Initiated in 2012, the World Forum for Democracy is a platform for dialogue and innovation in democratic governance, which promotes the Council of Europe principles across the world. A unique event of its kind, it addresses key CHALLENGES facing democracy taking as a starting point ground-breaking initiatives, and fostering debate between different actors in order to find concrete SOLUTIONS. A democratic exercise in itself, the Forum aims at giving the people – demos – their rightful place in political decision-making. It thus contributes to the evolution of democracy towards more participatory and inclusive structures and institutions, and to the implementation of Sustainable Development Goal 16 on building just and peaceful societies.
