Introduction

In the biennium 2016-2017, the priorities of the Cultural heritage sector within the CDCPP activities have refocused around the drawing up and implementation of the Strategy for the European cultural heritage in the XXIst Century (Strategy 21), the implementation of major conventions and specifically the Faro Convention (through the Faro Action Plan) and the consolidation of HEREIN.

The objectives to be pursued as regards HEREIN are the following: to strengthen its capacity to act as a forum and network for member States professionals and to make the database an efficient and effective tool for collecting and sharing not only information but knowledge.

In 2016 it has been possible to secure the contribution of an additional staff member based in Brussels who works specifically on the reinforcement of HEREIN.

The proposed actions are in line with the core founding objectives of HEREIN including:

1. a tool to collect data and information;
2. a tool for dialogue and exchange between national coordinators;
3. a tool for clarification of terminology in the field of heritage – Thesaurus;
4. an 'observatory' tool that follows up the implementation of European heritage conventions;
5. a platform for public administrations from 42 member States responsible for national policies in the field of cultural heritage.
