

International Symposium
**“ASEAN Cyber Security and Cyber Crime Center:
Possibility and Way Forward”**

Hosted by
Office of the Council of State (Krisdika)
15th – 16th September 2016
(Venue: Swissôtel Nai Lert Park, Bangkok)

Background

Cyber security has become one of the top priorities for both Private and Public Sectors in the modern society. Cyber security involves nation-wide strategy, as well as international coordination due to the borderless nature of cybercrime. It is of common concern because it affects everyone in daily life, from the traffic control to banks' security systems.

Thailand has deepening and strengthening cooperation on cyber security and cybercrime with other ASEAN Member States as well as ASEAN's partners such as Japan and EU. Workshops on Cybercrime Legislation in ASEAN Member States had been held in 2008, 2009, 2013 and 2014. Building upon the effort at present, the Office of the Council of State, Thailand, with kind collaboration from the ASEAN Secretary, UNODC, EUROPOL, Council of Europe, other ASEAN Member States,

and relevant Thai agencies, hosts this symposium as the first time of its kind in Bangkok, Thailand.

Objectives of the Symposium

To study benefits, constraints and possibility of establishing ASEAN Cyber Security Centre by sharing information on current situation on cyber security and cybercrime of ASEAN, exemplary of ASEAN Member States, Japan and the European Union.
