

**Resolution CM/ResDip(2008)1
on the revised regulations for the European Diploma for Protected Areas**

*(Adopted by the Committee of Ministers on 20 February 2008
at the 1018th meeting of the Ministers' Deputies)¹*

Appendix 5: Model plan for annual reports

Annual report for the year 2025

Annual reports should describe the changes that have taken place since the previous year in dynamic terms of management and function and not be limited to basic data. Any new text or map introducing a change in the situation of the area should be attached to the annual report.

State: Poland

Name of the area: Bieszczady National Park

Year and number of years since the award or renewal of the European Diploma for Protected Areas:

Year and number of years since the award or renewal of the European Diploma for Protected Areas:
2018 (6)

Central authority concerned:

Name: Ministerstwo Klimatu i Środowiska (Ministry of the Climate and Environment)
Address: Departament Ochrony Przyrody (Department of Nature Conservation) Wawelska Str.
52/54, PL 00-922 Warsaw

Tel: (+48) 22 36 92 479
Fax: (+48) 22 57 92 290
e-mail: Departament.Ochrony.Przyrody@klimat.gov.pl
www: <https://www.gov.pl/web/klimat>

Authority responsible for its management:

Name: Bieszczadzki Park Narodowy
Address: Ustrzyki Górne 19, PL 38-713 Lutowska
Tel: (+48) 13 461 0650
Fax: (+48) 13 461 0610
e-mail: dyrekcja@bdpn.pl, rpredki@bdpn.pl

1. Conditions: List here all conditions which were attached to the award or the renewal of the European Diploma. Explain either how the conditions have been totally complied with or detail the progress in complying with the conditions. Please also indicate any unresolved difficulties that you have encountered.

N/A

2. Recommendations: List here all recommendations which were attached to the award or the renewal of the European Diploma. Explain either how the recommendations have been totally complied with or detail the progress in complying with the recommendations. Please also indicate any unresolved difficulties that you have encountered.

1. draw up and implement three-year action plans, within the framework of the management plan (2011-2031), and set up a monitoring mechanism based on performance and conservation indicators;

The Regulation of the Minister of Climate and Environment introducing Protection Plan for the Bieszczady National Park (Journal of Laws 2022 item 1919) was published on September 12, 2022- <https://isap.sejm.gov.pl/isap.nsf/DocDetails.xsp?id=WDU20220001919>. According to Polish law, this plan will be in force for twenty years and replaces three-year protection tasks (Nature Protection Act of 16 April 2004, Journal of Laws 2022, item 916 - <https://isap.sejm.gov.pl/isap.nsf/DocDetails.xsp?id=WDU20220000916>). On the basis of this documents, strict protection of forest ecosystems and alpine pastures was carried out on 70% of the area. Active protection was carried out on the remaining area, including grazing and mowing of meadows (about 1,2 thousand hectares) and rebuilding of coniferous monoculture (about 100 ha). An area of the Park was visited by 610 000 tourists in 2025. The Park conducted extensive ecological education for various social groups, in which about 37 100 people participated.

2. pursue the efforts to include the beech forests of the Bieszczady National Park on the World Natural Heritage list; aim to harmonize the management of the contiguous beech forests and upland meadows with the similar forests and meadows across the border in the Poloniny National Park (Slovak Republic);

From July 28, 2021, the primeval beech forests of the Bieszczady National Park became part of the serial entry of the UNESCO World Heritage List "Ancient and primeval beech forests of the Carpathians and other regions of Europe". Bieszczady National Park actively participated in meetings and workshops of the committee managing the serial entry. On October 6–7, 2025, the Bieszczady National Park organized a JMC meeting attended by over 40 people representing 16 countries protecting beech forests.

3. manage and control visitor pressure; devise and implement with local stakeholders a sustainable tourism strategy and a prioritized action plan so that the infrastructure of facilities can be developed in line with conservation objectives of the area;

In 2025, the Park continued the implementation of the projects regarding the improvement of marked trails and the protection of the natural environment along tourist routes. As part of this projects, in this year the following elements were built on the trails: wooden protective barriers -680 m, 93 wooden - stone steps, hardening of the trail with stone – 853 m², wooden planking along 310 m of the trail. As part of the maintenance of the wooden - stone steps, stone covering was completed on an area of 1616 m². 34 tables with benches and 140 wooden benches were installed on the hiking trails. Trails along the entire length of 130 km were kept clean by regular collection of waste left by tourists. Damaged tourist trail markings were replaced. 15 portable toilets and 14 permanent toilets were made available for tourists on the trails.

4. strengthen co-operation between the management of the Bieszczady National Park and municipalities, with a view to forging a common vision and designing common objectives for regional planning and development, taking the biological and landscape interests, and sensitive nature of the site, into account;

Representatives of the Park participated in meetings of local communities at the level of the Council of Municipalities and Poviats Councils. In turn, representatives of local governments participated in the meetings of the BNP Scientific Board. On November 28, 2025, in Wołosate, BdPN organized a seminar entitled: "The economic importance of national parks in the local economy on the example of the Bieszczady National Park - selected economic and social aspects".

5. develop further awareness-raising and educational activities on the role of biodiversity and ecosystem services targeting children and youths;

In 2025 number of publications were issued:

- 33 th volume of Roczniki Bieszczadzkie (Annals of Bieszczady) ;
- Map of the Bieszczady National Park with a tourist and nature guide - 3500 copies;
- BNP Nature Calendar for 2025;
- Comic book "The Way Home"(about the journey of a young lynx) - 1000 copies;
- The Great Adventure of the Pędzelek Lynx. A Wild Explorers' Expedition - children's book - 2000 copies;
- Package of educational tasks for primary school students, "My Bieszczady Mountains";
- Book: " Nature trail "Połonina Wetlińska", Guide ";
- Meet the Wild Inhabitants of the Carpathian Land – in Polish and Slovak – 2,000 copies
- Bieszczady National Park – Natural and cultural peculiarities – in English – 1,000 copies
- Field Activities Workbook – 1,000 copies
- BNP Nature Calendar 2026 – 1,500 copies
- Bieszczady National Park – Natural and cultural peculiarities (Polish, extended edition) – 1,000 copies
- Map with Guide "East Carpathians International Biosphere Reserve" – in Polish, Slovak and English – total 2,500 copies
- Colourful Conversations with the Inhabitants of Our Earth – 3,000 copies
- The Great Adventure of Pędzelek the Lynx – 2,000 copies
- The Great Adventure of Pędzelek the Lynx: The Wild Explorers' Expedition – 2,000 copies

In addition, multimedia presentation included:

- BNP website (85 939 unique users)
 - Number of followers of the BdPN FB social profile - 81 061 followers
 - Number of followers of the Instagram profile – 21 100 followers
 - Number of subscribers of the Bieszczady National Park channel on YouTube – 1 220 followers
 - Panel for children "Wild kingdom of the Ryś Pędzelek" on www.bdpn.pl - 9500 people
 - Panel "Around Kremenaros" in PL, SK and ENG language versions: - 900 people
- <https://park.idea-solution.pl/>

6. continue the monitoring of the flora, fauna and vegetation units, and evaluate the management activities that are necessary for the conservation of species and the restoration of native vegetation.

In the Annals of Bieszczady, several articles presenting the results of monitoring were published:

Changes in the range and area of poloninas mountain meadows in the Bieszczady Mts. in the light of cartographic materials from the 18th century to the present Day

Crocus scepusiensis (Rehmann & Wol.) Borbás ex Kulcz. (Iridaceae) – a new species to the Eastern Carpathians flora

New localities of *Clathrus archeri* (Berk.) Dring in Polish Carpathians and their foreland

Long-term and seasonal variability of water-table depth in raised bogs from the Western Bieszczady Mountains

Assessment of the ecological status of a submountain river in the segment with intensive human pressure

Species composition and characteristics of the Orthoptera fauna in the Magura National Park

Tourist traffic in the Bieszczady National Park (2021–2024)

New and rare species of beetles Coleoptera recorded from the Bieszczady and the Bieszczady National Park in the years 2023/24

In 2025, BPN employees carried out monitoring of large predators (bear, lynx, wolf, wildcat), large herbivores (bison, deer, roe deer, wild boar), Amphibians and selected plant communities (Nardus grasslands) were monitored.

3. Site Management: List here any changes to the European Diploma holding site management, in relation to both terrestrial and aquatic environments (as appropriate), and in relation to staff and finances, since the last annual report was submitted to the Council of Europe. Please also indicate any unresolved difficulties that you have encountered.

No significant changes.

4. Boundaries: Give details of any changes to the boundaries of the European Diploma holding site since the last annual report was submitted to the Council of Europe. If there are any changes, please attach an appropriate map to this report. Please also indicate any unresolved difficulties that you have encountered.

No changes of the BNP's external boundaries

5. Other information: List here any other information about the European Diploma holding site which you consider should be provided to the Council of Europe.

We use of the European Diploma logo on the official website www.bdpn.gov.pl or www.bdpn.pl (former www) and on the new information boards which were installed in the park.

The Director of the Park, as one of two Polish representatives, took part in the celebration of the 60th anniversary of the establishment of the Council of Europe Diploma in Granada and the Sierra Nevada National Park on 21st May 2025. As part of the information campaign, BNP presented anniversary content Council of Europe on social media profiles (www, FB, Instagram). The Education Center in Ustrzyki Dolne constantly presents a roll-up dedicated to this anniversary and the importance of the Diploma for preserving the biodiversity of the Bieszczady Mountains.

The following sections of the form should only be filled in if your area is in the year before a renewal of its European Diploma for Protected Areas, i.e. year 4 after the award of the European Diploma or year 9 after its renewal.

6. Natural heritage (general abiotic description: geomorphology, geology and hydrogeology, habitats, flora, fauna, landscape) – State of conservation

- 6.1. Environment: changes or deterioration in the environment, of natural or anthropic origin, accidental or permanent, actual or anticipated
- 6.2. Flora and vegetation: changes in the plant population and in the vegetational cover; presumed causes
- 6.3. Fauna: changes in the sedentary or migratory populations; congregating, egg-laying and breeding grounds

7. Cultural heritage and socio-economic context

- 7.1. Cultural heritage
 - 7.1.1. Changes concerning cultural heritage
- 7.2. Socio-economic context
 - 7.2.1. Changes concerning the socio-economic context

8. Education and scientific interest

- 8.1. Visitors – Information policy
 - 8.1.1. Arrangements for receiving and informing the public (building, booklets, maps, cards, etc.)
 - 8.1.2. Frequentation by visitors and behavior (number, distribution in time and space)
 - 8.1.3. Special visits (distinguished persons, groups, etc.)
- 8.2. Scientific research
 - 8.2.1. Current or completed research (observation, experimentation, etc.; identification or inventory of the species listed in the appendices to the Bern Convention, etc.)
 - 8.2.2. Scientific publications

9. Site description (vulnerability, protection status, ownership, documentation)

- 9.1. Changes in legislation or regulations
- 9.2. Changes in ownership title (conversion to public property, rentals, etc.)
- 9.3. Extension or transfer, new uses (for example, conversion into total reserve)

10. Site management (management plans, budget and personnel)

- 10.1. Improvements made
 - 10.1.1. Ecological action affecting the flora and biotopes; controls of fauna
 - 10.1.2. Protection against the elements (fire, water regime)
 - 10.1.3. Approaches and thoroughfares (paths, roads, car parks, signposting, fencing, etc.)
 - 10.1.4. Field equipment (hides and study facilities)
 - 10.1.5. Waste management
 - 10.1.6. Use of renewable energy systems
- 10.2. Management
 - 10.2.1. Administrative department: changes made
 - 10.2.2. Wardens' department: changes made
 - 10.2.3. Internal policing measures
 - 10.2.4. Infringement of regulations and damage; legal action

11. Influence of the award of the European Diploma for Protected Areas
