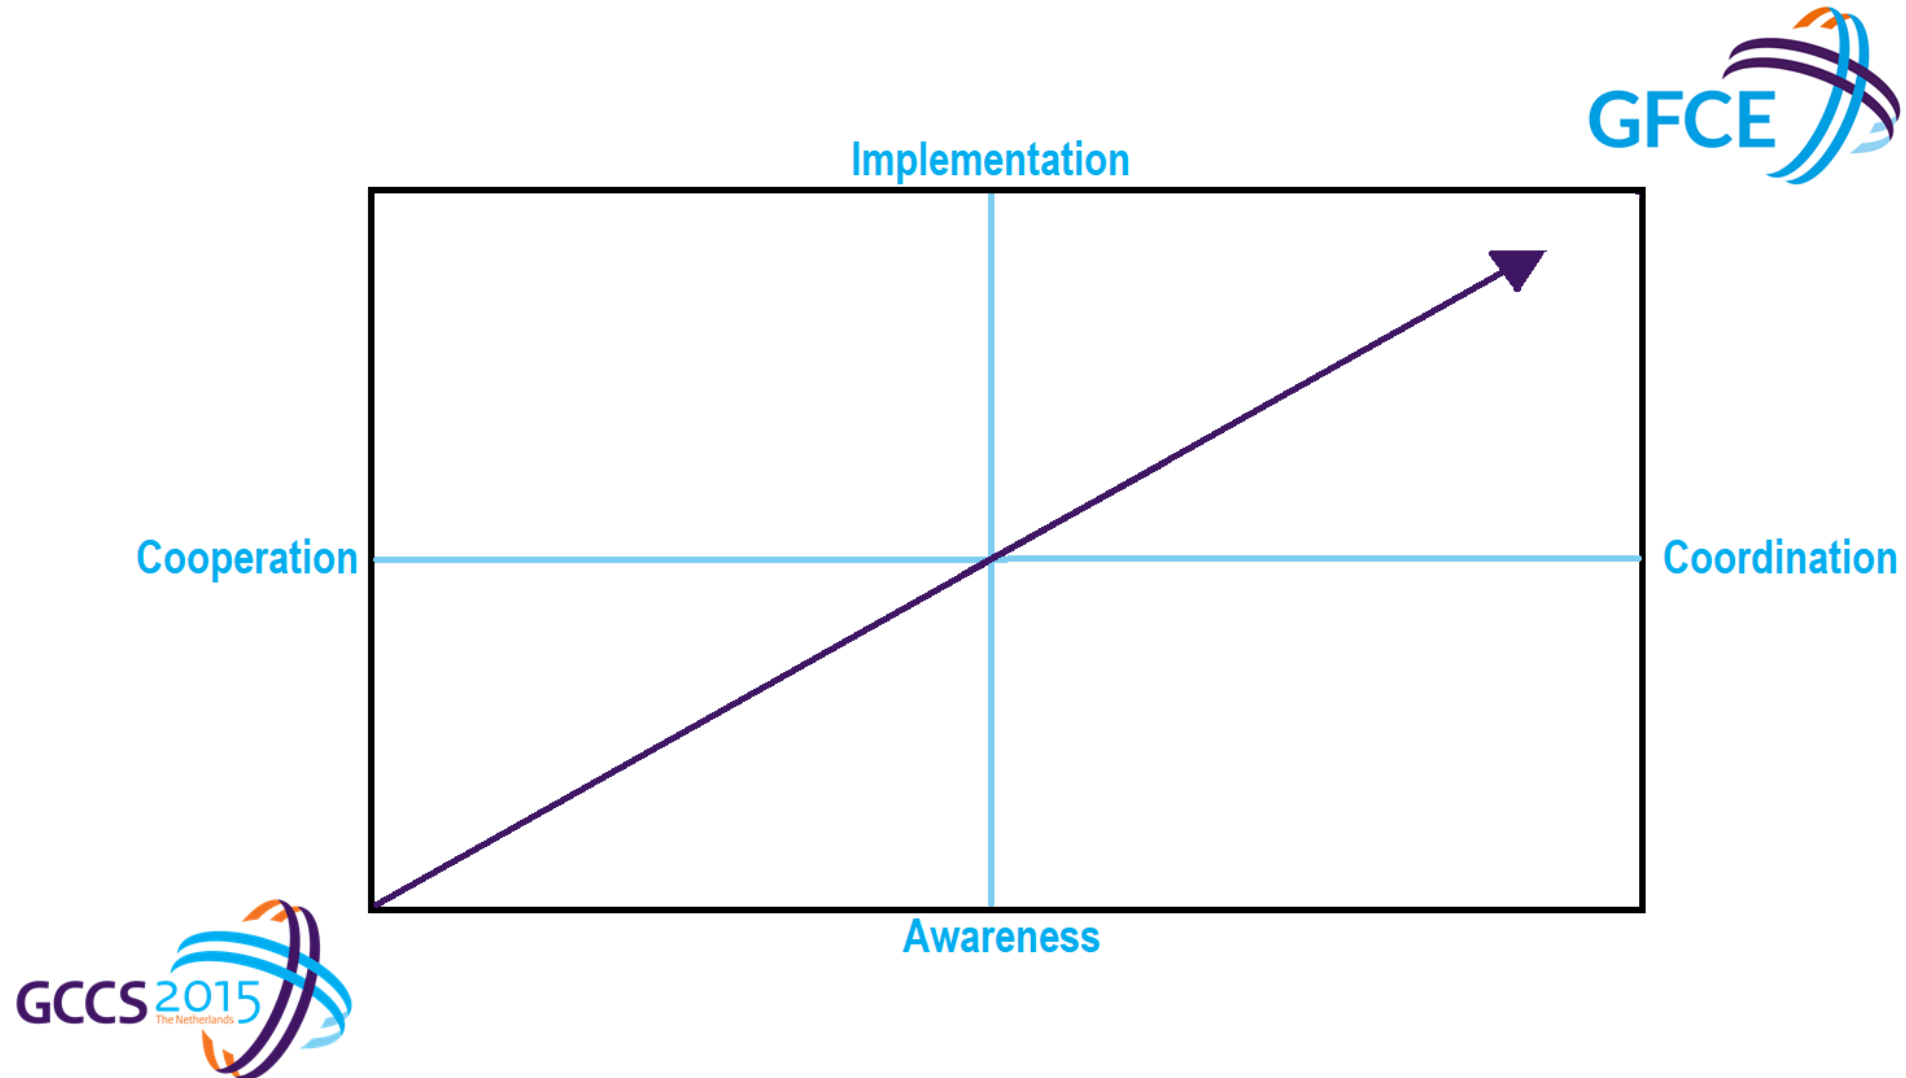

Delhi Communiqué on a GFCE Global Agenda for Cyber Capacity Building

Why is this important:

- Strong message on behalf of the GFCE community;

- Creates mandate;

- Clarifies what topics are important to address;

- It requires concrete action.

**DELHI COMMUNIQUÉ
ON A GFCE GLOBAL AGENDA
FOR CYBER CAPACITY BUILDING**

24 November 2017

Themes and topics of the Global Agenda for Cyber Capacity Building

GACCB THEMES	GACCB TOPICS
A. Cyber Security Policy and Strategy	1. National Cyber Security Strategies
	2. National Cyber Security Assessments
B. Cyber Incident Management and Critical Information Protection	3. National Cyber Security Incident Response
	4. Incident Capture and Analytics
	5. Cyber Security Exercises
	6. Critical Information Infrastructure Protection
C. Cybercrime	7. Legal Frameworks
	8. Law Enforcement in Cyberspace
D. Cyber Security Culture and Skills	9. Cyber Security Awareness
	10. Education and Training
E. Cyber Security Standards	11. Standards

25	Mexico			Switzerland			
26	Microsoft			Symantec			
27	MITRE			Thailand			
28	New America			Tunisia			
29	New Zealand			UK			
30	Norway			USA			
31	NRD CS			Vietnam			

Working Groups on the different themes

- Strengthen international cooperation by developing a common focus and a shared set of ambitions;

- Enabling efficient use of resources and avoid duplication of efforts;

- Bringing together Members and Partners with either resources, needs or expertise;

- Developing a efficient / effective clearing house within the GFCE: bringing CCB support and needs together

- Progress report of each WG at GFCE Annual Meeting was presented on 19-20 September in Singapore.

GFCE: Putting Principles into Practice
