EFFECTIVE LEADERSHIP AND MANAGEMENT AS A BASIS OF ACTIVITIES OF THE MODERN PRISON DIRECTOR

The State Penitentiary Service of Ukraine in cooperation with the Directorate General of Human Rights and the Law of the Council of Europe implement the Project funded by the International Swedish International Development Cooperation Agency (SIDA) aimed at forming of the corps of professional leaders of the

penitentiary system.

Nowadays, the State Penitentiary Service of Ukraine faces the task of implementing **the Concept of Public Policy in the Sphere of Reform of the State Penitentiary Service of Ukraine** (hereinafter - the *Concept*), approved by the Decree of the President of Ukraine (dated November 8, 2012 № 631/2012).

The *Concept*, along with other significant challenges, has the task of introducing of the modern management model of the State Penitentiary Service of Ukraine, improving prison management, as well as introduction of new methods, technologies and approaches to prison management.

The priority in this process is the formation of a cohort of leaders of correctional and pre-trial prisons to be effective leaders and managers, not just executors of punishments, people who can lead others, able to work in the new style, able to implement progressive changes and the best European penal practices, be creative, proactive and responsible.

Achievement of this aim is concerned with one of the components of the project **"Support for Prison Reform in Ukraine"**, which is implemented by the State Penitentiary Service of Ukraine jointly with the Directorate General of Human Rights and the Rule of Law of the Council of Europe in the framework of **the Council of Europe - Ukraine Action Plan for 2011-2014**.

28-31 January 2013, a second study training seminar **"Effective Leadership and Management"** for directors of correctional and pre-trial

prisons from Kyiv, Cherkasy, Zhytomyr and Chernihiv regions was conducted in **Kyiv**. Training sessions were conducted by *John Teasdale* (expert of the Council of Europe from the UK), *Alla Grigorenko* (Secretary of the Scientific Council of the State Penitentiary Service of Ukraine), *Igor Bodnar* and *Oksana Miroshnichenko* (lecturers from Chernihiv Law College).

Classes contained not only theoretical issues of modern prison management but also practical exercises and examples of the European experience. There were discussions and debates among the directors of correctional and pre-trial prisons.

In particular, the director of the Kiev pre-trial prison *Roman Rodchyn*, using examples from his experience, proved his colleagues that the main idea of training is concerned with acquiring of humanistic leadership by every prison manager.

Active discussions were concerned with the issue of effective and ineffective leadership styles, implementation of the modern international approaches to organisation of functioning of a prison and work with offenders (dynamic security methods and pro-social modelling).

List of discussed questions was fairly broad and relevant for understanding the importance of the necessary changes in management of penal institutions, bringing every possible effort to implement practical measures to solve pressing problems in the prison system, which are formulated in mentioned above *Concept*.
