## **"Implementation of Corruption Prevention Mechanisms"**

December 13-14, 2018  
Palace of Serbia, Bulevar Mihajla Pupina 2  
- Serbia Hall/Belgrade Hall -

### **CONCEPT**

Having recognized that transparent and accountable institutions reinforce public trust and are some of the key components of good governance, the OSCE participating States from the region developed aspiring anti-corruption legislation and policies and endorsed the OSCE Ministerial Council Decision on Prevention of Corruption, adopted in Basel, Switzerland on 5 December 2014. To a large extent, the successful implementation of anti-corruption legislation and policy relies on effective application of preventive anti-corruption measures, which address such key areas as the conflict of interest and asset declaration systems, the control of political parties financing, and strengthening of the integrity of public officials.

While the relevant legislation is already in place and continues to get improved, it is critical that preventive anti-corruption actions are carried out in an adequate and pro-active manner to take full advantage of their potential.

Recognizing the vital importance of international and regional co-operation among national anti-corruption bodies in addressing these issues, the Anti-Corruption Agency of Serbia, with support of the OSCE Mission to Serbia and the Embassy of Italy in Serbia is organizing this Conference to facilitate the exchange of best practices and knowledge among anti-corruption practitioners, and to provide a forum for further discussion of development of preventive measures in the key areas of fight against corruption.

The Conference has been supported by the Government of the Republic of Italy and the OSCE Mission to Serbia.
