**1. Conditions:** List here all conditions which were attached to the award or the renewal of the European Diploma. Explain either how the conditions have been totally complied with or detail the progress in complying with the conditions. Please also indicate any unresolved difficulties that you have encountered.

Implement the new master plan for the Seitsemien National Park and evaluate by 2014 if there is a need of a new updated management plan.

Implementation is going on and need of an updated management plan has not occurred.

**2. Recommendations:** List here all recommendations which were attached to the award or the renewal of the European Diploma. Explain either how the recommendations have been totally complied with or detail the progress in complying with the recommendations. Please also indicate any unresolved difficulties that you have encountered.

1. Inform the Secretariat of the result of the management effectiveness evaluations (Report of the state of the parks) which will be made at five years intervals;

Seitsemien National Park is completely overlapping with European Union Natura 2000 site FI0311002 (SAC - Special Area of Conservation). The National park and Natura 2000 site are covered by an integrated management plan which takes into account all key values, threats and pressures and necessary conservation and other measures.

The former site-specific Management effectiveness evaluation (MEE) has been replaced by a formalized Natura 2000 Site Condition Assessment (NATA). This assessment is conducted every 6/12 years, as necessary. The first NATA assessment of Seitsemien NP/ Natura 2000 site FI0311002 was done in 2010 and the results were taken into account in the subsequent management plan. In the Pirkanmaa regional master plan (2017) an update was evaluated as not being urgent for this site. However, management effectiveness indicators (e.g. habitat management impacts, condition of visitor facilities and trends in visitor numbers etc.) are followed continuously/annually.

2. Continue the restoration plans for both mires and forests; continue arrangements for the appropriate grazing of meadows to encourage their biodiversity;

- grazing complying as planned.
- 18 hectares mires restored.

3. Metsähallitus should continue to bring together people with interests in biodiversity so as to foster the transfer and exchange of knowledge; scientific research should actively continue;

- complying as planned.

4. Deepen co-operation with local stakeholders, especially in the nature tourism sector:

Co-operation with local entrepreneurs within Seitsemien Nature Centre has been introduced, and since 1.1.2018 Nature Centre was run by a private entrepreneur. Negotiations of a new contract is underway, in which the goal is to improve customer experience in the area, and add nature based recreational and well-being services for the customers at the Nature Centre and its surroundings. Metsähallitus, Parks and Wildlife Finland continues to work for the general nature information and counseling of the area.

5. Provide the necessary funding to continue the renovation of the recreational facilities; customer services and nature interpretation should be further developed;

There are two funding projects going on, in which virtual guidance and digital services are being improved in 2018 and 2019. One of the projects is also developed to improve local products and visibility of the area together with 5 entrepreneurs.

**3. Site Management:** List here any changes to the European Diploma holding site management, in relation to both terrestrial and aquatic environments (as appropriate), and in relation to staff and finances, since the last annual report was submitted to the Council of Europe. Please also indicate any unresolved difficulties that you have encountered.

No changes.

**4. Boundaries:** Give details of any changes to the boundaries of the European Diploma holding site since the last annual report was submitted to the Council of Europe. If there are any changes, please attach an appropriate map to this report. Please also indicate any unresolved difficulties that you have encountered.

No changes.

**5. Other information:** List here any other information about the European Diploma holding site which you consider should be provided to the Council of Europe.

No changes.
