Monitoring the implementation of the European Social Charter ¹

I. Reporting system ²

Reports submitted by Luxembourg

Between 1993 and 2019, Luxembourg has submitted 21 reports on the application of the 1961 Charter .

The [21st report](#), submitted on 31/12/2018 covers the accepted provisions of the Social Charter relating to thematic group 3 "Labour rights" (Articles 2, 4, 5, 6, Article 2 of the Additional Protocol, Article 3 of the Additional Protocol).

Conclusions with respect to these provisions have been published in March 2019. The deadline for submitting the 21st report was 31 October 2017 and Luxembourg submitted it on 31 December 2018. The information on Article 6 was submitted too late for examination and the Committee will examine it together with Luxembourg's next report on this provision.

The 22nd report, which was to be submitted by 31/10/2018, should concern the accepted provisions relating to Thematic group 4 "Children, families, migrants", namely:

- the right of children and young persons to protection (Article 7),
- the right of employed women to protection (Article 8),
- the right of the family to social, legal and economic protection (Article 16),
- the right of mothers and children to social and economic protection (Article 17),
- the right of migrant workers and their families to protection and assistance (Article 19).

Conclusions with respect to these provisions will be published in January 2020.

¹ The European Committee of Social Rights ("the Committee") monitors compliance with the Charter under two procedures, the reporting system and the collective complaints procedure, according to Rule 2 of the Committee's rules: « 1. The Committee rules on the conformity of the situation in States with the European Social Charter, the 1988 Additional Protocol and the Revised European Social Charter. 2. It adopts conclusions through the framework of the reporting procedure and decisions under the collective complaints procedure ».

Further information on the [procedures](#) may be found on the [HUDOC database](#) and in the [Digest of the case law of the Committee](#).

² Following a [decision taken by the Committee of Ministers in 2006](#), the provisions of the Charter have been divided into four thematic groups. States present a report on the provisions relating to one of the four thematic groups on an annual basis. Consequently each provision of the Charter is reported on once every four years.

Following a [decision taken by the Committee of Ministers in April 2014](#), States having accepted the collective complaints procedure are required, in alternation with the abovementioned report, to provide a simplified report on the measures taken to implement the decisions of the Committee adopted in collective complaints concerning their country. The alternation of reports is rotated periodically to ensure coverage of the four thematic groups. Detailed information on the Reporting System is available on the [relevant webpage](#). The reports submitted by States Parties may be consulted in the [relevant section](#).

The Committee has been unable to assess compliance with the following provisions and has invited the Luxembourg Government to provide more information in the next report:

II. Examples of progress achieved in the implementation of rights under the Charter ***(non-exhaustive list)***

Thematic Group 1 "Employment, training and equal opportunities"

- ▶ Adoption of an Anti-Discrimination Act which comprises a general ban on direct and indirect discrimination in society on grounds including disability (28 November 2006).
- ▶ Adoption of an Anti-Discrimination Act which prohibits direct and indirect discrimination on the ground of disability in relations between public-sector workers and their employers (29 November 2006).

Thematic Group 2 "Health, social security and social protection"

-

Thematic Group 3 "Labour rights"

- ▶ National legislation did not enable trade unions to choose their candidates for joint works council elections freely, regardless of nationality, i.e. candidates for joint works councils had to be an EU national. The Law of 23 July 2015 amended the situation and candidates no longer have to be EU nationals.

Thematic Group 4 "Children, families, migrants"

- ▶ Pursuant to Article L. 343-2 of the Labour Code, young workers are subject to medical examinations at recruitment and periodically thereafter, during employment, in accordance with the legislation on occupational health services.
- ▶ A number of amendments were introduced in the legislation as regards sexual exploitation of minors, such as the criminalisation of Internet viewing of child pornography (Article 384 of the Criminal Code) and the criminalisation of soliciting children for sexual purposes (Article 358-2).
- ▶ The Act on the fight against sexual abuse and sexual exploitation of children was adopted on 21 February 2013. It transposes Directive 2011/93 and aims at strengthening the protection of children against sexual abuse, sexual exploitation and child pornography, as well as at ensuring the effective prosecution of offenses, protection of the rights of victims and finally putting in place effective control systems.
- ▶ Referring to a judgment of the Court of Justice of the European Communities of 29 October 2009, the Luxembourg Court of Appeal recognised, in its judgment of 31 March 2011, that Article L.337-1 of the Labour Code was discriminatory because it did not provide for the possibility for a pregnant woman dismissed during her pregnancy to take legal action for damages whereas this remedy was available for any other employee who had been dismissed.
- ▶ A legal framework for mediation in civil and commercial matters was set up in 2012 (Act of 24 February 2012).
- ▶ The legal framework set by the Law of 29 August 2008 on the free movement of persons and immigration was fleshed out by the Grand-Ducal Regulations of 2 September 2011 establishing requirements and arrangements for the implementation of reception and integration contracts; that of 15 November 2011 on the organisation and functioning of local consultative committees; and that of 15 November 2011 on the arrangements for the appointment of representatives of foreign nationals on the National Council for Foreign Nationals.
- ▶ The Law of 23 July 2015 reforming social dialogue within companies did away with joint works councils. Under Section 5, paragraph 2 of the Law of 23 July 2015, the existing committees and works councils will remain in place until the next elections of representatives.
- ▶ The Grand-Ducal Regulation of 10 February 2009 on the medical examination of foreign nationals indicated the content of the checks and the health problems which are clearly incompatible with the purpose of staying in the country within the meaning of the Law of 29 August 2008 on the free movement of persons and immigration.
