

Implementation of anti-doping policies in 2022 - Denmark

Implementation of anti-doping policies in 2022 - Questionnaire - Modified 1.0

Objective :

In order to implement the requirements of Article 9 of the Anti-Doping Convention, the annual online questionnaire is ready for data-collection on anti-doping policies in 2022.

In addition to the standard questions, three new ones on doping in recreational sport have been added replacing those on whistleblower protection. Please note that the proposed definitions for these questions are included in the instructions for each question.

For example, Question 1 refers to "gyms/fitness centres users" as individuals with a membership to a gyms/fitness centres. Gyms/fitness centres users may include both men and women at all ages, who partake in any kind of exercise activity offered by the gyms/fitness centres, including, but not limited to, strength training, endurance training, and/or group training (aerobics, spinning, yoga etc). Gym/fitness centre: A health, recreational, and social facility where people go to exercise, for example by lifting weights or using other equipment. It is often a for-profit commercial facility but may also be a community-based or institutionally supported centre.

Instruction :

For general instructions, please select the documentation links at the top of the page.

For specific instructions, please note that each question has additional support tools - previous answers and specific information related to that question.

If you encounter any problems that prevent you from completing the questionnaire, please email us at sport.t-do@coe.int.

Please complete, save and submit your country's 2022 data preferably by 27 April 2023. The final deadline for completing the survey is 1 June 2023.
