1. Judicial organisation in Austria (2021 data)

In 2021 in Austria, the number of courts considered as legal entities is 152. Namely, there are 133 courts of general jurisdiction and 19 specialised courts.

Among the 133 legal entities of general jurisdiction, 128 act at first instance, 4 at second instance and one at third instance.

More precisely, the 115 District courts and the 13 Regional courts of general jurisdiction intervene as first instance courts. It is noteworthy that the 7 other regional courts that have specialised jurisdiction are not taken into consideration here, but are counted as specialised first instance courts (infra). It is to be mentioned that the peculiarity of the 20 Austrian Regional courts is that even though these are first instance courts, some of them are also competent in respect of appeals against District courts' decisions.

The 4 Higher Regional Courts have appeal competence in respect of all civil and criminal cases.

The Supreme court is the highest instance court in civil and criminal matters.

Among the 19 legal entities of specialised jurisdiction, 18 are of first instance and are competent for all legal matters not reserved to District courts. Within this total we have the 7 Regional courts of specialised competence.

The Supreme Administrative court is the highest instance in administrative matters.

In terms of geographic locations, there are 164 courts among which 158 are of first instance.

As a rule every court has to deal with all judicial issues. However, in the biggest Austrian cities certain courts are specialised, i.e. five in Vienna (civil cases, criminal cases, commercial cases [2 x], labour and social welfare cases) and two in Graz (civil cases, criminal cases).

It is noteworthy that one commercial court in Vienna, both courts (in Vienna and Graz) specialised on civil cases and both courts (in Vienna and Graz) specialised on the enforcement of criminal sanctions also act as second instance courts.

The two "other specialized first instance courts" are the two civil law courts (in Vienna and Graz), while the two specialised criminal courts also located in Vienna and Graz are specialised on the enforcement of criminal sanctions.

From January 1st, 2014 there are 11 newly found courts for administrative law in Austria, namely 9 regional administrative courts, 1 Federal administrative court and 1 Federal Tax Court.

The sum of the numbers in the categories exceeds the total number of specialised courts because the labour and social court in Vienna is one court that is competent for labour and (some) social welfare cases.

Namely, the predominance of 1st instance judges is more pronounced; at second instance, there are less judges than at the EU level, while at third instance there are more.

As regards the distribution of the number of judges among the different judicial instances, Austria presents some peculiarities which should be mentioned. The last instance includes judges sitting in the Supreme Court and the Supreme Administrative Court.

As regards the distribution Male/Female, it has to be specified that female judges have the majority only at first instance.

3. Legal aid and court fees in Austria (2021 data)

In Austria, legal aid is available for :

- > Representation in court:

◦ Criminal cases

◦ Other than criminal cases
- > Legal advice, ADR and other legal services:

◦ Criminal cases

◦ Other than criminal cases
- > Fees related to enforcement of judicial decisions as fees for enforcement agents (Q18)
- > Other costs than above (Q19)

In principle every person who retains a defence lawyer or another representative has to bear the costs him or herself even if the lawyer was appointed ex officio. By virtue of the Code of Criminal Procedure, the court has to decide on total or partial legal aid on the request of the defendant if the defendant cannot bear the total costs for the defence lawyer without impairment of his/her own or his/her family's maintenance which enables him/her to a simple lifestyle and if it is necessary in the interest of justice in particular in the interest of an adequate defence. Where in any case the defendant needs a defence lawyer, the court has to decide on legal aid ex officio even if the defendant does not request for it but further requirements to provide legal aid are given.

Civil Cases: a party with insufficient financial means may apply for legal aid when entering into litigation or at any time later as long as the civil proceeding is still pending. As far as required the court can give legal aid by (wholly or partially) freeing the indigent party from court fees and other fees (fees for experts, interpreters, witnesses and guardians appointed by the court - as representatives for absent parties or parties in need of guardianship -, the parties' travelling expenses, and costs of announcements) and by providing legal representation (by a lawyer) free of charge. Where legal representation is provided, legal aid also covers the pre-trial advice given by the lawyer. A party which was granted legal aid for a particular legal dispute in another EU Member State is also entitled to legal aid in Austria for a proceeding concerning the recognition and enforcement of the decision given in that dispute. If an application for legal aid is submitted concerning an urgent case the court has to decide speedily. If the court decides that the legal aid includes the assistance of a lawyer, the regional Bar Association selects a lawyer from among its members, by alphabetical order.

At its discretion the courts may grant full legal aid or – depending on the applicant's circumstances and taking into account expected costs – partial legal aid, covering only certain fees. But if the applicant loses the case, he has to reimburse the successful party's procedural costs. Legal aid covers all stages of the proceedings. Legal aid is granted for proceedings before civil courts, which is why legal aid is generally not available for alternative dispute resolution mechanisms. However, legal aid is granted for a special application to the court to facilitate a court settlement in a case of mandatory ADR in very special neighbourhood disputes.

If legal aid is granted in the main proceeding, the same also applies to the enforcement proceeding. According to the Austrian Civil Procedure Order, the requirements for granting legal aid have only to be re-examined, if the enforcement proceeding will be opened one year after the main proceeding has been closed.

In civil matters, the Austrian Civil Procedure Order provides for that legal aid may cover not only the (provisional) exemption from court fees but also the exemption from fees for witnesses, experts, interpreters and guardians, costs of the necessary announcements and the cash expenditure of guardians or lawyers, representation by a court official or – if necessary – a lawyer. If the personal presence of the parties at a hearing is ordered by the court, their necessary travel expenses are also replaced. In criminal matters, there are no costs to bear for the parties, until the court has taken a final decision, which also encompasses a decision on the costs. In case of an acquittal, the State has to bear all the costs. If a person, different from the Public Prosecutor, i.e. "Privatankläger" holds the accusation and loses the case because of an acquittal, s/he has to bear the costs. In case of a false accusation, the person who knowingly accused the (acquitted) perpetrator would have to bear the costs of the trial.

• Efficiency indicators

◦ Clearance Rate (CR) and Disposition Time (DT)

The Clearance Rate shows the capacity of a judicial system to deal with the incoming cases. A Clearance Rate of 100% and higher does not generate backlog.
The Disposition Time determines the estimated number of days necessary for a pending case to be solved in a court.

Clearance Rate by instance and by matter in 2021 (%)

DispositionTime by instance and by matter in 2021 (days)

In 2021, in Austria, the longest total length of proceedings, all instances taken into consideration, is calculated in the administrative law field, which is also the EU trend. In civil matters, the total length of proceedings is considerably below the EU median, while in criminal matters the value is slightly below the EU median.

The Disposition Time indicator is below the respective EU medians, except for first instance administrative cases and last instance criminal cases. However, in both situations, the Clearance Rate is satisfactory for 2021, especially concerning the administrative courts. Conversely, in terms of Clearance Rate, the threshold of 100% is not reached in 2021 by the Supreme administrative court, as well as for second and third instance civil cases.

More precisely, in addition to internal organisational measures in the Supreme administrative court due to the Covid-19 pandemic, changes to the legal framework were necessary in 2020 and 2021 to enable the passing of resolutions via circular letter without physical contact between the members of the judicial body. Besides, the increase in staff at the Federal Office for Immigration and Asylum and the Federal Administrative Court has led to an increase in the number of cases dealt with by these authorities and thus also in the number of cases brought before the Supreme Administrative Court, which has now been at a relatively high level for several years.

5. Public prosecution services in Austria (2021 data)

Public prosecution implemented budget

In Austria the budget for courts cannot be separated from the budget of the prosecution services. With regard to the sub-category “annual public budget allocated to training of public prosecution services” an answer is not possible because the costs for trainings for judges, public prosecutors, judicial officers (“Rechtspfleger”) and other staff working within courts or public prosecution services are summarized in one figure.

4. Pending cases on 31 Dec. ref. year	19 426	▼ -5,4%	0,22	0,87

* Please note that these figures do not include traffic offence cases.

In respect of “3.1.3 Discontinued by the public prosecutor for reasons of opportunity”, it should be mentioned that discontinued investigations for reasons of opportunity are only counted by persons against which the investigation was discontinued. In one case, more than one person can be accused and the investigation can be discontinued for reasons of opportunity against more than one accused person. Therefore, the person-count was not delivered because it is inconsistent with the case-count (3.1.1, 3.1.2 and 3.1.4). The number of cases in which an investigation was discontinued for reasons of opportunity is included in the number provided for 3.1.1 and 3.1.2 but cannot be evaluated separately with the standard statistic tools of the Federal Ministry of Justice of Austria.

The provided number of cases discontinued for other reasons (3.1.4) contains cases discontinued because the offender is fugitive or an investigation may not be instituted or continued by law (e.g. because of diplomatic immunity of the offender), also cases (investigations) that were not instituted in the first place because of a lack of an initial suspicion and all other cases that were discontinued but can not be allocated to one of the above mentioned reasons or the other reasons under 3.1.

Under 3.3, closed cases against unidentified offenders were counted which were discontinued because of another reason than not identifying the offender in the end (mostly cases in which at least one formerly unidentified offender could be identified and therefore the case against the unidentified offender(s) is closed and another (new) case against the known offender(s) is opened).

The Austrian Code of criminal procedure knows measures that the public prosecutor can take in cases of minor criminal offences (“Diversion”). Comparable measures have to be taken by the public prosecutor under certain circumstances under the addictive drug act (“Suchtmittelgesetz”). Until 2019, the last-mentioned cases were counted as files “discontinued by the public prosecutor due to the lack of an established offence or a specific legal situation” (3.1.2). Since 2020, these cases are now counted as “concluded by a penalty or a measure imposed or negotiated by the public prosecutor” (3.2).
