**Online child sexual exploitation (OCSE)**

# What is Online Child Sexual Exploitation?

- ❑ Sexual abuse of children
- ❑ Facilitated through ICT /or the Internet
- ❑ Form of cybercrime.

# TECHNOLOGY

World at our  
fingertips

Threat of  
online predators

# Manifestations

Online child sexual exploitation

# Child Sexual Abuse Materials (CSAM)

(Child pornography)

Materials depicting:-

1. Acts of sexual abuse and/or
2. Focusing on the genitalia of the child

# Computer/Digitally Generated CSAM (**Virtual child pornography**)

Child pornography involving artificially created children

Harmful because:-

- Creates a culture of tolerance
- Can be used to groom children

# Online grooming for sexual purposes

- Establish relationship with a child
- via internet / digital technologies
- **Intention:**  
Online or offline sexual abuse

# Sexting

☐ Self production of sexual images

☐ Consensual activity between peers (mostly)

## **Problematic when:**

-Not consensual

or

-Content abusive/criminal elements

# Sextortion

Sexual extortion

Black mailing using  
self-generated  
Images

# Live online child sexual abuse

Involves:-

1. Coercion of a child to participate in sexual activities
2. which is transmitted live or 'streamed' over the Internet
3. watched by others remotely.

# Impact

## Victim impact statement (Paroline V. United States)

“I live in **constant fear** that someone will see my pictures and recognise me and that I will be **humiliated** all over again...I am **powerless** to stop it...it’s **like** I am **being abused over and over and over again**”.

# **Why Africa needs to respond!**

Online Child Sexual Exploitation

# African Children are vulnerable to OCSE:

- ❑ Unsafe internet practices among children
- ❑ Poor guidance from parents and teachers
- ❑ Insufficient understanding - parents/stakeholders
- ❑ Cyber cafes not well regulated

# Online Sexual Exploitation already happening

# **Problem likely to continue growing!**

- rapidly increasing internet,
- limited regulation,
- little awareness and
- poverty

# **How should we respond?**

**Online child sexual exploitation**

# Multi-disciplinary response

# WePROTECT Model National Response (MNR)

Helps countries:-

- Establish & develop coordinated national responses
- Evaluate their current response, identify gaps & prioritise efforts

# Current Gaps / Challenges

Combatting online child sexual exploitation

## Some gaps

- No explicit criminalization
- No reporting obligations – ISPs
- Limited awareness
- Limited technical capacity
- Differences in legal approaches
- Lack of reporting mechanisms

# Recommendations to address gaps

Legislation

# Recommendation

- **Explicitly criminalize all forms of offences related to online child sexual exploitation.**

# Recommendation

- **Harmonise domestic legislation with international standards**

# Recommendation

- **Amend legislation where needed to impose a legal obligation for ISPs to report if aware of CAM in their systems**

# Recommendation

Build specialist skills for :-

- law enforcement officers
- Judiciary and prosecutors

# Recommendation

- Provide a dedicated hotline for reporting suspected CSAM
- Have take down procedures once reports are made

# Recommendation

- Have awareness creation programmes on online child sexual exploitation.

Thank you!
