Introduction

As an international intergovernmental organisation created in 1949, and whose headquarters are located in Strasbourg (France), ***the Council of Europe*** has 47 member States: Albania, Andorra, Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Georgia, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Republic Moldova, Monaco, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russian Federation, San Marino, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, “the former Yugoslav Republic of Macedonia”, Turkey, Ukraine and the United Kingdom. Its main objectives are to promote democracy, human rights and the rule of law, and to seek common solutions to the main problems facing European society today.

The European Landscape Convention was adopted by the Committee of Ministers of the Council of Europe on 19 July 2000 in Strasbourg and opened for signature by the member States of the Organisation in Florence (Italy) on 20 October 2000, with the aim of promoting European landscape protection, management and planning and to organise international co-operation. It is the first international treaty to be exclusively devoted to all dimensions of the landscape. The Convention applies to the entire territory of the Parties and covers natural, rural, urban and peri-urban areas. It concerns landscapes that might be considered outstanding, as well as everyday or degraded landscapes. To date, 38 Council of Europe member States have ratified the Convention: Andorra, Armenia, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Finland, France, Georgia, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Republic of Moldova, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, San Marino, Serbia, Slovak Republic, Slovenia, Spain, Switzerland, Sweden, “the former Yugoslav Republic of Macedonia”, Turkey, Ukraine and the United Kingdom. Two states have signed the Convention: Iceland and Malta.

Organised by the Council of Europe on a regular basis since 2002, the Meetings of ***the Workshops for the implementation of the European Landscape Convention*** aim to present new concepts and achievements in favour of the implementation of the Convention. They thus represent a genuine forum for sharing practices and ideas. Special emphasis is given to the experiences of the state hosting the meeting.

The Council of Europe would like to thank the Government of Armenia for its co-operation and hospitality. In addition, the Council of Europe would like to thank the Ministry of Environment of Finland and the Swiss Federal Office of the Environment, Forestry and Landscape for their support.

Objectives

For the purposes of the European Landscape Convention, ‘Landscape policy’ means “an expression by the competent public authorities of general principles, strategies and guidelines that permit the taking of specific measures aimed at the protection, management and planning of landscapes”.

‘Landscape’ means “an area, as perceived by people, whose character is the result of the action and interaction of natural and/or human factors”; ‘Landscape protection’ means “actions to conserve and maintain the significant or characteristic features of a landscape, justified by its heritage value derived from its natural configuration and/or from human activity”; ‘Landscape management’ means “action, from a perspective of sustainable development, to ensure the regular upkeep of a landscape, in order to

guide and harmonise changes which are brought about by social, economic and environmental processes”; and ‘Landscape planning’ means “strong forward-looking action to enhance, restore or create landscapes”.

The Meeting aims to present experiences of national policies adopted or being developed, considering notably the provisions of its Article 5, which states that their Parties undertake:

- to recognise landscapes in law as an essential component of people’s surroundings, an expression of the diversity of their shared cultural and natural heritage, and a foundation of their identity;
- to establish and implement landscape policies aimed at landscape protection, management and planning, through the adoption of the specific measures set out in Article 6 of the Convention ;
- to establish procedures for the participation of the general public, local and regional authorities, and other parties with an interest in the definition and implementation of the landscape policies;
- to integrate landscape into their regional and town planning policies and in their cultural, environmental, agricultural, social and economic policies, as well as in any other policies with possible direct or indirect impact on landscape.

The conclusions of the Meeting will be presented at the 9th Council of Europe Conference on the European Landscape Convention (March 2017, Palais de l’Europe, Strasbourg).
