Biennial report on exceptions

Creation Date: 2026-06

Deadline: 2026-09-15

Language: English

Submitted Date: 2026-09-17

Introduction

Article 9 to the Bern Convention permits exceptions from the obligations accepted by Contracting Parties in pursuance of Articles 4 to 8. The possibility of derogating from the mentioned articles of the Convention is subject to two very clearly defined general conditions, and some non cumulative specific reasons, listed exhaustively in Article 9.

The two general conditions that must be met are:

a. that there is no other satisfactory solution; and

b. that the exception will not be detrimental to the survival of the population concerned.

These two conditions are mandatory and cumulative.

The specific reasons for which the exceptions may be granted are the following:

i. for the protection of flora and fauna;

ii. to prevent serious damage to crops, livestock, forests, fisheries, water and other forms of property;

iii. in the interests of public health and safety, air safety or other overriding public interests *(please, specify)*;

iv. for the purposes of research and education, of repopulation, of reintroduction and for the necessary breeding;

v. to permit, under strictly supervised conditions, on a selective basis and to a limited extent, the taking, keeping or other judicious exploitation of certain wild animals and plants in small numbers

vi. *falconry (falconry is dealt with separately)*

These specific reasons are mandatory and non cumulative.

According to Article 9§2, Contracting Parties shall report every two years to the Standing Committee on the exceptions made. The reports must specify:

a. the populations which are or have been subject to the exceptions and, when practical, the number of specimens involved;

b. the means authorised for the killing or capture;

c. the conditions of risk and the circumstances of time and place under which such exceptions were granted;

d. the authority empowered to declare that these conditions have been fulfilled, and to take decisions in respect of the means that may be used, their limits and the persons instructed to carry them out;

e. the controls involved.

Respondent details

Entity

Snežana Prokić

APPENDIX I

EXCEPTIONS CONCERNING STRICTLY PROTECTED FLORA SPECIES (ART. 5 - APPENDIX I)

ANGIOSPERMAE

LABIATEAE

Dracocephalum ruyschiana

Is there a derogation concerning this species in your country?

Please select only one option

- (●) Yes
- ( ) No

Number of specimens involved, when practical

95

Number of licences

2

Reasons for issuing of licences (art. 9, i. to v.)

Tick all that apply

- [ ] i. protection of flora/fauna
- [ ] ii. prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property
- [ ] iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- [x] iv. for research / education / repopulation / reintroduction / necessary breeding
- [ ] v. judicious exploitation of certain wild plants in small numbers and under certain conditions

Please elaborate on the stated reasons for issuing of licences (art. 9, iv.)

(Regarding response 'iv.: for research / education / repopulation / reintroduction / necessary breeding').

None

What is the impact of the derogation on the species population?

None

The conditions of risk and the circumstances of time and place under which such exceptions were granted

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Institute for Nature Conservation of Serbia

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

ORCHIDACEAE

Ophrys sphegodes subsp. mammosa

Is there a derogation concerning this species in your country?

Please select only one option

- (●) Yes
- ( ) No

Number of specimens involved, when practical

4

Number of licences

1

Reasons for issuing of licences (art. 9, i. to v.)

Tick all that apply

- [ ] i. protection of flora/fauna
- [ ] ii. prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property
- [ ] iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- [x] iv. for research / education / repopulation / reintroduction / necessary breeding
- [ ] v. judicious exploitation of certain wild plants in small numbers and under certain conditions

What is the impact of the derogation on the species population?

None

The conditions of risk and the circumstances of time and place under which such exceptions were granted

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Institute for Nature Conservation of Serbia

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

APPENDIX II

EXCEPTIONS CONCERNING STRICTLY PROTECTED FAUNA SPECIES (ART. 6 - APPENDIX II)

Article 6 of the Convention prohibits the following:

(a) all forms of deliberate capture and keeping and deliberate killing;
(b) the deliberate damage to or destruction of breeding or resting sites;
(c) the deliberate disturbance of wild fauna, particularly during the period of breeding, rearing and hibernation, insofar as disturbance would be significant in relation to the objectives of this Convention;
(d) the deliberate destruction or taking of eggs from the wild or keeping these eggs even if empty;
(e) the possession of and internal trade in these animals, alive or dead, including stuffed animals and any readily recognisable part or derivative thereof, (where this would contribute to the effectiveness of the provisions of this article).

Vertebrates

AMPHIBIANS > ANURA

Bufonidae

Bufo viridis (Pseudepidalea viridis)

Is there a derogation concerning this species in your country?

Please select only one option

- ○ Yes
- ○ No

MAMMALS > CARNIVORA

Canidae

Canis lupus

Is there a derogation concerning this species in your country?

Please select only one option

- ◉ Yes
- ○ No

Number of specimens involved, when practical

122

Authorised action (art. 6, a. to e.)

Tick all that apply

- ☑ all forms of deliberate capture and keeping and deliberate killing
- ☐ the deliberate damage to or destruction of breeding or resting sites
- ☐ the deliberate disturbance of wild fauna, particularly during the period of breeding, rearing and hibernation, insofar as disturbance would be significant in relation to the objectives of this Convention
- ☐ the deliberate destruction or taking of eggs from the wild or keeping these eggs even if empty
- ☐ the possession of and internal trade in these animals, alive or dead, including stuffed animals and any readily recognisable part or derivative thereof, where this would contribute to the effectiveness of the provisions of this article

Reasons for issuing of licences (art. 9, i. to v.)

Tick all that apply

- ☐ i. protection of flora/fauna

- [x] ii. prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property
- [ ] iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- [ ] iv. for research / education / repopulation / reintroduction / necessary breeding
- [ ] v. judicious exploitation of certain wild plants in small numbers and under certain conditions

What is the impact of the derogation on the species population?

None

The conditions of risk and the circumstances of time and place under which such exceptions were granted.

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Ministry of Agriculture, Forestry and Water Management

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

Where appropriate: indiscriminate means of capture and killing

Tick all that apply

- [ ] 1. Snares
- [ ] 2. Live animals used as decoys which are blind or mutilated
- [ ] 3. Tape recorders
- [ ] 4. Electrical devices capable of killing and stunning
- [ ] 5. Artificial light sources
- [ ] 6. Mirrors and other dazzling devices
- [ ] 7. Devices for illuminating targets
- [ ] 8. Sighting devices for night shooting comprising an electronic image magnifier or image converter
- [ ] 9. Explosives
- [ ] 10. Nets
- [ ] 11. Traps
- [ ] 12. Poison and poisoned or anaesthetic bait
- [ ] 13. Gassing or smoking out
- [ ] 14. Semi-automatic or automatic weapons with a magazine capable of holding more than two rounds of ammunition
- [ ] 15. Aircraft
- [ ] 16. Motor vehicles in motion
- [ ] 17. Limes
- [ ] 18. Hooks
- [ ] Other means capable of causing local disappearance of, or serious disturbance to, populations of a species
- [x] Not applicable

Mustelidae

Lutra lutra

Is there a derogation concerning this species in your country?

Please select only one option

- ○ Yes
- ◉ No

Ursidae

All species of Ursidae (Ursus arctos)

Is there a derogation concerning this species in your country?

Please select only one option

- ◉ Yes
- ○ No

Number of specimens involved, when practical

7

Authorised action (art. 6, a. to e.)

Tick all that apply

- ☑ all forms of deliberate capture and keeping and deliberate killing
- ☐ the deliberate damage to or destruction of breeding or resting sites
- ☐ the deliberate disturbance of wild fauna, particularly during the period of breeding, rearing and hibernation, insofar as disturbance would be significant in relation to the objectives of this Convention
- ☐ the deliberate destruction or taking of eggs from the wild or keeping these eggs even if empty
- ☐ the possession of and internal trade in these animals, alive or dead, including stuffed animals and any readily recognisable part or derivative thereof, where this would contribute to the effectiveness of the provisions of this article

Number of licences

1

Reasons for issuing of licences (art. 9, i. to v.)

Tick all that apply

- ☐ i. protection of flora/fauna
- ☐ ii. prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property
- ☐ iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- ☑ iv. for research / education / repopulation / reintroduction / necessary breeding
- ☐ v. judicious exploitation of certain wild plants in small numbers and under certain conditions

Please elaborate on the stated reasons for issuing of licences (art. 9, iv.)

(Regarding response 'iv.: for research / education / repopulation / reintroduction / necessary breeding').

7 individuals marked with GPS collars and chips.

What is the impact of the derogation on the species population?

None

The conditions of risk and the circumstances of time and place under which such exceptions were granted.

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Institute for Nature Conservation of Serbia

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

Where appropriate: indiscriminate means of capture and killing

Tick all that apply

- [ ] 1. Snares
- [ ] 2. Live animals used as decoys which are blind or mutilated
- [ ] 3. Tape recorders
- [ ] 4. Electrical devices capable of killing and stunning
- [ ] 5. Artificial light sources
- [ ] 6. Mirrors and other dazzling devices
- [ ] 7. Devices for illuminating targets
- [ ] 8. Sighting devices for night shooting comprising an electronic image magnifier or image converter
- [ ] 9. Explosives
- [ ] 10. Nets
- [x] 11. Traps
- [ ] 12. Poison and poisoned or anaesthetic bait
- [ ] 13. Gassing or smoking out
- [ ] 14. Semi-automatic or automatic weapons with a magazine capable of holding more than two rounds of ammunition
- [ ] 15. Aircraft
- [ ] 16. Motor vehicles in motion
- [ ] 17. Limes
- [ ] 18. Hooks
- [ ] Other means capable of causing local disappearance of, or serious disturbance to, populations of a species
- [ ] Not applicable

MAMMALS > CHIROPTERA

Rhinolophidae

All species of Microchiroptera except Pipistrellus pipistrellus (Rhinolophus blasii)

Is there a derogation concerning this species in your country?

Please select only one option

- (●) Yes
- ( ) No

Number of specimens involved, when practical

17

Authorised action (art. 6, a. to e.)

Tick all that apply

- [x] all forms of deliberate capture and keeping and deliberate killing
- [ ] the deliberate damage to or destruction of breeding or resting sites
- [ ] the deliberate disturbance of wild fauna, particularly during the period of breeding, rearing and hibernation, insofar as disturbance would be significant in relation to the objectives of this Convention
- [ ] the deliberate destruction or taking of eggs from the wild or keeping these eggs even if empty
- [ ] the possession of and internal trade in these animals, alive or dead, including stuffed animals and any readily recognisable part or derivative thereof, where this would contribute to the effectiveness of the provisions of this article

Number of licences

1

Reasons for issuing of licences (art. 9, i. to v.)

Tick all that apply

- [ ] i. protection of flora/fauna
- [ ] ii. prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property
- [ ] iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- [x] iv. for research / education / repopulation / reintroduction / necessary breeding
- [ ] v. judicious exploitation of certain wild plants in small numbers and under certain conditions

What is the impact of the derogation on the species population?

None

The conditions of risk and the circumstances of time and place under which such exceptions were granted.

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Institute for Nature Conservation of Serbia

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

Where appropriate: indiscriminate means of capture and killing

Tick all that apply

- [ ] 1. Snares
- [ ] 2. Live animals used as decoys which are blind or mutilated
- [ ] 3. Tape recorders
- [ ] 4. Electrical devices capable of killing and stunning
- [ ] 5. Artificial light sources
- [ ] 6. Mirrors and other dazzling devices
- [ ] 7. Devices for illuminating targets
- [ ] 8. Sighting devices for night shooting comprising an electronic image magnifier or image converter

- [ ] iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- [x] iv. for research / education / repopulation / reintroduction / necessary breeding
- [ ] v. judicious exploitation of certain wild plants in small numbers and under certain conditions

Please elaborate on the stated reasons for issuing of licences (art. 9, iv.)

(Regarding response 'iv.: for research / education / repopulation / reintroduction / necessary breeding').

4 individuals ringed and released, 2 oral/2 rectal swabs;

What is the impact of the derogation on the species population?

NOne

The conditions of risk and the circumstances of time and place under which such exceptions were granted.

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Institute for Nature Conservation of Serbia

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

Where appropriate: indiscriminate means of capture and killing

Tick all that apply

- [ ] 1. Snares
- [ ] 2. Live animals used as decoys which are blind or mutilated
- [ ] 3. Tape recorders
- [ ] 4. Electrical devices capable of killing and stunning
- [ ] 5. Artificial light sources
- [ ] 6. Mirrors and other dazzling devices
- [ ] 7. Devices for illuminating targets
- [ ] 8. Sighting devices for night shooting comprising an electronic image magnifier or image converter
- [ ] 9. Explosives
- [x] 10. Nets
- [ ] 11. Traps
- [ ] 12. Poison and poisoned or anaesthetic bait
- [ ] 13. Gassing or smoking out

APPENDIX III

EXCEPTIONS CONCERNING PROTECTED FAUNA SPECIES (ART. 7 APPENDIX III)

According to article 7 of the Convention, any exploitation of wild fauna specified in Appendix III shall be regulated in order to keep the populations out of danger. Measures to be taken shall include:

i. closed seasons and/or other procedures regulating the exploitation;
ii. the temporary or local prohibition of exploitation, as appropriate, in order to restore satisfactory population levels;
iii. the regulation as appropriate of sale, keeping for sale, transport for sale or offering for sale of live and dead wild animals.

Exceptions to species listed in Appendix III concern the use of means of capture and killing specified in Appendix IV.

Vertebrates

BIRDS > ANSERIFORMES

Anatidae

All species of Birds not included in Appendix II (Anas crecca)

Is there a derogation concerning this species in your country?

Please select only one option

- [ ] 14. Semi-automatic or automatic weapons with a magazine capable of holding more than two rounds of ammunition
- [ ] 15. Aircraft
- [ ] 16. Motor vehicles in motion
- [ ] 17. Limes
- [ ] 18. Hooks
- [ ] Other means capable of causing local disappearance of, or serious disturbance to, populations of a species
- [x] Not applicable

All species of Birds not included in Appendix II (Gallinula chloropus)

Is there a derogation concerning this species in your country?

Please select only one option

- (●) Yes
- ( ) No

Number of specimens involved, when practical

8

Exceptions made

What exceptions have been made?

Eight individuals were ringed and released.

Reasons for issuing of licences (art. 9, i. to v.)

Tick all that apply

- [ ] i. protection of flora/fauna
- [ ] ii. prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property
- [ ] iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- [x] iv. for research / education / repopulation / reintroduction / necessary breeding
- [ ] v. judicious exploitation of certain wild plants in small numbers and under certain conditions

What is the impact of the derogation on the species population?

None

The conditions of risk and the circumstances of time and place under which such exceptions were granted

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Institute for Nature Conservation of Serbia

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

Where appropriate: indiscriminate means of capture and killing

Tick all that apply

- [ ] 1. Snares
- [ ] 2. Live animals used as decoys which are blind or mutilated
- [ ] 3. Tape recorders
- [ ] 4. Electrical devices capable of killing and stunning
- [ ] 5. Artificial light sources
- [ ] 6. Mirrors and other dazzling devices
- [ ] 7. Devices for illuminating targets
- [ ] 8. Sighting devices for night shooting comprising an electronic image magnifier or image converter

5

Exceptions made

What exceptions have been made?

5 individuals were caught and returned alive to the water after identification; electrofishing equipment was used;

Reasons for issuing of licences (art. 9, i. to v.)

Tick all that apply

- [ ] i. protection of flora/fauna
- [ ] ii. prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property
- [ ] iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- [x] iv. for research / education / repopulation / reintroduction / necessary breeding
- [ ] v. judicious exploitation of certain wild plants in small numbers and under certain conditions

What is the impact of the derogation on the species population?

none

The conditions of risk and the circumstances of time and place under which such exceptions were granted

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Institute for Nature Conservation of Serbia

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

Where appropriate: indiscriminate means of capture and killing

Tick all that apply

- [ ] 1. Snares
- [ ] 2. Live animals used as decoys which are blind or mutilated
- [ ] 3. Tape recorders
- [x] 4. Electrical devices capable of killing and stunning
- [ ] 5. Artificial light sources
- [ ] 6. Mirrors and other dazzling devices
- [ ] 7. Devices for illuminating targets
- [ ] 8. Sighting devices for night shooting comprising an electronic image magnifier or image converter
- [ ] 9. Explosives
- [ ] 10. Nets
- [ ] 11. Traps
- [ ] 12. Poison and poisoned or anaesthetic bait
- [ ] 13. Gassing or smoking out
- [ ] 14. Semi-automatic or automatic weapons with a magazine capable of holding more than two rounds of ammunition
- [ ] 15. Aircraft
- [ ] 16. Motor vehicles in motion
- [ ] 17. Limes
- [ ] 18. Hooks
- [ ] Other means capable of causing local disappearance of, or serious disturbance to, populations of a species
- [ ] Not applicable

The conditions of risk and the circumstances of time and place under which such exceptions were granted

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.

The authority empowered to declare that the conditions have been fulfilled

The Ministry of Environmental Protection and The Institute for Nature Conservation of Serbia

The controls involved in identifying whether the conditions have been fulfilled

Management and monitoring plans

Where appropriate: indiscriminate means of capture and killing

Tick all that apply

- [ ] 1. Snares
- [ ] 2. Live animals used as decoys which are blind or mutilated
- [ ] 3. Tape recorders

- [x] 4. Electrical devices capable of killing and stunning
- [ ] 5. Artificial light sources
- [ ] 6. Mirrors and other dazzling devices
- [ ] 7. Devices for illuminating targets
- [ ] 8. Sighting devices for night shooting comprising an electronic image magnifier or image converter
- [ ] 9. Explosives
- [ ] 10. Nets
- [ ] 11. Traps
- [ ] 12. Poison and poisoned or anaesthetic bait
- [ ] 13. Gassing or smoking out
- [ ] 14. Semi-automatic or automatic weapons with a magazine capable of holding more than two rounds of ammunition
- [ ] 15. Aircraft
- [ ] 16. Motor vehicles in motion
- [ ] 17. Limes
- [ ] 18. Hooks
- [ ] Other means capable of causing local disappearance of, or serious disturbance to, populations of a species
- [ ] Not applicable

MAMMALS > CARNIVORA

Mustelidae

Mustela nivalis

Is there a derogation concerning this species in your country?

Please select only one option

- (●) Yes
- ( ) No

Number of specimens involved, when practical

3

Exceptions made

What exceptions have been made?

Two individuals collected in 2023 and one dead individuals collected in 2024.

Reasons for issuing of licences (art. 9, i. to v.)

Tick all that apply

- [ ] i. protection of flora/fauna
- [ ] ii. prevention of serious damage to crops, livestock, forests, fisheries, water and other forms of property
- [ ] iii. in the interests of public health and safety, air safety or other overriding public interests (which?)
- [x] iv. for research / education / repopulation / reintroduction / necessary breeding
- [ ] v. judicious exploitation of certain wild plants in small numbers and under certain conditions

What is the impact of the derogation on the species population?

None

The conditions of risk and the circumstances of time and place under which such exceptions were granted

Acting on the request of the Ministry of Environmental Protection, and in accordance with Article 78, Paragraphs 1 and 3 of the Law on Nature Protection and the Rulebook on the Proclamation and Protection of Strictly Protected and Protected Wild Species of Plants, Animals and Mushrooms, the Institute of Nature Conservation of Serbia issues an opinion in connection with specific activities and in the case of giving a positive opinion, i.e. permits, certain measures are prescribed.
