

Biennial Report

Article 9 to the Bern Convention permits exceptions from the obligations accepted by Contracting Parties in pursuance of Articles 4 to 8. The possibility of derogating from the mentioned articles of the Convention is subject to two very clearly defined general conditions, and some non cumulative specific reasons, listed exhaustively in Article 9.

The two general conditions that must be met are:

- a. that there is no other satisfactory solution; and
- b. that the exception will not be detrimental to the survival of the population concerned.

These two conditions are mandatory and cumulative.

The specific reasons for which the exceptions may be granted are the following:

- i. for the protection of flora and fauna;
- ii. to prevent serious damage to crops, livestock, forests, fisheries, water and other forms of property;
- iii. in the interests of public health and safety, air safety or other overriding public interests (please, specify);
- iv. for the purposes of research and education, of repopulation, of reintroduction and for the necessary breeding;
- v. to permit, under strictly supervised conditions, on a selective basis and to a limited extent, the taking, keeping or other judicious exploitation of certain wild animals and plants in small numbers
- vi. falconry (falconry is dealt with separately)

These specific reasons are mandatory and non cumulative.

According to Article 9§2, Contracting Parties shall report every two years to the Standing Committee on the exceptions made. The reports must specify:

- a. the populations which are or have been subject to the exceptions and, when practical, the number of specimens involved;
- b. the means authorised for the killing or capture;
- c. the conditions of risk and the circumstances of time and place under which such exceptions were granted;
- d. the authority empowered to declare that these conditions have been fulfilled, and to take decisions in respect of the means that may be used, their limits and the persons instructed to carry them out;
- e. the controls involved.

EXCEPTIONS CONCERNING STRICTLY PROTECTED FLORA SPECIES (ART. 5 - APPENDIX I)

ANGIOSPERMAE

ASTERACEAE

Ligularia sibirica

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No of specimens involved (when practical)

> 10

Reasons for issuing of licences (art. 9, i. to v.)

Reasons for issuing of licences (art. 9, i. to v.)

ii.: prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property

Impact on population

> small impact

Conditions of risk and the circumstances and the time and place under which exceptions were granted

Conditions of risk and the circumstances and the time and place under which exceptions were granted

> was the risk assessment for the building the forest road for processing of the consequences of wind and bark-beetle calamity

damaged of 10 plants of the species

National park of the Low Tatras - locality Nad Zubrom (in cadaster of Telgart Vilage)

in the periode: 19.4.2013 - 31.12.2015

The authority empowered to declare that the conditions have been fulfilled

> Ministry of the Environment of the Slovak Republic

The controls involved

> Yes

CARYOPHYLLACEAE

Dianthus nitidus

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No of specimens involved (when practical)

> 3

Reasons for issuing of licences (art. 9, i. to v.)

Reasons for issuing of licences (art. 9, i. to v.)

iv.: for research / education / repopulation / reintroduction / necessary breeding

Impact on population

> Small impact.

Conditions of risk and the circumstances and the time and place under which exceptions were granted

Conditions of risk and the circumstances and the time and place under which exceptions were granted

> collection max. 3 specimens for the key for determination of the family Caryophyllaceae

period 2.8.2011 - 30.12.2015

Slovak Republic

The authority empowered to declare that the conditions have been fulfilled

> Ministry of the Environment of the Slovak Republic

The controls involved

> Yes

ORCHIDACEAE

Cypripedium calceolus

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No of specimens involved (when practical)

> 8

Reasons for issuing of licences (art. 9, i. to v.)

Reasons for issuing of licences (art. 9, i. to v.)

ii.: prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property

Impact on population

> small impact

Conditions of risk and the circumstances and the time and place under which exceptions were granted

Conditions of risk and the circumstances and the time and place under which exceptions were granted

> accidental damage of the species during the processing of the consequences of wind and bark-beetle

calamity

locality in the cadaster of the Harmanec Vilage

periode 5.9.2014 - 28.2.2015

The authority empowered to declare that the conditions have been fulfilled

> Ministry of the Environment of the Slovak Republic

The controls involved

> Yes

RANUNCOLACEAE

Pulsatilla grandis

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No of specimens involved (when practical)

> 5

Reasons for issuing of licences (art. 9, i. to v.)

Reasons for issuing of licences (art. 9, i. to v.)

iv.: for research / education / repopulation / reintroduction / necessary breeding

Impact on population

> Small impact - transfer 5 plants of the species to new locality.

Conditions of risk and the circumstances and the time and place under which exceptions were granted

Conditions of risk and the circumstances and the time and place under which exceptions were granted

> cadaster of the Hrhov Vilage, period 29.11.2011 - 30.4.2012

The authority empowered to declare that the conditions have been fulfilled

> Ministry of the Environment of the Slovak Republic

The controls involved

> Yes

Pulsatilla slavica

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No of specimens involved (when practical)

> 15

Impact on population

> small impact

Conditions of risk and the circumstances and the time and place under which exceptions were granted
Conditions of risk and the circumstances and the time and place under which exceptions were granted
> accidental damage of the species during the processing of the consequences of wind and bark-beetle calamity

locality in the cadaster of the Harmanec Vilage

periode 5.9.2014 - 28.2.2015

The authority empowered to declare that the conditions have been fulfilled

> Ministry of the Environment of the Slovak Republic

The controls involved

> Yes

TRAPACEAE

Trapa natans

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No of specimens involved (when practical)

> 1000000

Reasons for issuing of licences (art. 9, i. to v.)

Reasons for issuing of licences (art. 9, i. to v.)

ii.: prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property

Impact on population

> large impact

Conditions of risk and the circumstances and the time and place under which exceptions were granted
Conditions of risk and the circumstances and the time and place under which exceptions were granted
> the species is in the localities expansive and problematic for fisheries - only mechanical skiving

localities: fishpond Zelene and fishpond Uhorske in the Poltar District

period: 18.11.2011 - 30.6.2016

The authority empowered to declare that the conditions have been fulfilled

> Ministry of the Environment of the Slovak Republic

The controls involved

> Yes

ALGAE

CHLOROPHYTA

Caulerpa ollivieri

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

BRYOPHYTA

BUXBAUMIACEAE

Buxbaumia viridis

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No of specimens involved (when practical)

> 10

Reasons for issuing of licences (art. 9, i. to v.)

Reasons for issuing of licences (art. 9, i. to v.)

ii.: prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property

Impact on population

> small impact

Conditions of risk and the circumstances and the time and place under which exceptions were granted

Conditions of risk and the circumstances and the time and place under which exceptions were granted

> 1. was the risk assessment for the building the forest road for processing of the consequences of wind and bark-beetle calamity

damaged of 4 stems with the existence of the species

National park of the Low Tatras - locality Nad Zubrom (in cadaster of Telgart Vilage)

in the periode: 19.4.2013 - 31.12.2015

2. was the risk assessment for the renovation of the state road to the Tisovec City

damaged of 3 stems with the existence of the species

National park of the Muranska planina - locality Zbojska (in cadaster of Tisovec City)

in the periode: 13.2.2013 - 31.12.2015

The authority empowered to declare that the conditions have been fulfilled

> Ministry of the Environment of the Slovak Republic

The controls involved

> Yes

EXCEPTIONS CONCERNING STRICTLY PROTECTED FAUNA SPECIES (ART. 6 - APPENDIX II)

Article 6 of the Convention prohibits the following:

- a) all forms of deliberate capture and keeping and deliberate killing;
- b) the deliberate damage to or destruction of breeding or resting sites;
- c) the deliberate disturbance of wild fauna, particularly during the period of breeding, rearing and hibernation, insofar as disturbance would be significant in relation to the objectives of this Convention;
- d) the deliberate destruction or taking of eggs from the wild or keeping these eggs even if empty;
- e) the possession of and internal trade in these animals, alive or dead, including stuffed animals and any readily recognisable part or derivative thereof, (where this would contribute to the effectiveness of the provisions of this article).

Vertebrates

FISHES > ESOCIFORMES

Umbridae

Umbra krameri

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

- The species occurs in the country

No. of specimens involved (when practical)

> 0

Authorised action (art. 6, a. to f.)

- the deliberate disturbance of wild fauna, particularly during the period of breeding, rearing and hibernation, insofar as disturbance would be significant in relation to the objectives of this Convention;

Reasons for issuing of licences (art. 9, i. to v.)

- iv.: for research / education / repopulation / reintroduction / necessary breeding

Impact on population

> not significant

Conditions of risk and the circumstances and the time and place under which exceptions were granted

> 19.06.2014 - 31.12.2016

Čičovské mŕtve rameno National Nature Reserve and its vicinity

The authority empowered to declare that the conditions have been fulfilled

> Ministry of Environment of the Slovak Republic

The controls involved

> Yes

Where appropriate: indiscriminate means of capture and killing

4. Electrical devices capable of killing and stunning

AMPHIBIANS > CAUDATA

Salamandridae

Triturus cristatus

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

- The species occurs in the country

No. of specimens involved (when practical)

> 0

Authorised action (art. 6, a. to f.)

the deliberate destruction or taking of eggs from the wild or keeping these eggs even if empty;

No. of licences

> 2

Reasons for issuing of licences (art. 9, i. to v.)

iv.: for research / education / repopulation / reintroduction / necessary breeding

Impact on population

> not significant

Conditions of risk and the circumstances and the time and place under which exceptions were granted

> 16.07.2011 - 31.12.2016

Motrogon Nature Reserve

11.08.2011 - 31.12.2016

The authority empowered to declare that the conditions have been fulfilled

> Ministry of Environment of the Slovak Republic

The controls involved

> yes

Where appropriate: indiscriminate means of capture and killing

other means capable of causing local disappearance of, or serious disturbance to, populations of a species

Please specify

> BTH-by hands

Triturus dobrogicus

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of specimens involved (when practical)

> 0

Authorised action (art. 6, a. to f.)

the deliberate disturbance of wild fauna, particularly during the period of breeding, rearing and hibernation, insofar as disturbance would be significant in relation to the objectives of this Convention;

No. of licences

> 1

Reasons for issuing of licences (art. 9, i. to v.)

iv.: for research / education / repopulation / reintroduction / necessary breeding

Impact on population

> not significant

The authority empowered to declare that the conditions have been fulfilled

> Ministry of Environment of the Slovak Republic

The controls involved

> Yes

Where appropriate: indiscriminate means of capture and killing

11. Traps

Triturus montandoni

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of specimens involved (when practical)

> 0

Authorised action (art. 6, a. to f.)

the deliberate disturbance of wild fauna, particularly during the period of breeding, rearing and hibernation, insofar as disturbance would be significant in relation to the objectives of this Convention;

No. of licences

> 1

Reasons for issuing of licences (art. 9, i. to v.)

iv.: for research / education / repopulation / reintroduction / necessary breeding

> 800 - 2500 breeding pairs

Controls involved

> yes

Aquila pomarina

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of birds in captivity (after entry into force of the Convention)

> 3

Origin of birds:

| | % reared in captivity | % imported | % captured from the wild in the State |
|--|-----------------------|------------|---------------------------------------|
| | | | |

Estimated population in the wild (in the State)

> 800 - 900 breeding pairs

Controls involved

> yes

Aquila heliaca

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of birds in captivity (after entry into force of the Convention)

> 3

Origin of birds:

| | % reared in captivity | % imported | % captured from the wild in the State |
|--|-----------------------|------------|---------------------------------------|
| | | | |

Estimated population in the wild (in the State)

> 35 - 40 breeding pairs

Controls involved

> yes

Aquila chrysaetos

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of birds in captivity (after entry into force of the Convention)

> 110

Origin of birds:

| | % reared in captivity | % imported | % captured from the wild in the State |
|--|-----------------------|------------|---------------------------------------|
| | | | |

Estimated population in the wild (in the State)

> 90 - 95 breeding pairs

Controls involved

> yes

Hieraaetus pennatus

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

Origin of birds:

| | % reared in captivity | % imported | % captured from the wild in the State |
|--|-----------------------|------------|---------------------------------------|
| | | | |

Estimated population in the wild (in the State)

> 0 - 6 breeding pairs

Controls involved

> yes

Falconidae

Falco naumanni

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

Falco tinnunculus

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of birds in captivity (after entry into force of the Convention)

> 87

Origin of birds:

| | % reared in captivity | % imported | % captured from the wild in the State |
|--|-----------------------|------------|---------------------------------------|
| | 16 | | |

Estimated population in the wild (in the State)

> 4000-6000 breeding pairs

Controls involved

> yes

Falco subbuteo

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of birds in captivity (after entry into force of the Convention)

> 3

Origin of birds:

| | % reared in captivity | % imported | % captured from the wild in the State |

> 1 - 24 breeding pairs

Controls involved

> yes

Falco eleonora

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

Falco biarmicus

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

Falco cherrug

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of birds in captivity (after entry into force of the Convention)

> 323

Origin of birds:

| | % reared in captivity | % imported | % captured from the wild in the State |
|--|-----------------------|------------|---------------------------------------|
| | 45 | | |

Estimated population in the wild (in the State)

> 10 - 40 breeding pairs

Controls involved

> yes

Falco rusticolus

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

EXCEPTIONS CONCERNING PROTECTED FAUNA SPECIES (ART. 7 APPENDIX III)

According to article 7 of the Convention, any exploitation of wild fauna specified in Appendix III shall be regulated in order to keep the populations out of danger.

Measures to be taken shall include:

- i. closed seasons and/or other procedures regulating the exploitation;
- ii. the temporary or local prohibition of exploitation, as appropriate, in order to restore satisfactory population levels;
- iii. the regulation as appropriate of sale, keeping for sale, transport for sale or offering for sale of live and dead wild animals.

Exceptions to species listed in Appendix III concern the use of means of capture and killing specified in Appendix IV.

Vertebrates

BIRDS > PELECANIFORMES

Phalacrocoracidae

All species of Birds not included in Appendix II (Phalacrocorax carbo)

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of individuals involved (when practical)

> 10

Exception made

> 4

Reasons for issuing of licences (art. 9, i. to v.)

iii.: in the interests of public health and safety, air safety or other overriding public interests (which?)

Please specify

> disturbing of species with aim to push them out from the military airport

Impact on the population

> not significant

The authority empowered to declare that the conditions have been fulfilled

> Ministry of Environment of the Slovak Republic

The controls involved

> State Conservancy of the Slovak Republic

Where appropriate: indiscriminate means of capture and killing

6. Mirrors and other dazzling devices

BIRDS > GALLIFORMES

Phasianidae

All species of Birds not included in Appendix II (Tetrao urogallus)

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of individuals involved (when practical)

> 0

Exception made

> 2

Reasons for issuing of licences (art. 9, i. to v.)

iv.: for research / education / repopulation / reintroduction / necessary breeding

Impact on the population

> Granting of the derogation license have precondition, that the derogation actions will not have significant influence on species and it population.

Conditions of risk and the circumstances and the time and place under which exceptions where granted

> 24.05.2013 - 31.12.2015

Tatransky National Park, Nízke Tatry National Park, Malá Fatra National Park, Veľká Fatra National park, Horná Orava Protected Landscape Area

15.07.2013 - 31.12.2015

Jasenie

The authority empowered to declare that the conditions have been fulfilled

> Ministry of Environment of the Slovak Republic

The controls involved

> yes

Additional details

Where appropriate, please add a text providing information on:

Comments/notes

> These 2 licences were given because of 2 various reasons:

- research

- construction of forest roads (activity: Deliberate disturbance, scaring away)

Where appropriate: indiscriminate means of capture and killing

16. Motor vehicles in motion

BIRDS > CHARADRIIFORMES

Charadriidae

All species of Birds not included in Appendix II (Vanellus vanellus)

Confirmation of species occurrence

Please confirm the occurrence of the species in the country

The species occurs in the country

No. of individuals involved (when practical)

> 0

Exception made

> 1

Reasons for issuing of licences (art. 9, i. to v.)
