

Bureau of the Steering Committee on Media and Information Society

13/11/2015

CDMSI-BU(2015)002

Report of the 8th meeting (3-4 November 2015)

(Strasbourg, Council of Europe Offices, Agora building, room GO3)

1. Opening of the meeting

The CDMSI Chair, Ms Maja Raković (Serbia) opened the meeting.

Mr Jan Kleijssen, Director of the Information Society and Action against Crime Directorate, welcomed the members of the Bureau and shared information regarding ongoing and future activities in the Council of Europe. He pointed out important work on the agenda of the meeting, in particular two draft Committee of Ministers recommendations, respectively on safety of journalists and other media actors, and on Internet freedom, as well as the draft Strategy for Internet governance of the Council of Europe 2016-2019, to be considered and approved by the CDMSI (developed further under their respective items).

With these last draft recommendations, the terms of reference of the CDMSI for 2014-2015 and of its sub-committees will be considered successfully accomplished. Mr Kleijssen informed the Bureau about the state of play and the process for the preparation and adoption of the new mandate of the CDMSI and two sub-committees of experts, which are pending adoption in the CM. Mr Kleijssen asked that major developments in member states, inter alia in the field of Internet, be shared in the CDMSI and communicated to the Secretariat.

Furthermore, much positive comments have been received on the Conference of 13-14 October, 'Freedom of Expression – Still a Precondition for Democracy?' He thanked those members of the Bureau who could take part in it and congratulated the Secretariat team in charge of organising the conference. It is now important to ensure a proper follow-up.

Finally, Mr Kleijssen mentioned the future work of the CODEXTER for 2016 on special investigation techniques. The CDMSI had been invited to other steering committees to take part in this work by nominating a member to participate in a drafting committee to be formed.

2. Adoption of the agenda

The Bureau adopted the agenda of its meeting in view of the preparation of the CDMSI meeting which will take place from 8 to 11 December 2015. The annotated agenda appears in Appendix 1. The list of participants appears in Appendix 2.

3. Information by the Chair and the Secretariat

3.1 Draft Recommendation of the Committee of Ministers to member States on protecting and promoting the right to freedom of expression and the right to private life with regard to network neutrality

The Bureau took note of the information by the Secretariat on the state of play of the draft recommendation. The draft was on the agenda of the Group of Rapporteurs on Human Rights (GR-H) of 17 September where there was no discussion on the substance; the item was postponed further to contacts of the GR-H Chair with the EU. It is envisaged to be on the agenda of the GR-H on 3 December.

On 27 October, the European Parliament voted in support of an EU regulation which covers issues of network neutrality. The general principles of the draft recommendation and the EU regulation are the same although the latter does not define the principle of network neutrality but contains the gist of it. Exemptions to the principle, such as reasonable traffic management to address network congestion and specialised services are permissible in both texts.

It is important that the Council of Europe's human right approach to the issue of network neutrality and the complementarity of the draft recommendation to the EU regulation is noted in the upcoming consideration of the draft recommendation by the GR-H. Therefore, the Bureau encourages its members to make contact with their Permanent Representations and transmit this message.

3.2 Council of Europe Conference on "Freedom of Expression – Still a precondition for democracy?" – Strasbourg, 13-14 October 2015.

The Bureau took note of the report on the high-level conference by the Secretariat. The recordings remain on-line, a full report is being finalised by the general rapporteur of the conference, Mr Tarlach McGonagle, and will be available at the plenary meeting. The conference is also supported by a video series ("The Hows and Whys of Freedom of Expression"), which is a series of interviews of prominent defenders of freedom of expression such as some judges of the ECtHR, the CoE Commissioner for Human Rights, etc., and by a book ("Journalists at Risks"), which was released during the conference. Over 400 people attended the conference as well as 250 permanently on-line. The event also benefitted from wide media coverage, including social media.

The Bureau congratulated the Secretariat on the conference which they judged excellent and a good way to enhance the visibility of the work of the Council of Europe.

3.3 New mandate of the CDMSI

The Bureau took note of information provided by the Secretariat on the new mandate of the CDMSI and two sub-committees of experts for the biennium 2016-2017. This is currently being considered for adoption by the Committee of Ministers.

The CDMSI Secretary Ms. Silvia Grundmann recalled the process of first discussions in the CDMSI Bureau meeting in April in Paris, followed by the June plenary about priorities of upcoming work and methods. The SG has consequently presented the draft ToRs as per the rules of procedure of the organisation. The GR-H had two rounds of discussion in September and October, where delegations have generally supported the draft terms of reference. The approach taken was to balance standard – setting activities (which as many delegations have pointed out in the GR-H should be realistic) with sharing of best practices and knowledge. It is expected that the new terms of reference be adopted in the course of November and will thus be available at the next plenary meeting.

The Bureau also discussed the need for an early formation of the groups of experts in order to enable them to start their work as early as possible (Committee of experts on media pluralism and transparency of media ownership – MSI-MED and Committee of experts on Internet intermediaries – MSI-NET). Therefore, it encourages the CDMSI members to send proposals for national experts including a curriculum vitae (7 for each committee) by **25 November**. The independent experts (6 in each committee) will be appointed by the Secretary General. However, members can suggest names should they wish to do so. Due consideration should be given to expertise and experience in the field of the remits of the committees as well as with intergovernmental work.

The Bureau will prepare proposals for the composition of the committees, to be submitted for decision to the CDMSI in December.

4. Implementation of Council of Europe adopted standards

The Bureau took note of the Secretariat's analysis of replies to the questionnaire that was sent to CDMSI members. 15 delegations have to date sent replies. The Bureau tasked the Secretariat to send a message to CDMSI members encouraging further replies to the questionnaire before the next meeting in December. This would enable the Secretariat to revise and complete its analysis, which will form the basis of discussions at the plenary meeting. The Bureau proposed that a hearing could be organised at the plenary meeting in spring 2016 combined with a review of the Internet based platform on safety of journalists.

5. Media standard setting

5.1 Committee of experts on protection of journalism and safety of journalists (MSI-JO)

The Bureau took note of the work accomplished by MSI-JO at the last meeting of its mandate and congratulated it for its excellent work.

The Secretariat presented the draft recommendation to member States on the protection of journalism and safety of journalists and other media actors, recalling that the comments of CDMSI members submitted after the CDMSI plenary meeting in were taken into consideration in the revised draft. At its last meeting the MSI-JO had had an exchange of views with the Secretariat of the Venice Commission and the draft recommendation had benefited from comments of other international organisations.

The Bureau welcomed the draft recommendation of the Committee of Ministers to member states on the protection of journalism and safety of journalists and other media actors which was finalised by the MSI-JO. Further to a discussion on some editorial and formatting changes to be reflected in the draft recommendation, the Bureau agreed to recommend to the CDMSI members to approve it at the plenary meeting (8-11 December 2015).

6. Internet Standard setting

6.1 Committee of Experts on cross-border flow of Internet traffic and Internet freedom (MSI-INT)

During the summer the draft recommendation was revised on the basis of the comments received and finalised by the MSI-INT at its 4th and last meeting in September 2015.

The Bureau welcomed the draft recommendation of the Committee of Ministers to member states on Internet freedom which was finalised by the MSI-INT. Further to a discussion on some editorial changes to be reflected in the draft recommendation, the Bureau agreed to recommend to the CDMSI members to approve it at the plenary meeting (8-11 December 2015). It also took note of the explanatory memorandum of the Draft recommendation.

The Bureau also took note of the Draft report on freedom of assembly and association on the Internet, which was one of the expected results of the MSI-INT and proposed that the CDMSI takes note of it during its next plenary meeting in December 2015.

The Bureau was informed that the Co-operation Unit is currently implementing nine cooperation projects with external funding in the following countries – Ukraine, Moldova, Georgia, Azerbaijan, Morocco and Tunisia, as well as several regional projects. A large part of these on-going projects is being implemented within the EU Eastern Partnership Programmatic Co-operation Framework (PCF 2015-2017).
