

Denmark, Holte 30th. March 2026

Candidature: Vice President of the Chamber of Regions

Dear madam / Dear Sir

I am an experienced and mature woman with 16 years of experience in local and regional politics from a mature democracy in the northern part of Europe. I am standing on a solid base of a combination of political leadership at the highest levels within municipality and regional chamber, as well as from the association of all regions in Denmark.

I have for 14 years now, chaired 3 different boards within my municipality (57.000 inhabitants) differing from schools and children, over roads and water supply, elderly care and social issues to business and community development.

I have for the last 12 years been part of the monitoring committee and I am fascinated by the work we do and have put my own passion into developing our new democracies in Europe, learning from the more mature ones and protecting the older ones.

I feel very strongly for this agenda. Democracy is not given, it is an acquired right and blessing, which needs constant work and awareness.

Throughout these 12 years, I have participated in election missions in Albania, Ukraine, Turkey, Cyprus, Montenegro and a couple of times in Bosnia Hercegovina.

I have also been on monitoring missions concerning the charter to ie. Italy.

To me it has not only been the actual observation mission which has been important. It has just as well been the relation building and the exchange of experience and points of view between the participants from so many different countries. We learn from each other and bring back experience to each of our countries.

I am good at building relationships and combine a good sense of humor with curiosity.

It is my sincere and deepfelt intention to work for the developing of our democracies and the protection of minorities and groups of opinion being suppressed.

I therefore apply for the position as Vice President of the Chamber of Regions.

Best Regards

Randi Mondorf
